### 2020 Highlights

## This is DDM Debt

DDM Debt AB (publ) (“DDM” or the “Company”) was founded in 2016 to fund the DDM Debt Group’s growth. The DDM Debt Group is based in Zug, Switzerland.

The DDM Debt Group is a specialized multinational investor and manager of non-performing loans (“NPL”) and special situations. Primarily the DDM Debt Group invests in corporate and consumer secured portfolios, but also in unsecured portfolios in Southern, Central and Eastern Europe. The DDM Debt Group works in close and longstanding relations with banks and financial institutions and provide solutions to recover outstanding distressed assets.

The DDM Debt Group is a specialized multinational investor and manager of non-performing loans (“NPL”) and special situations, and mainly invests in non-performing loans with an investment value of EUR 5–100M. Primarily the DDM Debt Group invests in corporate and consumer secured portfolios, but also in unsecured portfolios in Southern, Central and Eastern Europe. The DDM Debt Group works in close and longstanding relations with banks and financial institutions and provide solutions to recover outstanding distressed assets.

The DDM Debt Group has developed state-of-the-art processes for analysis, pricing and management of the acquired portfolios through its deep industry experience. In 2019 we launched a servicing platform for secured portfolios to increase the focus on portfolio management and business development services. Access to this servicing platform for secured portfolios complements our partnerships with leading local collection agencies to optimize collections from each portfolio, ensuring increased control and enabling the DDM Debt Group to be closer to the market. Consequently, the DDM Debt Group has developed a successful business model allowing for flexibility, automated processes and speed in decision-making.

For sellers, management of portfolios of distressed assets is a sensitive issue as it concerns the relationship with their customers. For sellers of portfolios it is therefore critical that the acquirer handles the underlying individual debtors professionally, ethically and with respect. The DDM Debt Group has longstanding relations with sellers of distressed assets, based on trust and the Group’s status as a credible acquirer. The DDM Debt Group’s expertise is key to assess the portfolios, as well as to decide how to open up a dialogue with the debtors. The goal is to establish an instalment plan and in the end achieve an amicable settlement where the debtor has repaid the outstanding amount. The DDM Debt Group evaluates a significant number of investment opportunities every year, resulting in a deep understanding of the market and the ability to identify the best investment opportunities.

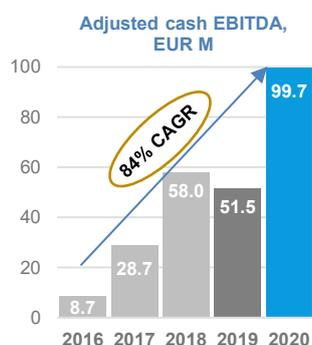

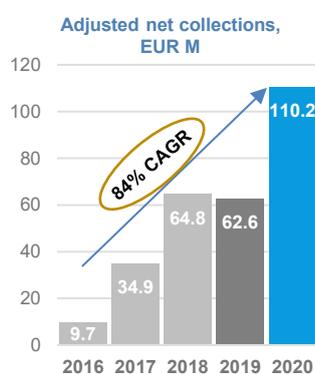

Loan moratorium measures implemented across Europe in response to the COVID-19 pandemic have limited banks’ abilities to dispose of non-core NPLs. Therefore, increasing transaction volumes are expected following an end to loan moratoriums, low transaction volumes in 2020 and increasing NPLs on the back of COVID-19. The DDM Debt Group’s understanding of the complete collection process, access to portfolio management services for secured portfolios in the Balkans in combination with the existing network of specialized local collection agencies gives the DDM Debt Group a unique advantage in the market. Combined with a proprietary IT-system, relations with co-investors and a flexible business model, this supports the DDM Debt Group’s continued growth and its ambitions to maximize shareholder value. The DDM Debt Group is well-positioned to capitalize on rising NPL volumes.

## STATEMENT BY THE CEO

Henrik Wennerholm,  
CEO of DDM Debt

*“DDM is well-positioned to capitalize on rising NPL volumes with a strong investment”*

## Record results confirms credit quality of portfolios

I am delighted to announce that we have achieved record net collections of EUR 110m and cash EBITDA of EUR 100m for the full year 2020. This is a remarkable achievement especially given the challenging market conditions as a result of the COVID-19 pandemic, in which we managed to successfully restructure our investment in Greece resulting in accelerated collections of approximately EUR 60m.

We have also continued to focus on deleveraging our balance sheet following bond buybacks and repurchases exceeding EUR 36m in 2020. Following the end of the year we renewed our revolving credit facility (RCF) for a further two years and in combination with a strong liquidity and capital position will support us ahead of refinancing the existing senior secured bonds to extend the maturity and support future growth.

### Successful restructuring of Greek transaction

We successfully restructured the Greek transaction we first entered into in August 2017. The restructuring resulted in accelerated collections of approximately EUR 60m during the year. The transaction was the first larger NPL transaction in Greece and was a landmark transaction for us. We have achieved a net multiple of over 1.8x and an IRR of above 30% on this investment. This not only proves the underlying credit quality of our portfolios, but also demonstrates our underwriting, portfolio management and transaction expertise in complex situations.

### Continued progress on debt structure

During the year we extended the maturity of DDM Debt AB's EUR 50m senior secured bonds by 12 months to 11 December 2021. We have also deleveraged the balance sheet by repurchasing and repaying EUR 36m of bonds. After the end of year we renewed our RCF of EUR 27m with an international bank for a further two years until March 2023, with the terms of the new RCF materially in line with the previous RCF which was due to mature on 15 March 2021. This in combination with a strong liquidity and capital position will support us ahead of refinancing the existing senior secured bonds to extend the maturity and support future growth.

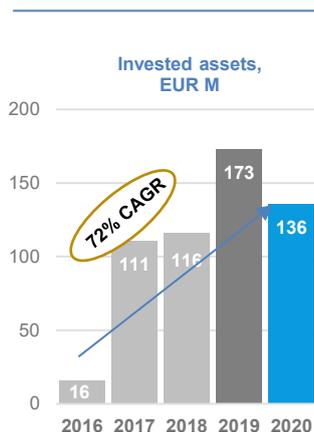

### Strategic investment in Addiko Bank AG

We made a strategic investment by acquiring a 9.9% stake in Addiko Bank AG (“Addiko Bank”) and intend to increase our shareholding further. We strongly believe that the region in which Addiko Bank operates, and which is well known to DDM, continues to offer attractive opportunities for SME and retail banking. DDM plans to support Addiko Bank in its accelerated transformation from being a full-scale bank to focusing on the consumer and SME segments with a strong focus on digitalization, including the disposal of non-core assets.

### Earnings 2020

Adjusted net collections totaled EUR 110.2m for the full year 2020, 76% higher than 2019 mainly due to the EUR 59.8m of accelerated collections received following the restructuring in Greece.

Negative revaluation and impairment totaled EUR 1.3m, less than 1% of the carrying value of the opening book at the start of the year which shows the resilience of our portfolio which is supported by high quality secured assets, despite the adverse global impact from the COVID-19 pandemic. Operating expenses were EUR 10.5m for the full year 2020, EUR 0.6m lower than in 2019 mainly due to start-up costs incurred in the prior year to build-up the servicing platform that was sold to AXFina Holding S.A. in December 2019.

This has resulted in record adjusted cash EBITDA of EUR 99.7m for the full year 2020, an increase of 94% compared to 2019. The net result for the full year 2020 is a profit of EUR 8.9m, despite being negatively impacted by EUR 1.6m of unrealized exchange losses principally due to unfavorable exchange rate movements of the Croatian Kuna and the Hungarian Forint to the Euro.

For the full year 2020, cash flow from operating activities before working capital changes was EUR 87.8m compared to EUR 30.7m for the full year 2019. This is primarily as a result of the higher net collections in 2020, lower interest paid due to the call premium that was paid in 2019 in relation to the EUR 85m bond and corporation tax that was prepaid in the prior year. Cash on hand was EUR 31m at the end of December with EUR 18m of headroom under our EUR 27m RCF.

### Share of net profits of joint ventures and associates

Following the acquisition that closed during 2019 of a significant corporate secured portfolio in Croatia made through a 50/50 Joint Venture structure together with B2Holding, the results for the full year 2020 include EUR 1.1m (2019: EUR 0.9m) from the share of net profits of joint ventures accounted for under the equity method in accordance with IFRS. Following the acquisition of a 9.9% stake in Addiko Bank AG that closed during March 2020, the results for the full year 2020 include EUR 2.7m share of net income in other comprehensive income and EUR 0.2m share of net profits in the income statement of the associate accounted for under the equity method in accordance with IFRS.

### Significant events after the end of the year

In February DDM Debt AB renewed its revolving credit facility of EUR 27m with an international bank for a further two years until March 2023, with the terms of the new RCF materially in line with the previous RCF which was due to mature on 15 March 2021.

### Market outlook

DDM is exploring new opportunities and diversifying its business model to be better positioned to work through the challenges faced due to the COVID-19 pandemic. During the full year 2020 the DDM Debt Group has made a strategic investment in Addiko Bank. The DDM Debt Group is a highly experienced investor in Addiko Bank's core markets and is looking to support Addiko Bank in its transformation process.

The supply of new NPLs is also expected to increase more than investor demand in the foreseeable future as a result of adverse economic conditions due to the COVID-19 pandemic and European banks continuing to deleverage their balance sheets, thereby resulting in improved market returns. The DDM Debt Group is well-positioned to capitalize on rising NPL volumes expected in the future at attractive prices following the slowdown in 2020 as a result of the COVID-19 pandemic.

## Administration Report

The Board of Directors and the CEO of DDM Debt AB (publ) hereby submit the annual report and consolidated financial statements for the 2020 financial year.

### Information regarding the operations

DDM Debt AB (publ) (corporate identity number 559053-6230) is domiciled in Stockholm, Sweden and is a limited liability company that conducts operations in accordance with the Swedish Companies Act. The Company was registered on 3 March 2016, and changed from a private limited liability company to a public limited liability company on 26 May 2016.

DDM Debt is a wholly owned subsidiary of DDM Finance AB, Stockholm, Sweden, being a wholly owned subsidiary of DDM Group AG, Zug, Switzerland. DDM Group AG is a wholly-owned subsidiary of DDM Holding AG. DDM Holding AG has been listed on Nasdaq First North Growth Market exchange in Stockholm, Sweden, since August 2014.

DDM Debt acts to directly or indirectly manage, acquire or invest in credits and/or loan portfolios, to on-lend or invest funds in group companies who directly or indirectly manage, acquire or invest in credits and/or loan portfolios and conduct related activities, to incur financing for its business and to conduct related activities. DDM Group AG acts as the investment manager and makes all decisions regarding investments and allocation of resources.

### Subsidiaries

Since 2016 DDM Invest VII d.o.o., Slovenia, is a wholly owned subsidiary of DDM Debt. DDM Debt Management d.o.o. Beograd, was incorporated in Serbia on 22 August 2017 and DDM Debt Romania S.R.L was incorporated in Romania on 31 July 2018. DDM Invest V d.o.o. (formerly Ahive d.o.o.) is a 100% indirectly held subsidiary through DDM Invest III AG (formerly held through DDM Invest I AG until the merger on 14 June 2019) that was incorporated in Slovenia on 22 October 2018.

The following subsidiaries were merged into DDM Invest III AG on 14 June 2019 to simplify the existing DDM Group structure: DDM Invest I AG, DDM Invest II AG, DDM Invest IV AG, DDM Invest VII AG, DDM Invest X AG and DDM Invest XX AG. DDM Invest III AG has assumed all rights, liabilities and obligations from the merged subsidiaries.

On 30 September 2019 DDM Treasury Sweden AB was contributed to DDM Debt by DDM Finance at book value, resulting in a EUR 45k capital contribution from DDM Finance. On 11 February 2020 DDM Treasury Sweden AB was merged into DDM Debt AB to simplify the existing DDM Group structure.

On 23 December 2019 a further 12% of the shares of aXs GmbH (in addition to the 70% already held) were acquired for a total consideration of EUR 200k. Subsequently 82% of the shares held in aXs GmbH were sold to Ax Financial Holding S.A. ("AxFina"), which is 100% owned and controlled by DDM Group Finance S.A. (DDM Holding's AG largest shareholder) for a total deferred consideration of EUR 1,367k on 23 December 2019, payable within one year. This transaction resulted in a gain on sale of shares of EUR 1,142k which was recognized in the income statement for the full year 2019 under "Other operating income".

On 27 February 2020, the DDM Debt Group acquired and obtained 100% control of the economic rights to a distressed asset portfolio located in Hungary, resulting in the consolidation of Clipper Holding III S.à r.l. Prior to the acquisition DDM owned the rights to 30 percent of the portfolio and 100 percent of the equity in Lombard which has been reclassified from other long-term receivables from investments to distressed asset portfolios. On 17 December 2020 Clipper Holding III S.à r.l. was dissolved.

On 23 July 2020, DDM REO Adria d.o.o. was incorporated.

### Joint ventures

The DDM Debt Group's joint arrangement with B2Holding closed on 31 May 2019 where each party holds 50% of the share capital and voting rights of CE Partner S.à r.l. and CE Holding Invest S.C.S (the "Joint Venture") is classified as a joint venture, as the DDM Debt Group is entitled to 50% of the net assets of the Joint Venture rather than having a direct entitlement to assets and responsibility for liabilities.

### Facts and figures – The DDM Debt Group 2020

Consolidated revenue on invested assets during the year amounted to EUR 36,248k (2019: EUR 22,446k). Net collections during the year were EUR 104,876k (2019: EUR 54,272k). Net collections on sale of invested assets during the 2020 year amounted to EUR nil, compared to EUR 4,476k for the 2019 financial year following the sale of certain portfolios including a previously acquired portfolio in Croatia containing consumer receivables and all portfolios in Russia. Operating profit amounted to EUR 26,920k (2019: EUR 13,326k).

The net profit before tax for the year amounted to EUR 9,963k (2019: net loss before tax of EUR 8,152k) and the net profit for the year was EUR 8,869k (2019: net loss of EUR 7,287k).

### Significant events during the financial year

In March COVID-19 was declared a pandemic by the World Health Organisation and continues to have an adverse impact on global economic activity. The DDM Debt Group has focused specifically on collections, liquidity management and cost saving initiatives.

In March the DDM Debt Group acquired a 9.9% shareholding in Addiko Bank AG for a cash consideration totaling approximately EUR 30m. Additionally the DDM Debt Group exercised the call option to acquire an additional 10.1% shareholding in Addiko Bank AG, which lapsed in October 2020. The DDM Debt Group continues to be committed to its investment in Addiko and confirms its intention to increase its shareholding

On 16 March 2020 DDM Debt AB completed a written procedure regarding certain amendments to the terms and conditions of its up to EUR 150m senior secured bonds. A consent fee amounting to EUR 250 per bond was paid by DDM Debt to the eligible Bondholders.

In August DDM Debt AB completed a written procedure regarding certain amendments to the terms and conditions of its up to EUR 160m senior secured bonds. The final redemption date was extended by twelve months to 11 December 2021, the call option structure was amended, an obligation to cancel EUR 5m of Bonds and a mandatory partial redemption structure were incorporated. A consent fee amounting to EUR 1,000 per bond was paid by DDM Debt to the eligible Bondholders.

In September the DDM Debt Group successfully restructured the Greek NPL transaction it first entered into in August 2017 which resulted in accelerated collections of approximately EUR 60m in 2020. The DDM Debt Group achieved a net multiple of over 1.8x and an IRR of above 30% on this investment. This transaction not only proves the underlying credit quality of the DDM Debt Group's portfolios, but also demonstrates our underwriting, portfolio management and transaction expertise in complex situations.

### Geographical regions

The operational and investment activities of the DDM Debt Group and the DDM Group are not divided into geographical regions for reporting purposes. Potential investments and existing investments are always measured on their own merits and according to assumptions and forecasts made at the time of investing.

### Distressed asset portfolios and other long-term receivables from investments

The investment in Hungary was shown within other long-term receivables from investments at 31 December 2019. The receivables were against the local legal entities holding the leasing portfolios, in comparison to the distressed asset portfolios where the receivables are directly against the debtor. On 27 February 2020, the DDM Debt Group acquired and obtained 100% control of the economic rights to a distressed asset portfolio located in Hungary. Prior to the acquisition the DDM Debt Group owned the rights to 30 percent of the portfolio and 100 percent of the equity in the portfolio which has been reclassified from other long-term receivables from investments to distressed asset portfolios. Distressed asset portfolios and other long-term receivables from investments, i.e. portfolios of overdue receivables, are acquired for significantly less than their nominal value after which the DDM Debt Group collects the receivables in cooperation with local debt collection agencies or the new servicing platform for secured portfolios. As such, revenue on invested assets represents 100% of the consolidated income.

### Investment in joint venture

The DDM Debt Group's joint arrangement with B2Holding that closed on 31 May 2019 where each party holds 50% of the share capital and voting rights of CE Partner S.à r.l. and CE Holding Invest S.C.S (the "Joint Venture") which is classified as a joint venture, as the DDM Debt Group is entitled to 50% of the net assets of the Joint Venture rather than having a direct entitlement to assets and responsibility for liabilities. The equity method is applied when accounting for the Joint Venture. Under the equity method of accounting the investment is recognised at cost and subsequently adjusted to the DDM Debt Group's 50% share of the change in the net assets of the Joint Venture since the acquisition date. The DDM Debt Group's share of earnings for the year amounted to EUR 1,063k (2019: EUR 916k), and this is reported under Share of net profits of joint venture in the consolidated income statement. The distributions received from the Joint Venture reduce the carrying value of the investment and includes EUR 4,511k (2019: EUR 2,654k) that has been received as a cash distribution during the year of which EUR 1,183k relates to 2019 and EUR 3,328k relates to 2020. A further EUR 1,996k (2019: EUR 1,183k) has been reclassified to accounts receivable at the end of the year.

### Investment in associate

On 9 March 2020 the DDM Debt Group acquired a 9.9% shareholding in Addiko Bank AG for a cash consideration totaling approximately EUR 30m. The DDM Debt Group has determined that it has significant influence over Addiko Bank AG through already acquiring a 9.9% shareholding and the call option exercised on 30 March 2020 to acquire an additional 10.1% stake in Addiko Bank AG that lapsed in October 2020. The DDM Debt Group continues to be committed to its investment in Addiko and confirms its intention to increase its shareholding. The DDM Debt Group as a major shareholder is able and requested an Extraordinary General Meeting of Addiko Bank AG to make changes to the composition of the supervisory board which took place on 10 July 2020. The financial statements of the associate are prepared based on the most recent available financial statements for the nine month period ending 30 September 2020, with adjustments made for the effects of any significant transactions until 31 December 2020.

The equity method is applied when accounting for the investment in Addiko Bank AG. Under the equity method of accounting the investment in is recognised at cost and subsequently adjusted to the DDM Debt Group's 20% share of the change in the equity attributable to shareholders of Addiko Bank AG since the acquisition date. The result for the full year 2020 includes EUR 2.7m share of net income in other comprehensive income and EUR 0.2M share of net profits in the income statement of the associate accounted for under the equity method in accordance with IFRS.

### **Expenses**

Operating expenses consisted primarily of costs relating to management fees to DDM Group AG, audit, legal and accounting services, salary costs and office rent expense.

### **Net financial expenses**

In 2020 net financial expenses were EUR 16,957k (2019: EUR 21,478k). Net financial expenses for 2019 include non-recurring items of EUR 2,631k following the bond refinancing in Q2 2019, comprised of a call premium of EUR 2,023k that was paid in relation to the EUR 85m bond and the non-cash write off of EUR 608k for the remaining capitalized transaction costs.

### **Cash flow and investments**

Cash flow from operating activities before working capital changes for the full year amounted to EUR 87,775k (2019: EUR 30,687k).

In 2020, the cash purchase price of invested assets (distressed asset portfolios, other long-term receivables from investments, investments in joint ventures and associates) amounted to EUR 33,310k (2019: EUR 99,215k, net of the proceeds from funding of joint venture).

### **Research and Development**

DDM Debt is not engaged in any research and development activities.

### **Financing**

Please refer to the "Significant events during the financial year" section for details regarding changes to the financing agreements during the year.

At 31 December 2020 net debt, consisting of the EUR 100M and EUR 37.5m senior secured bonds (net of bond buybacks), EUR 9M drawn under the EUR 27m revolving credit facility and interest-bearing intercompany loans (excluding subordinated debt), less cash and cash equivalents, amounted to EUR 89,993k. Shareholders' equity according to the terms and conditions of the senior secured bonds amounted to EUR 59,425k.

At 31 December 2019 net debt, consisting of the EUR 100m and EUR 50m senior secured bonds and interest-bearing intercompany loans (excluding subordinated debt), less cash and cash equivalents, amounted to EUR 135,666k. Shareholders' equity according to the terms and conditions of the senior secured bonds amounted to EUR 41,928k.

### **Non-financial earnings indicators**

#### *DDM Debt's role in society*

The Company offers a platform for economic growth by giving companies and banks the opportunity to manage their credit exposure. DDM Debt systems and understanding of creditor's requirements are optimized and are paired with respect for debtors and their integrity.

#### *Business ethics*

DDM Debt's values act as a guide on how business with the Company's clients and customers is managed. The ethical rules deal primarily with a respectful attitude towards clients and customers.

#### *Working conditions*

Employees have the right to secure and healthy workplaces, as well as fair terms of employment in line with market levels. Men and women are given equal opportunities. A sustainable and commercially successful business relies on skilled and motivated employees.

#### *Environment*

As a service company, DDM Debt generally has limited possibilities to affect the environment, although it seeks to act in an environmentally responsible manner where possible.

Please refer to the DDM Debt Sustainability report at page 14 for further details.

**Market outlook**

The DDM Debt Group is exploring new opportunities and diversifying its business model to be better positioned to work through the challenges faced due to the COVID-19 pandemic. In 2020 the DDM Debt Group has made a strategic investment in Addiko Bank AG. The DDM Debt Group is a highly experienced investor in Addiko's core markets and is looking to support Addiko in its transformation process.

The supply of new NPLs is also expected to increase more than investor demand in the foreseeable future as a result of adverse economic conditions due to the COVID-19 pandemic and European banks continuing to deleverage their balance sheets, thereby resulting in improved market returns. The DDM Debt Group is well-positioned to capitalize on rising NPL volumes expected in the future at attractive prices following the slowdown in 2020 as a result of the COVID-19 pandemic.

**Board work**

According to DDM Debt's Articles of Association, the Board of Directors shall consist of no less than three and no more than ten members with no more than five deputies. All members are elected at the annual general meeting or under special circumstances at an extraordinary general meeting.

**Parent Company**

The operations of the Parent Company at 31 December 2020 encompass ownership of the 100% owned subsidiaries: DDM Invest III AG, DDM Invest V d.o.o., DDM Invest VII d.o.o., DDM Debt Management d.o.o. Beograd, DDM Debt Romania S.R.L., Clipper Holding III S.à r.l., DDM REO Adria d.o.o. and ownership of 50% of CE Partner S.à r.l. and CE Holding Invest S.C.S (the "Joint Venture"). In addition, the Parent Company provides funding for the subsidiaries' investments into distressed asset portfolios, other long-term receivables from investments, joint ventures and associates. The funding is provided to subsidiaries through intercompany loans.

The Parent Company reported revenue of EUR 0k for the year (2019: EUR 0k), other operating income of EUR 0k (2019: EUR 1,142k) and a profit before tax of EUR 2,749k (2019: profit of EUR 228k).

The Parent Company had two employees (one male and one female) in 2020 (2019: one (male) employee).

**Events after the balance sheet date**

In February DDM Debt renewed its revolving credit facility of EUR 27m with an international bank for a further two years until March 2023, with the terms of the new RCF materially in line with the previous RCF which was due to mature on 15 March 2021.

**Financial summary**

<b>Key figures, EUR '000s</b> (unless otherwise indicated)	<b>2020</b>	<b>2019</b>
Revenue on invested assets	36,248	22,446
Share of net profits of joint venture	1,257	916
Operating profit	26,920	13,326
Operating margin, %	71.8	57.0
Cash flow from operating activities before working capital changes	87,775	30,687
Equity ratio (including subordinated debt), %	30.2	21.1

### Risk management and financial risks

Risk management is handled by employees and management of the DDM Group who report to the Board on the basis of the policy adopted by the Board. The DDM Group identifies, evaluates and mitigates financial risks relating to the operating activities of the DDM Debt Group. The Board determines and adopts an overall internal policy for risk management.

The DDM Group defines risk as all factors which could have a negative impact on the ability of the Group to achieve its business objectives. All business activity is associated with risk. In order to manage risk in a balanced way, it must first be identified and assessed. The DDM Debt Group's risk management is conducted by employees and management of the DDM Group, where risks are evaluated in a systematic manner.

The following summary offers examples of risk factors which are considered to be especially important for the DDM Debt Group's future development but is by no means comprehensive. For further details regarding potential risk factors impacting the DDM Debt Group, please refer to the senior secured bonds prospectuses, which are available on our website.

#### *The COVID-19 pandemic, or other similar outbreaks*

In March 2020, COVID-19 was declared a "pandemic" by the World Health Organization. The global spread of COVID-19 has had an adverse impact on global business and economic activity, creating significant volatility and uncertainty in the capital markets and significant disruption to the local operations of markets in which the DDM Debt Group operates. Our core markets have been particularly impacted by the direct impact of the COVID-19 pandemic as well as by local government policies to reduce infection rates, including, for example, restricting bailiff services for debt enforcement and the partial closure of courts and legal systems, resulting in delays of case settlements. In addition, the COVID-19 pandemic has limited the freedom of movement, which has negatively impacted tourism and thereby the economies of our markets particularly in Croatia and Greece, reducing consumer spending which may negatively impact the DDM Debt Group's revenue and profitability.

There is significant uncertainty as to the extent and duration of business disruptions related to the pandemic, as well as its impact on local and global economies and consumer confidence. The extent to which the pandemic impacts the DDM Debt Group's results will depend on future developments and the actions taken to contain it or address its impact, which are highly uncertain and cannot be predicted.

The COVID-19 pandemic may also affect the DDM Debt Group's business in ways which are difficult to predict and could have further material adverse effects on the DDM Debt Group's business, results of operations and financial condition if:

- the duration, scope and severity of the pandemic result in sustained deterioration in the economic environment in our regions and the amount of debt available to us for purchase and to service as a result does not compensate for the adverse effects;
- political, legal and regulatory actions and policies in response to the pandemic, such as governmental actions or proposed actions limiting debt collection efforts and encouraging or requiring extensions, modifications or forbearance with respect to certain loans and fees, prevent us from performing our collection activities, result in material increases in our costs to comply with such laws and regulations or result in fewer debt portfolios coming to market;
- disruptions to or closures of the court system and other disruptions due to the pandemic or government restrictions on the legal process that hinder our ability to collect through the litigation process are prolonged or increased;
- as a result of unemployment or reduced income or increased costs ensuing from the pandemic, consumers respond by failing to pay amounts owed on receivables owned or managed by us;
- we are unable to maintain staffing at the levels necessary to operate our business due to the continued spread or increased virulence of COVID-19 or related coronavirus strains or resultant health complications, causing employees to be unable or unwilling to work;  
we are unable to purchase debt portfolios needed to operate our business because debt owners become unable or unwilling to sell their nonperforming loans consistent with recent levels at attractive prices or at all;
- adverse capital market conditions affect our ability to raise capital or increase our cost of capital and our cash generation is not sufficient for our needs;
- tax rates are increased to fund the cost of various government initiatives in connection with the COVID-19 pandemic; or
- we suffer a cyber-security incident or data breach as a result of an increase in the number or severity of cyber-attacks, or increased vulnerability while a larger proportion of our employees work remotely.

### *Economic fluctuations*

The debt collection industry is negatively affected by a weakened economy. However, the DDM Debt Group's assessment is that, historically, it has been less affected by economic fluctuations than many other sectors. Risks associated with changes in economic conditions are managed through ongoing monitoring of each country's economic situation and development.

### *Changes in regulations*

With regard to risks associated with changes in regulations in its markets, the DDM Debt Group continuously monitors the regulatory efforts to be able to indicate potentially negative effects and to work for favorable regulatory changes. Changes to the regulatory or political environments in which the DDM Debt Group operates, a failure to comply with applicable laws, regulations, licenses and codes of practice or failure of any employees to comply with internal policies and procedures may negatively affect the DDM Debt Group's business.

### *Market risks*

DDM Debt's financing and financial risks are managed by the DDM Group in accordance with the policy established by the Board of Directors. The policy contains rules for managing activities, delegating responsibility, measuring, identifying and reporting risks and limiting these risks. Operations are concentrated in the DDM Group in Switzerland, ensuring economies of scale when pricing financial transactions.

As part of cash management, the DDM Debt Group is striving to maintain cash in the different currencies they are exposed to. For further information regarding currency exposure, see notes 16, 17, 19 and 20.

Interest rate risks relate primarily to DDM Debt's interest-bearing debt, which during 2020 consisted of senior secured bonds and a revolving credit facility. Borrowings issued using the floating reference rate Euribor expose DDM Debt to interest rate risk and borrowings issued at fixed rates expose DDM Debt to fair value interest rate risk.

### *Liquidity risk*

The DDM Debt Group has deposited its liquid assets with established financial institutions where the risk of loss is considered remote. The DDM Debt Group's cash and cash equivalents consist solely of bank balances. The DDM Debt Group prepares regular liquidity forecasts with the purpose of optimizing liquid funds so that the net interest expense and currency exchanges are minimized without incurring difficulties in meeting external commitments.

### *Credit risk*

Credit risk is the risk that the counterparty in a financial transaction will not fulfil its obligations on the maturity date. Credit risk is managed by the DDM Debt Group and arises from cash and cash equivalents, and deposits with banks and financial institutions.

A second source of credit risk arises in connection to funds collected during the ordinary course of business. Funds are either collected directly on the DDM Debt Group's bank accounts, or are paid in to client fund accounts held by the respective debt collection agencies to separate the DDM Debt Group's funds from the general funds of the agency. In the second instance twice per month there is a reconciliation-process, and based on this received and allocated funds are transferred from the client fund accounts. Should a debt collection agency become insolvent between such reconciliation events monies collected and not yet reconciled could be frozen on the account pending the outcome of the insolvency. In selecting debt collection partners, the DDM Debt Group makes efforts to control and monitor the financial standing of its partners and also to maintain a balance of the work allocated between agencies to minimize the potential risk of such a situation. Amounts expected to be recovered from a solvent counterparty are recognized as accounts receivable in the balance sheet.

### *Risks inherent of distressed assets*

To minimize the risks in this business, caution is exercised in investment decisions. The DDM Debt Group invests in non-performing loans and special situations with an investment value of EUR 5–100m. Sellers are primarily financial institutions, typically international banks with presence in several countries in Southern, Central and Eastern Europe. The DDM Debt Group has established relationships with sellers throughout the industry and as the DDM Debt Group is able to take on a leading position, we get repeat business as well as access to financial co-investors. Since 2015 significant portfolio acquisitions have been made containing secured assets in addition to corporate receivables. In 2018 and 2019, the DDM Debt Group acquired significant distressed asset portfolios in the Balkans and Greece containing secured corporate and consumer receivables. In 2020 DDM made a strategic investment by acquiring a 9.9% stake in Addiko Bank AG ("Addiko Bank") and we intend to increase our shareholding further. These acquisitions have accelerated the collection profile with the majority of collections expected to be received in the first three years of investment. Co-investment structures with third parties are opportunities for the DDM Debt Group to grow and gain access to invest in larger NPL portfolios across the SCEE market, whilst sharing the risks and returns with the co-investment partner. The DDM Debt Group depends upon reputable and trustworthy co-investment partners.

Invested assets are usually purchased at prices significantly below the nominal value of the receivables, and the DDM Debt Group retains the entire amount it collects, including interest and fees, after deducting costs directly relating to the collection of the debt. The DDM Debt Group places return requirements on acquired invested assets. Before every acquisition, a careful assessment is made based on a projection of future cash flows (collected amounts) from the invested asset.

To facilitate the purchase of larger portfolios at attractive risk levels, the DDM Debt Group works in cooperation with other institutions and shares the equity investment and profits. Risks are further diversified by acquiring distressed assets from various sellers in different countries.

#### *Financing risk*

DDM Debt's financial instruments contain a number of financial covenants, including limits on certain financial indicators. The financial covenants according to the terms and conditions of the senior secured bonds and the revolving credit facility are: an equity ratio of at least 15.00%, net interest-bearing debt to cash EBITDA below 4:1, and net interest-bearing debt to ERC below 75.00%. DDM Debt's management carefully monitors these key financial indicators, so that it can quickly take measures if there is a risk that one or more limits may be exceeded. DDM Debt AB complied with all bond covenants for the years ending 31 December 2020 and 31 December 2019. The terms and conditions are available in their entirety on our website.

For further information regarding the financial risk management of the DDM Debt Group, see note 4.

#### **The Board's committees**

The overall responsibility of the Board of Directors cannot be delegated, however the Board may, within itself, set up committees which prepare, follow up on and evaluate issues within their respective spheres ahead of decisions by the Board.

#### *Audit Committee*

The audit committee prepares a number of issues for consideration by the Board and thereby supports the Board in its endeavors to fulfil its responsibilities within the areas of auditing and internal control and with assuring the quality of DDM Debt's financial reporting. The audit committee meets on a regular basis. The audit committee was comprised of Florian Nowotny (chair) and Joachim Cato. The committee's meetings are also attended by Fredrik Olsson (CFO). The committee held two meetings in 2020 (2019: two meetings). Special attention was paid in 2020 and 2019 to the auditors' reviews, internal controls, the acquisitions in the year and financing.

The audit committee works on the basis of a set of "Instructions for the audit committee" adopted every year by the Board of Directors and reports back to the Board on the results of its work.

#### **Corporate Governance Report**

DDM Debt AB has established a corporate governance report in accordance with the Swedish Annual Accounts Act 6 chapter 8§. The report is available at the company, and will be distributed upon request. In addition, DDM Debt has also prepared a Sustainability report at page 14.

#### **Employees**

DDM Debt had two employees as of 31 December 2020 (2019: one), while the DDM Debt Group had four employees (2019: seven employees). All other staff involved in the activities of DDM Debt are employed by DDM Group AG and are based in Zug, Switzerland. DDM Group AG charges the DDM Debt Group a management fee for this work.

**Proposed appropriation of earnings**

The Parent Company's distributable funds are at the disposal of the Board of Directors as follows:

<b>EUR</b>	<b>2020</b>
Retained earnings	5,485,967
Contribution agreement	–
Conditional shareholder's contribution	5,936,000
Net earnings for the year	2,641,857
<b>Total</b>	<b>14,063,824</b>

The Board of Directors propose that the earnings be distributed as follows:

<b>EUR</b>	<b>2020</b>
Balance carried forward	14,063,824
<b>Total</b>	<b>14,063,824</b>

For other information we refer to the following financial statements and notes.

Jörgen Durban,  
Chairman of DDM Debt

*“Following the adverse global impact of the COVID-19 pandemic during 2020, I believe that DDM’s embedded commitment to ESG will be instrumental to ensuring sustainability”*

## Sustainability Report

### Statement by the Chairman

On behalf of the Board of Directors and their responsibility for Environmental, Social and Governance (“ESG”), DDM Debt AB (publ), its business units and subsidiaries (“the **DDM Debt Group**”) has issued its first Sustainability Report in line with the Company’s corporate responsibility to carry out its business with its stakeholders ethically and sustainability. Our embedded commitment to ESG throughout our business, from diligent investment decisions to the ethical treatment for the work-out of our debtors is instrumental to ensuring sustainability and the Group’s success in the future.

### Role in society

The DDM Debt Group offers a platform for economic growth by allowing banks and other financial institutions the opportunity to manage their credit exposure. The DDM Debt Group accepts its responsibility in society by helping businesses and consumers to restructure and optimize their lending and borrowing. The DDM Debt Group strives to maintain the highest legal and ethical standards in all its business practices.

The DDM Debt Group plays a key role within society by providing liquidity to lenders in certain markets by acquiring distressed corporate and consumer debt, enabling the lenders to continue providing loans to companies and individuals. The DDM Debt Group then assists the debtors to restructure their overdue debt professionally, ethically and with the utmost respect by carefully selecting and closely monitoring our debt collection partners.

We seek to be part of a solution in the credit market whereby we initiate opportunities for banks and financial institutions to divest their portfolios of distressed assets to better meet new and future regulations regarding capital adequacy. This, in turn, bolsters the stability of the banking sector by helping avoid artificially inflated balance sheets. By doing this, we not only help banks “cut their losses” vis-à-vis distressed assets, we also alleviate them of the burden of managing and collecting on those assets.

### Sustainable approach

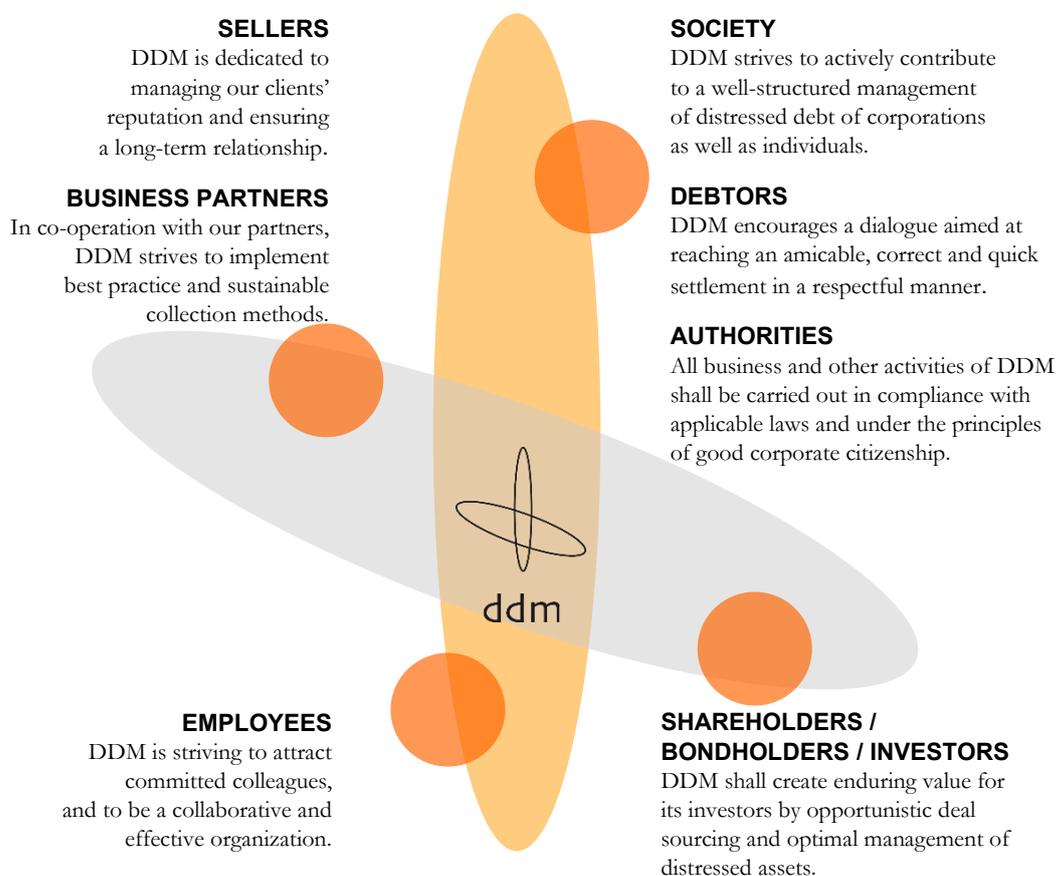

We select partner collection agencies carefully, making sure they apply professional, respectful and ethical methods. We work closely with them to determine which agencies are appropriate for collection on certain assets and what measures are appropriate.

Respectful and ethical treatment of debtors is central to our efforts and the banks who sell their portfolios to us pay considerable attention to correct treatment of their customers. Over the years, we have demonstrated an ability to actively control the measures and processes implemented by the collection agencies.

Effective from 1 January 2020, the DDM Debt Group is obliged to report its progress on sustainability in accordance with the Annual Accounts Act in Sweden on the Disclosure of Non-Financial and Diversity Information.

## ESG priorities

The DDM Debt Group has undertaken a materiality assessment to identify the topics of highest importance for stakeholders' concerns and the company's risk and opportunities including: the fair and ethical treatment of debtor collection, anti-corruption and bribery matters, retaining key management and environmental protection.

### Our business model is supporting sellers and debtors

The DDM Debt Group's business model is based on our extensive experience and expertise from the non-performing loan ("NPL") industry and proprietary data in combination with debt collection agencies providing the services according to the DDM Debt Group's specifications.

In general, the market players can be divided into two strategic groups by the business models prevalent, namely: debt collection through in-house or external collection agencies. The DDM Debt Group is different from most of its peers due to our unique business model, which is based on partially outsourcing debt collection to external collection agencies, access to a servicing platform for the work-out of secured receivables that was launched in 2019 and our in-house technology platform.

### Fair and ethical treatment of debtor collection

The acquiring and managing of debt and the subsequent collection on debts, together the distressed assets industry, is an integral part of the finance and credit systems. As an experienced investor and manager the DDM Debt Group understands the sellers' demands and expectations. In combination with a strict ethical approach throughout the process, the DDM Debt Group has gained a strong reputation within this growing industry and enjoys strong business relationships with sellers, mainly major banks and other financial institutions in the countries in which we are operating.

Our ethical corporate culture, embraced by the Board of Directors and Executive Management Committee down to all levels in the Group, is essential and ensures that all employees perform good judgement and have the integrity necessary to handle difficult situations that may arise. Along with policies and procedures, our Code of Conduct sets the overall standard on what is and what is not an acceptable behaviour, ensuring that the DDM Debt Group conducts its business in compliance with applicable laws, and under the principles of good corporate citizenship in each country where activities take place.

### Anti-corruption and bribery matters

The Board of Directors of DDM Group Finance SA, the largest shareholder at 31 December 2020 with a holding representing 89.2% of the votes and share capital in DDM Holding AG, the ultimate parent company of DDM Debt AB (publ), has adopted a number of policies and instructions containing rules, including but not limited to: Code of Conduct, Insider Policy and Guidelines, Prevention of Money Laundering and Terrorist Financing Policy, Outsourcing Policy and IT Policy for the entire Company's operations.

The DDM Debt Group currently holds portfolios and pursues debt collection mainly in Croatia, Slovenia, the Czech Republic, Romania, Hungary and Serbia. The DDM Debt Group's business is subject to local risks due to the operations in multiple Southern, Central and Eastern European markets including, but not limited to, multiple national and local regulatory and compliance requirements relating to labor, licensing requirements, consumer credit, data protection, anti-corruption, anti-money laundering and other regulatory regimes, potential adverse tax consequences, antitrust regulations, an inability to enforce remedies in certain jurisdictions and geopolitical and social conditions in certain sectors of relevant markets.

No DDM Debt Group company or any of its employees may, directly or indirectly, promise, offer, pay, solicit, or accept bribes or kickbacks of any kind, including money, benefits, services or anything of value. Such payments and favours may be considered bribery, which violates local legislation and internationally recognized principles for combating corruption and bribery. Each employee is expected to act responsibly and with integrity and honesty, and to comply with the Group's Code of Conduct and its underlying policies and instructions.

The Prevention of Money Laundering and Terrorist Financing Policy provides the procedural rules on the performance of activities and measures to detect and prevent money laundering and terrorist financing throughout the DDM Debt Group, including risk assessment of customers, due diligence and ongoing monitoring of customers, restrictive measures, "Know Your Customer" ("KYC") procedures, reporting obligations, implementation of internal controls and the appointment of the persons responsible to perform the task related to the prevention of money laundering and terrorism financing.

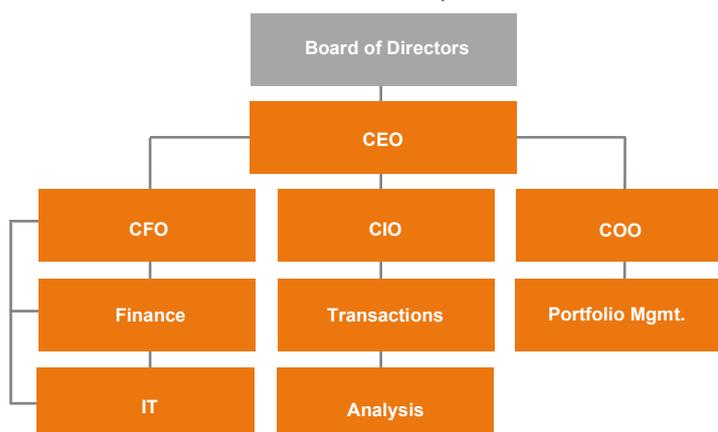

The Outsourcing Policy includes all employees, consultants, directors and service providers involved in DDM Debt Group's business activities, which gives overall guidelines for assessment and risk handling within the Group's outsourcing activities in order to ensure the highest quality of services and create long-term and prudent relationships.

### Retaining key management

The DDM Debt Group has a management agreement with DDM Group AG regarding services required in the DDM Debt Group's business (the "management agreement"). The DDM Debt Group's future development depends largely on the skills, experience and commitment of the consultants which are made available to the Group under the management agreement. Therefore it is important for the DDM Debt Group's future business activities and development that DDM Group AG is able to retain and, where necessary, also recruit suitable consultants for the purpose of managing the DDM Debt Group's business. It is also of importance that DDM Group AG ensures that adequate notice periods are included in employment and service contracts to try to avoid possible disruptions in the ongoing operations. Should DDM Group AG become unable to retain or recruit suitable consultants for managing the Group's business, this could have a material adverse effect on the DDM Debt Group's business, results of operations or financial position.

#### DDM GROUP FUNCTIONS

DDM Group functions, which support both the Executive Management Committee and operations, strategically and in day-to-day operations, are divided into the following teams; Transactions, Analysis, Portfolio Management, Finance and IT. The teams work independently with defined goals and coordinate their work in dialogue with each other.

## Environmental protection

The DDM Debt Group is committed to taking account of environmental impacts when conducting its business. The Company combines its economic goals with environmental and social requirements, and addresses sustainability issues when managing risks. The DDM Debt Group is continuously striving to implement new measures to improve its environmental performance and limit the contribution of our activities on greenhouse gas emissions and the consumption of natural resources in accordance with the Code of Conduct. This includes aiming to become a fully paperless operation wherever possible both internally and with external communications with various stakeholders, incentivising our employees to use public transportation and reducing corporate travel through the increased usage of digital meetings. The Board of Directors continuously monitors and strives to reduce the DDM Debt Group's impact on the environment by annually reviewing the performance and policies included in the Code of Conduct. Due to the nature of business activities, the DDM Debt Group's most significant impact on the environment is through corporate travel and the production of material.

## Activities and progress during the year

The DDM Debt Group has identified the following policies and detailed our progress in relation to ESG during 2020:

### Fair and ethical treatment of debtor collection

All employees abide by the Code of conduct

The DDM Debt Group takes an active approach to the application of the Code of Conduct ("Code") adopted by DDM Group Finance S.A. and the companies under the control of DDM Group Finance S.A. ("DDM Group") and promotes its implementation through the effective communication of its contents to its employees. The Code is subject to annual approval by the DDM Group Board of Directors. A DDM Group Compliance Officer was appointed and is responsible to monitor the application of this Code and can be contacted at [ddm\\_corporate.gov@ddm-group.ch](mailto:ddm_corporate.gov@ddm-group.ch). No violations of the Code were reported in 2020.

Effective monitoring of suppliers and business partners

Suppliers and business partners are an important and integral part of the total value chain of the services of the DDM Debt Group. They are expected and encouraged to conduct their businesses in compliance with the same high legal and ethical standards and business practices as adopted by the DDM Debt Group. The DDM Debt Group co-operates and conducts business with the suppliers and business partners in accordance with the provisions of the DDM Group Outsourcing Policy.

Effective data protection of personal data

Effectively managing and protecting confidential information is critical to the nature of our business involved with dealing with large quantities of personal data. These processes are built into the DDM Group's proprietary IT system FUSION, which integrates investment data, case data, payment data and activity data into one effective and comprehensive IT system. As a result of the DDM Debt Group partially outsourcing the collection process both employees and business partners abide by strictly formulated policies to protect confidential information. Data protection of personal data is stated as a responsibility within the DDM Group Data Protection Policy, which applies to all employees and service providers whose activities are connected to debt collection.

Compliance with GDPR

General Data Protection Regulation (GDPR) has been effective since 25 May 2018. The DDM Debt Group has worked vigorously in cooperation with its business partners to enhance and ensure compliance with GDPR. A Privacy Notice accessible on our website <http://www.ddm-group.ch/data-privacy> and applicable since 25 May 2018 details how the DDM Debt Group collects, uses, processes and stores personal data, and data holder rights regarding personal data. A Data Protection Officer was appointed as responsible for managing compliance with GDPR and can be contacted at [dpo@ddm-group.ch](mailto:dpo@ddm-group.ch).

**Anti-corruption and bribery matters**

Adherence to anti-money laundering standards and policies	The DDM Debt Group exercises due diligence when executing financial transactions. The DDM Debt Group is committed to the “Know your customer/know your intermediary” principles. The DDM Debt Group does not conduct business with persons or groups of persons, or with clients and partners from countries, against which Switzerland or the EU has imposed sanctions. The DDM Debt Group undertakes ongoing due diligence and monitoring to assist in the identification of suspicious activities. The DDM Debt Group maintains the highest standards to ensure that money laundering is prevented or detected. Suspicion of money laundering is reported to the competent authorities. Each employee and consultant is expected to comply with the requirements of those standards and policies. If suspicious activities are discovered, this must be promptly escalated to the DDM Group Anti-Money Laundering Compliance Officer.
Conflicts of interest	The DDM Debt Group expects full loyalty from its employees and consultants. Employees and consultants must avoid situations where their personal interests may conflict with those of the DDM Debt Group. This means, for instance, that employees and consultants are not allowed to accept gifts or entertainment from a stakeholder, except for a gift or entertainment of a minor value given on an occasional basis, providing it does not create a conflict of interest situation. During 2020, no instances of intended bribery or uncertainty were reported by an employee to his or her line manager and the DDM Compliance Officer. There were no instances of employees of the DDM Debt Group accepting gifts or entertainment from a stakeholder, except for a gift or entertainment of a minor value (< 30 EUR or equivalent in local currency).
Anti-fraud	The DDM Debt Group does not tolerate fraudulent behaviour or activities, such as embezzlement, fraud or theft. Such violations will lead to immediate termination of employment and are subject to criminal sanctions. Suppliers and business partners are an important and integral part of the total value chain of the services of the DDM Debt Group. They are expected and encouraged to conduct their businesses in compliance with the same high legal and ethical standards and business practices as the DDM Debt Group. The DDM Debt Group co-operates and conducts business with its suppliers and business partners in accordance with the applicable laws and provisions of the DDM Group Prevention of Money Laundering and Terrorist Financing Policy, and other applicable policies and guidelines. There were no instances of employees accepting such payments and favours that may be considered bribery or fraud, and there were no violations under local legislation and internationally recognised principles for combating corruption and bribery are reported for the year ended 31 December 2020.
Insider trading	The EU’s Market Abuse Regulation (“MAR”) has been applicable to the DDM Debt Group since 3 July 2016. MAR is supplemented by a series of delegated regulations and implementing regulations issued by the EU Commission and by guidelines issued by the European Securities and Markets Authority (ESMA). MAR aims to enhance market integrity and investor protection and applies in respect of e.g. issuers and financial instruments admitted to trading on regulated markets, multilateral trading facilities and organized trading facilities. MAR contains, among other things, rules regarding a prohibition on insider dealing, unlawful disclosure and market manipulation; rules prescribing the manner in which issuers are to handle and publicly disclose inside information; rules imposing an obligation on issuers to maintain an insider list (logbook); and rules regarding reporting obligations in respect of transactions performed by persons discharging managerial responsibilities at an issuer or persons closely associated with them. The Board of Directors of the Company has adopted internal policies to facilitate and safeguard the DDM Debt Group’s compliance with MAR and related rules and regulations.

**Retaining key management**

Implementation of fundamental conventions of the International Labour Organization	The DDM Debt Group supports core labour rights as defined by the International Labour Organisation included in the DDM Group Code. In this respect, the DDM Group Code upholds the freedom of association and the effective recognition of the right to collective bargaining. In the case that these rights are restricted by local law, the DDM Group Code endeavours to offer its employees alternative means to present their views. The DDM Group Code does not accept any form of forced or compulsory labour, or the use of child labour.
Education and notice periods	The DDM Group continuously invests in its employees through training and education that can provide the DDM Debt Group with a competitive advantage, as the NPL industry is known to have a high employee turnover rate. Key persons including members of the Board and Executive Management Committee of the DDM Group have a notice period of up to 12 months.
Health and safety at work	The DDM Debt Group endeavours to create hazard-free workplaces for its employees, consultants, contractors and others working in various locations by applying high standards of occupational health and safety. Each individual is responsible for complying with any safety instructions, for using personal protection equipment when required and for reporting on any shortcomings regarding safety instructions or protection measures.
Social dialogue	The DDM Debt Group promotes openness and transparency, as well as continuous dialogue with its stakeholders, including clients, customers and other business partners, shareholders, personnel, authorities, local communities and the media. The DDM Debt Group strives to be honest and accurate in all communications with its stakeholders.
Equality and non-discrimination	The composition of the DDM Debt Group team reflects the Group's European outreach. The policy is to hire the best possible talent and at the same time embracing diversity in all levels in the Group, including the Executive Management Committee, as well as the Board of Directors. At 31 December 2020, the DDM Debt Group employed four people (three male and one female). All of our staff are permanently employed. The majority of our employees have a university-level degree or higher. The average age of DDM employees is 43 years.
Composition of the Board of Directors	The composition of the Board of Directors is set out in the section "Board of Directors" at page 12 and the members of the Board were elected by the Shareholders' Meeting for a term of office expiring at the Annual General Meeting 2021.
Respect for human and labour rights	The DDM Debt Group supports and respects the protection of human rights as defined in the United Nations' Universal Declaration on Human Rights. No employee is allowed to take any action that violates these human rights principles, either directly or indirectly. The DDM Debt Group supports core labour rights as defined by the International Labour Organisation. In this respect, the DDM Debt Group upholds the freedom of association and the effective recognition of the right to collective bargaining. In the case that these rights are restricted by local law, the DDM Debt Group endeavours to offer its employees alternative means to present their views. The DDM Debt Group does not accept any form of forced or compulsory labour, or the use of child labour.

### **Environmental protection**

Corporate travel and the production of material

Corporate travel and the production of material has been significantly reduced during 2020 following the travel restrictions imposed by the COVID-19 pandemic and the enforcement of remote working during the year across the Group to protect our employees. We have reduced the impact further on the environment through the application of video conferencing thereby reducing the need for corporate travel.

Energy efficiency

The DDM Debt Group's head office is located at Humlegårdsgatan 4, 1 tr, 114 46 Stockholm, Sweden, where the earliest termination date for the office lease agreement is 31 March 2021. The DDM Debt Group also has an office lease located at Cigaletova ulica 7, 1000, Ljubljana, Slovenia which will terminate in August 2021, and a motor vehicle lease which will terminate in November 2021. Therefore the DDM Debt Group does not consider that the office premises and motor vehicle will have a material impact on the environment in the future.

At 31 December 2020 and 31 December 2019 the number of outstanding shares in DDM Debt AB amounts to 54,000 shares, with a quota of 1 per share.

**NOTE 1. GENERAL INFORMATION**

The Parent Company, DDM Debt AB (publ) is a limited liability company with registered offices in Stockholm, Sweden and its Swedish Corporate ID No. is 559053-6230. The address of the main office and postal address is Humlegårdsgatan 4, 1 tr, 114 46 Stockholm, Sweden.

All amounts are reported in thousands of Euros (EUR k) unless stated otherwise. Rounding differences might occur.

On 12 March 2021, the Board of Directors approved the financial statements for publication.

DDM Debt AB (publ) ("DDM Debt" or "the Company") and its subsidiaries (together the "DDM Debt Group" or "the Group") provide liquidity to lenders in certain markets by acquiring non-performing loans and special situations from financial institutions and international banks with lending operations in Southern, Central and Eastern Europe. This enables the lenders to continue providing loans to companies and individuals, the DDM Debt Group then assists the debtors to restructure their overdue debt.

The Company was registered on 3 March 2016, and changed from a private limited liability company to a public limited liability company on 26 May 2016. DDM Debt is a wholly owned subsidiary of DDM Finance AB, Stockholm, Sweden, being a wholly owned subsidiary of DDM Group AG, Zug, Switzerland.

DDM Debt acts to directly or indirectly manage, acquire or invest in credits and/or loan portfolios, to on-lend or invest funds in group companies who directly or indirectly manage, acquire or invest in credits and/or loan portfolios and conduct related activities, to incur financing for its business and to conduct related activities. DDM Group AG acts as the investment manager and makes all decisions regarding investments and allocation of resources.

The ultimate parent company DDM Holding AG prepares consolidated financial statements under IFRS and is listed on Nasdaq First North Growth Market, Stockholm since September 2014, under the ticker DDM.

**Subsidiaries**

On 30 September 2019 DDM Treasury Sweden AB was contributed to DDM Debt by DDM Finance at book value, resulting in a EUR 45k capital contribution from DDM Finance. On 11 February 2020 DDM Treasury Sweden AB was merged into DDM Debt AB to simplify the existing DDM Group structure.

On 23 December 2019 a further 12% of the shares (in addition to the 70% already held) of AXFina Austria GmbH (previously aXs GmbH) were acquired for a total consideration of EUR 200k. Subsequently 82% of the shares held in AXFina Austria GmbH (previously aXs GmbH) were sold to AXFina Holding S.A. (previously Ax Financial Holding S.A.) ("AxFina"), which is 100% owned and controlled by DDM Group Finance S.A. for a total deferred consideration of EUR 1,367k. This transaction resulted in a gain on sale of shares of EUR 1,142k which was recognized in the income statement for the full year 2019 under "Other operating income".

On 27 February 2020, the DDM Debt Group acquired and obtained 100% control of the economic rights to a distressed asset portfolio located in Hungary, resulting in

the consolidation of Clipper Holding III S.à r.l. Prior to the acquisition DDM owned the rights to 30 percent of the portfolio and 100 percent of the equity in Lombard which has been reclassified from other long-term receivables from investments to distressed asset portfolios. On 17 December 2020 Clipper Holding III S.à r.l. was dissolved.

On 23 July 2020, DDM REO Adria d.o.o. was incorporated.

**Joint venture**

The DDM Debt Group's joint arrangement with B2Holding closed on 31 May 2019 where each party holds 50% of the share capital and voting rights of CE Partner S.à r.l. and CE Holding Invest S.C.S (the "Joint Venture") is classified as a joint venture, as the DDM Debt Group is entitled to 50% of the net assets of the Joint Venture rather than having a direct entitlement to assets and responsibility for liabilities.

**Associates**

On 9 March 2020 the DDM Debt Group acquired a 9.9% shareholding in Addiko Bank AG for a cash consideration totaling approximately EUR 30M. On 30 March 2020 the DDM Debt Group exercised a call option to acquire an additional 10.1% shareholding in Addiko Bank AG that lapsed in October 2020. The DDM Debt Group continues to be committed to its investment in Addiko and confirms its intention to increase its shareholding.

The DDM Debt Group has determined that it has significant influence over Addiko Bank AG through acquiring a 9.9% shareholding in Addiko Bank AG. The DDM Debt Group as major shareholder is able and requested an Extraordinary General Meeting of Addiko Bank AG to make changes to the composition of the supervisory board which took place on 10 July 2020. The financial statements of the Associate are prepared for based on the most recent available financial statements for the nine month period ending 30 September 2020, with adjustments made for the effects of any significant transactions to the 31 December 2020.

**NOTE 2. BASIS OF PREPARATION**

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU, as well as in accordance with RFR 1 *Supplementary Accounting Principles for Groups* and the Annual Accounts Act. The DDM Debt Group has evaluated the differences between the IFRS as adopted by the EU and the IFRS approved by the IASB with influence on the DDM Debt Group's financial statements, and concluded that there are no material differences.

The consolidated financial statements have been prepared on the basis of historical cost modified with the revaluation of financial assets and financial liabilities at fair value through profit or loss. Distressed asset portfolios, other long-term receivables from investments and borrowings are measured at amortized cost using the effective interest rate method, adjusted for revaluation and impairment. The investment in joint venture and associate are accounted for under the equity method.

The financial statements have been prepared on a going concern basis.

### NOTE 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies applied in these consolidated financial statements are presented as follows:

The preparation of financial statements in conjunction with IFRS requires the application of certain important estimates for accounting purposes. Furthermore, it is required that management undertakes a number of assessments as regards to the application of the Group's accounting policies. Areas involving a high degree of assessment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are referred to in note 5.

The accounts of DDM Debt AB have been prepared in accordance with the Annual Accounts Act (ÅRL 1995:1554) and RFR 2 Accounting for Legal Entities and applicable statements. The instances in which the Parent Company applies accounting principles differing from those of the Group are provided separately at the end of this section on accounting principles.

#### Consolidation

The financial statements consolidate the accounts of DDM Debt AB and its subsidiaries.

#### Subsidiaries

Subsidiaries are all entities over which DDM Debt AB has control. DDM Debt AB controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group and are de-consolidated from the date on which control ceases. Intercompany transactions, balances, and unrealized gains on transactions between group companies are eliminated.

The following entities are included in the scope of consolidation:

Entities included in the scope of consolidation	Consolidation method	Domicile	31 Dec 2020	31 Dec 2019
DDM Invest III AG	Fully consolidated	Switzerland	100%	100%
DDM Treasury Sweden AB	Fully consolidated	Sweden	–	100%
DDM Invest V d.o.o.	Fully consolidated	Slovenia	100%	100%
DDM Invest VII d.o.o.	Fully consolidated	Slovenia	100%	100%
DDM Debt Management d.o.o. Beograd	Fully consolidated	Serbia	100%	100%
DDM Debt Romania S.R.L	Fully consolidated	Romania	100%	100%
DDM REO Adria d.o.o.	Fully consolidated	Croatia	100%	–

#### Joint venture

The Company applies IFRS 11 Joint Arrangements, where the DDM Debt Group, together with one or several parties have joint control over an arrangement in accordance with a shareholder agreement. The DDM Debt Group's joint arrangement with B2Holding where each party holds 50% of the share capital and voting rights of CE Partner S.à r.l. and CE Holding Invest S.C.S (the "Joint Venture") is classified as a joint venture, as the DDM Debt Group is entitled to 50% of the net assets of the Joint Venture rather than having a direct entitlement to assets and responsibility for liabilities. The equity method is

applied when accounting for the Joint Venture. Under the equity method of accounting the investment is recognized at cost and subsequently adjusted to the DDM Debt Group's 50% share of the change in the net assets of the Joint Venture since the acquisition date. The consolidated income statement includes the DDM Debt Group's share of earnings, and this is reported under Share of net profits of joint venture.

Distributions received from the Joint Venture are not recognised in the income statement and instead reduce the carrying value of the investment. The equity method is applied from the date joint control arises until the time it ceases, or if the Joint Venture becomes a subsidiary. Upon loss of joint control over the Joint Venture, and as such the equity method ceases, the DDM Debt Group measures and recognises any difference between the carrying amount of the investment in the Joint Venture with the fair value of the remaining investment and/or proceeds from disposal which is recognised as gain or loss directly in the income statement. The financial statements of the Joint Venture are prepared for the same reporting period as the DDM Debt Group.

Entities not included in the scope of consolidation	Consolidation method	Domicile	31 Dec 2020	31 Dec 2019
CE Partner S.a.r.l.	Equity accounted	Luxembourg	50%	50%
CE Holding Invest S.C.S	Equity accounted	Luxembourg	50%	50%

#### Associates

Associates are all entities over which the DDM Debt Group has significant influence but not control or joint control. This is generally the case where the Group holds between 20% and 50% of the voting rights. Interests in associates are accounted for using the equity method. The carrying amount (including goodwill) of equity accounted investments is tested for impairment in accordance with the policy described in note 3.

On 9 March 2020 the DDM Debt Group acquired a 9.9% shareholding in Addiko Bank AG for a cash consideration totaling approximately EUR 30M. The DDM Debt Group has determined that it has significant influence over Addiko Bank AG through already acquiring a 9.9% shareholding and the call option exercised on 30 March 2020 to acquire an additional 10.1% stake in Addiko Bank AG that lapsed in October 2020. The DDM Debt Group continues to be committed to its investment in Addiko and confirms its intention to increase its shareholding. The DDM Debt Group as a major shareholder is able and requested an Extraordinary General Meeting of Addiko Bank AG to make changes to the composition of the supervisory board which took place on 10 July 2020. The financial statements of the Associate are prepared for based on the most recent available financial statements for the nine month period ending 30 September 2020, with adjustments made for the effects of any significant transactions to the 31 December 2020.

Entities not included in the scope of consolidation	Consolidation method	Domicile	31 Dec 2020	31 Dec 2019
Addiko Bank AG	Equity accounted	Austria	9.9%	–

#### Segment reporting

The one operating segment in the DDM Debt Group is reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker ("CODM"). The CODM, who is responsible for allocating

**NOTE 3. SUMMARY OF SIGNIFICANT... continued**

resources and assessing performance of the operating segments, is identified as the Chief Executive Officer of DDM Group that makes strategic decisions. The DDM Debt Group reports one segment, consistent with the DDM Group policy.

**Foreign currency translation***(i) Functional and presentation currency*

Items included in the financial statements of each of the DDM Debt Group's entities are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The functional currency of DDM Debt AB is Euro ("EUR"). The consolidated financial statements are presented in thousands of Euros, ("EUR k"), unless stated otherwise, which is the Group's presentation currency. Rounding differences may occur. The financial statements of entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows: assets and liabilities at the closing rate on the balance sheet date, equity at historical rates and income and expenses at the average rate for the period (as this is considered a reasonable approximation of the actual rates prevailing on the dates of the individual transactions). All resulting consolidation adjustments are recognized in other comprehensive income as cumulative translation adjustments. All of the entities in the DDM Debt Group have EUR as their functional currency except for DDM Debt Management doo Beograd which has Serbian Dinar (RSD) as its functional currency, DDM Debt Romania S.R.L, which has Romanian leu (RON) as its functional currency and DDM REO Adria d.o.o. which has Croatia Kuna (HRK) as its functional currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing on the transaction dates. Foreign exchange gains and losses resulting from the settlement of foreign currency transactions and from the translation at exchange rates of monetary assets and liabilities denominated in currencies other than an entities' functional currency will give rise to realised and unrealised exchange rates differences that are recognized in the income statement in "net financial expenses".

The following exchange rates were applied at the balance sheet dates (spot rates) and for the income statement (average rates):

		31 Dec 2020	31 Dec 2019
<b>Exchange rates</b>			
Balance sheet	EUR/CHF	1.0802	1.0854
Income statement	EUR/CHF	1.0711	1.1156
Balance sheet	EUR/CZK	26.242	25.408
Income statement	EUR/CZK	26.359	25.697
Balance sheet	EUR/HRK	7.5519	7.4395
Income statement	EUR/HRK	7.5296	7.4154
Balance sheet	EUR/HUF	363.90	330.58
Income statement	EUR/HUF	348.49	324.51
Balance sheet	EUR/RON	4.8683	4.7830
Income statement	EUR/RON	4.8300	4.7350
Balance sheet	EUR/RSD	117.523	117.550
Income statement	EUR/RSD	117.578	117.911
Balance sheet	EUR/SEK	10.0343	10.4468
Income statement	EUR/SEK	10.5097	10.5655

**Cash and cash equivalents**

Cash and cash equivalents include cash deposits held with banks and other short-term highly liquid investments with original maturities of three months or less. Overdrafts are disclosed separately under liabilities and presented as "Liabilities to credit institutions". Please see note 21.

**Financial instruments**

IFRS 9 "Financial Instruments" addresses the classification, measurement and derecognition of financial assets and financial liabilities and impairment model for financial assets. Distressed asset portfolios, other long-term receivables, accounts receivables and other receivables from investments are financial instruments that are accounted for under IFRS 9 and are measured at amortized cost using the EIR method.

The DDM Debt Group's investments consist of portfolios of non-performing loans and debt, under IFRS 9 these portfolios are defined as purchase or originated credit-impaired (POCI), as these portfolios are purchased at prices significantly below the nominal amount of the receivables and therefore impairments are already included at the point of initial recognition.

The IFRS 9 impairment model is based on a forward-looking 'expected credit loss' ("ECL") model. The impairment model applies to financial assets classified at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk and involves a three-stage approach whereby financial assets move through the three stages as their credit quality changes.

Under IFRS 9 with regard to financial assets held at amortised cost that are considered to have low credit risk, the relevant impairment provision that has been applied is to recognize a 12-month ECL. The 12-month ECL is the portion of lifetime ECLs that results from default events on a financial instrument that are possible within 12 months after the reporting date. However, when there has been a significant increase in credit risk since origination or the Company acquires POCI portfolio the allowance will be based on the lifetime ECL.

Loans, accounts payable, other payables and lease liabilities are financial liabilities that are accounted for under IFRS 9 and are measured at amortized cost using the EIR method.

The DDM Debt Group's business model is to invest in distressed assets and collect the contractual cash flows. The invested assets only consist of cash flows payments of principal and interest (solely payments of principal and interest, "SPPI"). In exceptional cases, portfolios might be sold.

The table below shows the measurement of the DDM Debt Group's financial instruments according to IFRS 9:

	Valuation under IFRS 9
<b>Assets</b>	
Account receivables	Amortised cost
Other receivables	Amortised cost
Distressed asset portfolios	Amortised cost
Other long-term receivables from investments	Amortised cost
<b>Liabilities</b>	
Accounts payable	Amortised cost
Other payables	Amortised cost
Lease liabilities	Amortised cost
Short-term loans	Amortised cost
Long-term loans	Amortised cost

In line with IFRS 9 "Financial Instruments" financial assets and liabilities are recognized when the DDM Debt Group becomes a party to the contractual provisions of the instrument. Financial assets are derecognized when the rights to receive cash flows from the assets have expired or have been transferred and the DDM Debt Group has, for all intents and purposes, transferred all of the risks and

**NOTE 3. SUMMARY OF SIGNIFICANT... continued**

rewards of ownership. Financial liabilities are derecognized when the contractual commitment is discharged, cancelled or expires.

**Classification, recognition and measurement**

The DDM Debt Group classifies its financial instruments as follows and depends on the purpose for which the financial assets or liabilities were acquired:

**Financial assets carried at amortized cost**

Financial assets carried at amortized cost are non-derivative financial assets, with fixed or determinable payments that are not quoted in an active market. The DDM Debt Group's financial assets carried at amortized cost comprise distressed asset portfolios, other long-term receivables from investments, receivables and cash and cash equivalents. Financial assets carried at amortized cost are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method.

**Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the DDM Debt Group or the counterparty.

All financial assets and liabilities are presented as gross amounts in the DDM Debt Group and the Parent Company's financials, and therefore offsetting of financial assets and liabilities has not been disclosed.

**Impairment of financial assets**

The impairment regulations contained in IFRS 9, are based on the expected credit loss model (ECL model). Distressed asset portfolios and other long-term receivables from investments are considered credit-impaired under IFRS 9. As such lifetime expected credit losses are included in the estimated cash flows when calculating the effective interest rate on initial recognition of such assets. The DDM Debt Group applies the simplified method to apply lifetime expected credit losses to receivables and cash and cash equivalents.

On each reporting date the DDM Debt Group assesses on a forward-looking basis the expected credit losses associated with its collection estimates for financial assets held at amortized cost. A change in the estimated cashflow would result in a revaluation and/or impairment of the invested asset. The assessment applied depends on whether has been a change in credit risk determined by the following factors:

- level of financial difficulty of the obligor;
- delinquencies in interest or principal payments; and
- it is likely that the borrower will enter bankruptcy or other financial reorganization.

**Accounts receivable**

Accounts receivable are reported initially at fair value and are subsequently measured at amortized cost using the

effective interest method, less provision for impairment. For accounts receivables, the Company applies the simplified approach permitted under IFRS 9, which requires expected lifetime credit losses to be recognized from initial recognition of the receivables. A provision of EUR 2k was made for impairment of accounts receivables as of 31 December 2020 (31 December 2019: EUR 2k), under the simplified approach permitted under IFRS 9.

**Distressed asset portfolios and other long-term receivables from investments**

The DDM Debt Group invests in distressed asset portfolios, where the receivables are directly against the debtor, and in other long-term receivables from investments, where the receivables are against the local legal entities holding the portfolios of loans.

**Other long-term receivables from investments**

DDM Group AG owned 100% of the shares in the local legal entities holding the leasing portfolios at 31 December 2019. However, for each investment there was a co-investor holding a majority stake in the leasing portfolio, and therefore the DDM Debt Group did not control the investment as the co-investor had significant rights which if exercised could have blocked decisions related to relevant activities to collect the portfolios.

The economic substance of the investments was the underlying portfolios of loans. As a result, the underlying assets which represented other long-term receivables from investments were recognized in proportion to DDM's share of the rights to the leasing portfolio in the financial statements. The receivables were initially recognized at fair value and subsequently measured at amortized cost using the effective interest method, adjusted for revaluation and impairment. The fair value of 100% of the equity was immaterial, and therefore equity accounting was not carried out.

The following investments were treated in this manner:

Entity	Domicile	31 Dec 2020	31 Dec 2019
Lombard Pénzügyi és Lízing Zrt.	Hungary	-	100%
Lombard Ingatlan Lízing Zrt.	Hungary	-	100%
Lombard Bérlet Kft.	Hungary	-	100%

On 27 February 2020, the DDM Debt Group acquired and obtained 100% control of the economic rights to a distressed asset portfolio located in Hungary, resulting in the consolidation of Clipper Holding III S.à r.l. Prior to the acquisition DDM owned the rights to 30 percent of the portfolio and 100 percent of the equity in the portfolio which has been reclassified from other long-term receivables from investments to distressed asset portfolios. On 17 December 2020 Clipper Holding III S.à r.l. was dissolved.

**Distressed asset portfolios and other long-term receivables from investments**

The recognition of the acquisition of distressed asset portfolios and other long-term receivables from investments is based on the DDM Debt Group's forecast of future cash flows from acquired portfolios / receivables. Distressed asset portfolios and other long-term receivables from investments are purchased at prices significantly below their principal value. Such assets are classified as non-current assets. Reporting follows the effective interest method, where the carrying value of

**NOTE 3. SUMMARY OF SIGNIFICANT... continued**

each portfolio / receivable corresponds to the present value of all projected future cash flows discounted by an initial effective interest rate determined on the date the portfolio / receivable was acquired, based on the relation between cost and the projected future cash flows on the acquisition date. Changes in the carrying value of the portfolios / receivables are reported as amortization, revaluation and impairment for the period, as well as changes to the estimated projected future cash flows, and are recognized in the income statement under "Revenue on invested assets".

If the fair value of the investment at the acquisition date exceeds the purchase price, the difference results in a "gain on bargain purchase" in the income statement within the line "net collections". The gain on bargain purchase relates to the fair value measurement of the investment (purchase price allocation). Please see note 6 for further information.

Distressed asset portfolios and other long-term receivables from investments are reported at amortized cost using the effective interest method. The initial effective interest rate is calculated for each portfolio / receivable based on its purchase price including transaction costs and estimated cash flows that, based on a probability assessment, are expected to be received from the debtors of the corresponding portfolio net of collection costs.

Cash flow projections are made at the portfolio / receivable level. Assumptions must be made at each reporting date as to the expected timing and amount of future cash flows. Cash flows include the nominal amount, reminder fees, collection fees and late interest that are expected to be received from debtors less forecasted collection costs. These projections are updated at each reporting date based on actual collection information, planned collection actions as well as macroeconomic scenarios and the specific features of the assets concerned. Changes in cash flow forecasts are treated symmetrically i.e. both increases and decreases in forecast cash flows affect the portfolios' book value and as a result "Revenue on invested assets". If there is a significant change in the credit risk estimated in relation to the amount of future cash flows of the portfolio / receivable and can be estimated reliably. This is recorded within the line "Impairment of invested assets". If there is objective evidence that one or more events have taken place that will have a positive impact on the timing or amount of future cash flows, or a negative impact on the timing of future cash flows then this is recorded within the line "Revaluation of invested assets".

If the DDM Debt Group sells a portfolio / receivable for a higher or lower amount than its carrying value, the resulting gain or loss on disposal is recognized in the income statement (within the line "Net collections on sale of invested assets").

**Tangible assets**

Tangible assets are stated at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset as appropriate only when it is probable that future

economic benefits associated with the item will flow to the DDM Debt Group and the cost can be measured reliably. Repairs and maintenance costs are charged to the income statement during the period in which they are incurred.

The major categories of tangible assets are depreciated on a straight-line basis as follows:

Furniture	5 years
Computer hardware	5 years

The DDM Debt Group distributes the amount initially recognized for a tangible asset between its significant components and depreciates each component separately. The carrying amount for a replaced component is derecognized when replaced. The residual value method of depreciation and the useful lives of the assets are reviewed annually and adjusted if appropriate. Impairment and gains and losses recognized in connection with disposals of tangible assets are included among administration expenses (within the line "other operating expenses").

Tangible assets are tested for impairment when events or changes in circumstances indicate that the carrying amount may not be recoverable. For the purpose of measuring recoverable amounts, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash generating units or "CGUs"). Impairment and gains and losses recognized in connection with disposals of tangible assets are included among administration expenses (within the line "other operating expenses").

The recoverable amount is an asset's fair value less costs to sell or its value in use (being the present value of the expected future cash flows of the relevant asset or CGU as determined by management), whichever is higher.

**Non-controlling interest**

Non-controlling interest arises in cases where the DDM Debt Group acquires less than 100% of the shares in the subsidiary that the DDM Debt Group controls. For each business combination, the DDM Debt Group elects whether to measure the non-controlling interest in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets.

**Other financial liabilities**

The borrowings of the DDM Debt Group (including borrowings from credit institutions and other borrowings) and accounts payable are classified as other financial liabilities. Accounts payable are reported at fair value. Borrowings are recognized initially at fair value, net of transaction costs incurred and subsequently measured at amortized cost using the effective interest method.

**Accounts payable**

Accounts payable are reported at fair value. The book value of an accounts payable is expected to correspond with the fair value of the account payable, as this item is of a short-term nature.

**Borrowings**

Borrowings from credit institutions and other long-term payables are initially reported at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption

**NOTE 3. SUMMARY OF SIGNIFICANT... *continued***

value is reported in the income statement over the period of the borrowings, using the effective interest method for long-term borrowings and the straight-line method for borrowings with a total contract length of less than 12 months.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least twelve months after the balance sheet date.

Costs to secure financing are amortized across the term of the loan as financial expenses in the consolidated income statement. The amount is recognized in the balance sheet as a deduction to the loan liability. All other borrowing costs (interest expenses and transaction costs) are reported in the income statement in the period to which they refer.

**IFRS 16 Leases**

IFRS 16 requires recognition of an asset (the right to use the leased item) and a financial liability to pay rentals for virtually all lease contracts. An optional exemption exists for short-term and low-value leases.

***Lease liabilities***

Lease liabilities are measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate. Lease payments are allocated between principal and finance expense. The finance expense is recognised as an expense in the consolidated income statement (within the line "Financial expenses") over the lease period under the amortised cost method.

***Right-of-use assets***

Right-of-use assets are measured at cost with an initial measurement amount equal to the lease liability adjusted by the amount of any previously recognized prepaid or accrued lease payments less accumulated depreciation and accumulated impairment. Right-of-use assets are depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

Payments associated with short-term leases and all leases of low-value assets are recognised as an expense in the consolidated income statement (within the line "Other operating expenses"). Short-term leases are leases with a lease term of 12 months or less. Low-value assets comprise IT equipment and small items of office furniture.

Pursuant to the Annual Accounts Act (ÅRL 1995:1554) the Parent Company applies the accounting for a financial leasing agreement as an operational lease agreement.

**Share capital**

Ordinary shares are classified as equity. Transaction costs directly attributable to the issuance of new shares are reported in equity as a deduction, net of tax, from the proceeds.

**Current tax and deferred income tax**

Income tax comprises current and deferred tax. Income tax is recognized in the income statement except to the extent that it relates to items recognized directly in other comprehensive income or directly in equity in which case the income tax is also recognized directly in other comprehensive income or equity respectively.

Current tax is the expected tax payable on the taxable income for the year using tax rates enacted or substantively enacted at the end of the reporting period and any adjustment to tax payable in respect of previous years. In general, deferred tax is recognized in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries and associates. Deferred income tax is determined on a non-discounted basis using tax rates and laws that have been enacted or substantively enacted as per the balance sheet date and are expected to apply when the deferred tax asset is realized or the liability is settled. Deferred tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences can be utilized. Deferred tax assets and liabilities are presented as non-current.

**Revenue on invested assets and revenue from management fees**

IFRS 15 "Revenue from Contracts with Customers" establishes a comprehensive framework for determining whether, how much and when revenue is recognised. IFRS 15 establishes a five-step model to identify and account for revenue streams arising from contracts with customers.

Revenue on invested assets is the result of the application of the amortized cost method (please see note 6). Revenue from management fees relates to revenue received from co-investors where the DDM Debt Group manages the operations of the invested assets on the co-investors' behalf. In accordance with IFRS 15, revenue is recognized only when it is probable that future economic benefits will flow to the entity and these benefits can be measured reliably. The revenues recognized from management fees are based on the service obligations specified in the contracts that are delivered over a period, since the benefit to the client is continually transferred with the provision of the service. Accordingly, the revenues obtained from management fees are recognised over the period the service is provided and it is ensured there is no uncertainty, and no significant cancellation of the revenues will occur. The revenues are to be allocated based on the individual service obligations, fees are calculated based on the time spent on portfolio management and are received on a quarterly basis in arrears.

**Provisions**

Provisions are reported when the Group has a present legal or constructive obligation as a result of past events, when it is probable that an outflow of resources will be required to settle the obligation, and when the amount can be reliably estimated. No provisions have been recognized for the period. Provisions are not reported for future operating losses.

Provisions are valued at the present value of the expenditures expected to settle the obligation using a pre-tax discount rate reflecting current market assessments of the time value of money and the risks specific to the provision. The successive increase in the total amount of the provision incurred, due to the provision continuing to be reported over a long period of time, is reported as an interest expense.

**NOTE 3. SUMMARY OF SIGNIFICANT... *continued*****Revenue recognition**

Interest income on financial instruments such as distressed asset portfolios and other long-term receivables from investments is recognized over the course of maturity according to the effective interest method. The DDM Debt Group reduces the value of a distressed asset to the recoverable amount, which consists of the future expected cash flow discounted with the initially calculated effective interest rate for the financial instrument if an instrument has depreciated in value and continues to dissolve the discounting effect as an interest income. Interest income on impaired instruments is recognized at the initially calculated effective interest rate.

**Dividend distribution**

Dividend distribution to the Company's shareholders is reported as a liability in the Company's financial statements in the period in which the dividends are approved by the Company's shareholders.

No dividends will be proposed to the 2021 annual general meeting regarding the operations for 2020.

**Earnings per share**

Basic earnings per share are computed by dividing the profit attributable to the equity holders of the Parent Company by the weighted average number of ordinary shares outstanding during the period.

**New standards and interpretations not yet adopted in 2020**

Certain new accounting standards and interpretations have been published that are not mandatory for 31 December 2020 reporting periods and have not been early adopted by the DDM Debt Group. These standards are not expected to have a material impact on the DDM Debt Group in the current or future reporting periods.

There are no other IFRSs or IFRIC interpretations that are not yet effective that would be expected to have a material impact on the Company.

**Parent Company accounting principles**

The accounting principles of the Parent Company are, in all material aspects, consistent with the accounting principles of the Group.

The Parent Company's financial reports have been prepared in accordance with RFR 2 *Reporting for Legal Entities* and the Annual Accounts Act. RFR 2 stipulates exceptions from and supplements to the standards issued by IASB and interpretations thereof issued by IFRIC. The exceptions and supplements are to be applied from the date on which the legal entity applies the standard or statement in question in its consolidated financial statements.

For its financial reporting, the Parent Company applies the design stated in the Annual Accounts Act, implying, among other things, that a different presentation form is applied for equity.

Pursuant to the Annual Accounts Act (ÅRL 1995:1554) the Parent Company applies the accounting for a financial leasing agreement as an operational lease agreement. Participations in subsidiaries are reported at accrued acquisition value less any impairment. If there is an indication that shares and participations in subsidiaries have decreased in value, the recoverable amount is

calculated. If this amount is lower than the book value, impairment is carried out. Impairment is reported in the item profit/loss from participation in Group companies.

**Definitions of key ratios****Applied in the "Financial summary" in the administration report**

*Operating margin, %:* Operating profit as a percentage of revenue on invested assets and share of net profits of joint venture.

*Equity ratio, %:* Equity (including subordinated debt according to the senior secured bond and RCF terms and conditions) as a percentage of total assets.

**NOTE 4. FINANCIAL RISK MANAGEMENT**

The DDM Debt Group's activities expose it to a variety of financial and non-financial risks: market risks (currency risk and interest rate risk), credit risk, liquidity risk/financing risk and risk relating to the purchase of invested assets (distressed asset portfolios, other long-term receivables from investments and investment in joint venture).

Risk management is carried out by the DDM Group in accordance with policies established by the Board of Directors. The DDM Group identifies, evaluates and mitigates financial risks, which have been adopted by the DDM Debt Group in close co-operation with DDM Debt's CEO and Board of Directors. The Board provides a comprehensive financial policy for risk management, specified into separate sections for the various areas, such as foreign exchange risk, interest rate risk, credit risk, liquidity risk and financing risk.

There are no other IFRSs or IFRIC interpretations that are not yet effective that would be expected to have a material impact on the Company.

**Parent Company accounting principles**

The accounting principles of the Parent Company are, in all material aspects, consistent with the accounting principles of the Group.

The DDM Debt Group defines risk as all factors which could have a negative impact on the ability of the Group to achieve its business objectives. All business activity is associated with risk. In order to manage risk in a balanced way it must first be identified and assessed.

The following summary offers examples of risk factors which are considered to be especially important for the DDM Debt Group's future development, but is by no means comprehensive.

**The COVID-19 pandemic, or other similar outbreaks**

In March 2020, COVID-19 was declared a "pandemic" by the World Health Organization. The global spread of COVID-19 has had an adverse impact on global business and economic activity, creating significant volatility and uncertainty in the capital markets and significant disruption to the local operations of markets in which the DDM Debt Group operates. Our core markets have been particularly impacted by the direct impact of the COVID-19 pandemic as well as by local government policies to reduce infection rates, including, for example, restricting bailiff services for debt enforcement and the partial closure of courts and legal systems, resulting in delays of case

**NOTE 4. FINANCIAL RISK... continued**

settlements. In addition, the COVID-19 pandemic has limited the freedom of movement, which has negatively impacted tourism and thereby the economies of our markets particularly in Croatia and Greece, reducing consumer spending which may negatively impact the DDM Debt Group's revenue and profitability.

There is significant uncertainty as to the extent and duration of business disruptions related to the pandemic, as well as its impact on local and global economies and consumer confidence. The extent to which the pandemic impacts the DDM Debt Group's results will depend on future developments and the actions taken or being continued to contain it or address its impact which are highly uncertain and cannot be predicted.

The COVID-19 pandemic may also affect the DDM Debt Group's business in ways which are difficult to predict and could have further material adverse effects on the DDM Debt Group's business, results of operations and financial condition if:

- the duration, scope and severity of the pandemic results in sustained deterioration in the economic environment in our regions and the amount of debt available to us for purchase and to service as a result does not compensate for the adverse effects;
- political, legal and regulatory actions and policies in response to the pandemic, such as governmental actions or proposed actions limiting debt collection efforts and encouraging or requiring extensions, modifications or forbearance with respect to certain loans and fees, prevent us from performing our collection activities, result in material increases in our costs to comply with such laws and regulations or result in fewer debt portfolios coming to market;
- disruptions to or closures of the court system and other disruptions due to the pandemic or government restrictions on the legal process that hinder our ability to collect through the litigation process are prolonged or increased;
- as a result of unemployment or reduced income or increased costs ensuing from the pandemic, consumers respond by failing to pay amounts owed on receivables owned or managed by us;
- we are unable to maintain staffing at the levels necessary to operate our business due to the continued spread or increased virulence of COVID-19 or related coronavirus strains or resultant health complications, causing employees to be unable or unwilling to work;
- we are unable to purchase debt portfolios needed to operate our business because debt owners become unable or unwilling to sell their nonperforming loans consistent with recent levels at attractive prices or at all;
- adverse capital market conditions affect our ability to raise capital or increase our cost of capital and our cash generation is not sufficient for our needs;
- tax rates are increased to fund the cost of various government initiatives in connection with the COVID-19 pandemic; or
- we suffer a cyber-security incident or data breach as a result of an increase in the number or severity of cyber-attacks, or increased vulnerability while a larger proportion of our employees work remotely.

**Economic fluctuations**

The debt collection industry is negatively affected by a weakened economy. However, the DDM Debt Group's assessment is that, historically, it has been less affected by economic fluctuations than many other sectors. Risks associated with changes in economic conditions are managed through ongoing monitoring of each country's economic situation and development.

**Changes in regulations**

With regard to risks associated with changes in regulations in its markets, the Company continuously monitors the regulatory efforts to be able to indicate potentially negative effects and to work for favorable regulatory changes. Changes to the regulatory or political environments in which the DDM Debt Group operates, a failure to comply with applicable laws, regulations, licenses and codes of practice or failure of any employees to comply with internal policies and procedures may negatively affect the DDM Debt Group's business.

**Market risk***Foreign exchange risk*

The DDM Debt Group is an international group with operations in several countries. DDM Debt's reporting currency is Euros (EUR). This exposes the DDM Debt Group to foreign exchange risk due to fluctuations in foreign exchange rates that may impact the DDM Debt Group's results and equity. Exposure to currency fluctuations is usually specified according to two main categories: transaction exposure and translation exposure.

*Translation exposure*

When the balance sheet positions denominated in foreign currencies are recalculated to the DDM Debt Group's functional currency, a translation exposure arises that affects investor value.

*Transaction exposure*

Transaction exposure refers both to the exposure attributable to commercial flows, that is, sales and purchases across international borders, and the exposure from financial flows.

In terms of currency risk, the DDM Debt Group's operations are characterized by collections and collection costs mainly performed in local currency in the respective countries. The DDM Debt Group does not use any hedging instruments. As part of cash management the DDM Debt Group is striving to maintain cash in the different currencies they are exposed to. See also notes 16, 17, 19 and 20 regarding currencies and foreign exchange risks.

*Cash flow and fair value interest rate risks*

DDM Debt's interest rate risk primarily arises from borrowings, which consists of senior secured bonds and the revolving credit facility. Borrowings issued using the floating reference rate EURIBOR expose DDM Debt to interest rate risk and borrowings issued at fixed rates expose DDM Debt to fair value interest rate risk. A sudden and permanent interest rate shock could have a material adverse effect on DDM's business, results of operations or financial condition and its ability to make payments under the bond terms.

**NOTE 4. FINANCIAL RISK... continued****Credit risks inherent of distressed assets**

The credit risk is considered upon the acquisition of a financial asset by assessing the expected return. The DDM Debt Group manages this risk by monitoring the performance of the financial asset throughout its economic life. Cash collections are continually monitored, and the carrying value of the asset is impaired where it is deemed that, based on collections profiles, the asset is underperforming compared to the initial expected return determined at the acquisition date. The financial assets subjected to credit risk are cash and cash equivalents, accounts receivable, distressed asset portfolios and other long-term receivables from investments. Depending on the distressed asset portfolio or other long-term receivables from investment, the loans in the portfolio / receivable may contain underlying assets such as cars and houses as collateral for the loans. However it is always the DDM Debt Group's intention to recover the debt if possible, rather than the collateral. This collateral is considered when determining the recoverability and carrying amount of the portfolio / receivable. Any collateral received during the life of the portfolio is disposed on an on-going basis to limit the amount of collateral held. The maximum credit exposure for each class of financial assets therefore corresponds to the carrying amount, which is shown in the following tables:

Group EUR '000s	At 31 December 2020
Cash and cash equivalents	30,672
Accounts receivable	14,152
Distressed asset portfolios	77,194
Other long-term receivables from investments	–
<b>Total</b>	<b>122,018</b>

Group EUR '000s	At 31 December 2019
Cash and cash equivalents	11,464
Accounts receivable	3,330
Distressed asset portfolios	140,276
Other long-term receivables from investments	3,023
<b>Total</b>	<b>158,093</b>

At 31 December 2020 the majority of the DDM Debt Group bank accounts were held with banks with credit ratings ranging from A+ to BB- as rated by Standard and Poor's. At 31 December 2019 the majority of the DDM Debt Group bank accounts were held with banks with credit ratings ranging from AA- to BB- as rated by Standard and Poor's. No credit ratings are available for the other financial assets held by the DDM Debt Group.

At 31 December 2020 bank accounts totaling EUR 0k were assigned to the bond agent and the bondholders under the terms and conditions of the senior secured bonds (31 December 2019: EUR 0k). In addition, DDM Debt AB had a bank guarantee of EUR 5k at 31 December 2019 (31 December 2019: EUR 5k).

**Other credit risk**

Credit risk is the risk that the counterparty in a financial transaction will not fulfil its obligations on the maturity date. Credit risk is managed by the DDM Debt Group and arises from cash and cash equivalents, and deposits with banks and financial institutions.

Another source of credit risk arises in connection to funds collected during the ordinary course of business. Funds are either collected directly on the DDM Debt Group's bank accounts, or are paid in to client fund accounts held by the respective debt collection agencies to separate the DDM Debt Group's funds from the general funds of the agency. In the second instance twice per month there is a reconciliation-process, and based on this received and allocated funds are transferred from the client fund accounts. Should a debt collection agency become insolvent between such reconciliation events monies collected and not yet reconciled could be frozen on the account pending the outcome of the insolvency. In selecting debt collection partners the DDM Debt Group makes efforts to control and monitor the financial standing of its partners and also to maintain a balance of the work allocated between agencies to minimize the potential risk of such a situation. Amounts expected to be recovered from a solvent counterparty are recognized as accounts receivable in the balance sheet.

**Liquidity risk / Financing risk**

The aim of the capital structure is to secure the DDM Debt Group's ability to continue its operations, in order to continue generating returns to its shareholders and to provide benefit for other stakeholders, and to maintain an optimal capital structure, minimizing the cost of capital.

The tables below specify the undiscounted cash flows arising from the DDM Debt Group's liabilities in the form of financial instruments, based on the remaining period to the earliest contractual maturity date as at the balance sheet date. Amounts in foreign currencies and amounts that are to be paid based on floating interest rates are estimated using the exchange and interest rates applicable on the balance sheet date.

**Fair values**

The DDM Debt Group considers there to be no material differences between the financial asset values in the consolidated balance sheet and their fair value. Invested assets are classified as financial assets held at amortized cost and recognized at amortized cost according to the effective interest rate method. The DDM Debt Group determines the carrying value by calculating the present value of estimated future cash flows at the invested assets' original effective interest rate. Adjustments are recognized in the income statement.

In the DDM Debt Group's opinion, the market's yield requirements in the form of effective interest rates on new invested assets have remained fairly constant, despite turbulence in global financial markets in recent years. With this valuation method, the carrying value is the best estimate of the fair value of invested assets. Please note that the table below is only intended to illustrate how the use of fair value could be presented. The DDM Debt Group reports their loans at amortized cost and the table below should only be considered from an illustrative perspective.

The table below shows the financial assets and financial liabilities where the carrying values are considered to be materially in line with their fair values:

Group EUR '000s	IFRS 9 category	Fair value category	31 Dec 2020
<b>Assets</b>			
<b>Fair value and carrying value of financial instruments</b>			
Accounts receivable	Financial assets held at amortized cost	Level 2	14,152
Other receivables	Financial assets held at amortized cost	Level 2	1,636
Distressed asset portfolios	Financial assets held at amortized cost	Level 3	77,194
Other long-term receivables from investments	Financial assets held at amortized cost	Level 3	–
<b>Liabilities</b>			
<b>Fair value and carrying value of financial instruments</b>

<b>Fair value and carrying value of financial instruments</b>			
Accounts payable	Financial liabilities held at amortized cost	Level 2	578
Other payables	Financial liabilities held at amortized cost	Level 2	8,746
Lease liabilities	Financial liabilities held at amortized cost	Level 3	104

Group EUR '000s	IFRS 9 category	Fair value category	Fair value	Carrying value
<b>At 31 December 2020</b>				
Revolving credit facility	Financial liabilities at amortized cost	Level 2	9,000	8,971
Bond loan, 8%	Financial liabilities at amortized cost	Level 2	36,244	36,391
Bond loan, 9.25%	Financial liabilities at amortized cost	Level 2	72,865	75,303
<b>At 31 December 2019</b>				
Bond loan, 8%	Financial liabilities at amortized cost	Level 2	51,012	49,504
Bond loan, 9.25%	Financial liabilities at amortized cost	Level 2	101,623	97,626

The levels in the hierarchy are:

Level 1 – Quoted prices on active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within level 1, that are observable for the asset or liability either directly (such as prices) or indirectly (such as derived from prices). The fair value of the senior secured bonds is calculated based on the bid price for a trade occurring close to the balance sheet date.

Level 3 – Inputs for the asset or liability that are not based on observable market data (that is unobservable inputs). The appropriate level is determined based on the lowest level of input that is essential for valuation at fair value.

The valuation technique for invested assets, as well as valuation sensitivity for changes in material data are described in the accounting principles and in note 5.

**Management of capital risk**

Similar to other companies in the industry, DDM Debt Group assesses its capital requirements on the basis of its equity / total assets ratio. For the purpose of calculating compliance with the covenant of the senior secured bonds and RCF, this ratio is calculated as adjusted equity divided by total assets. Adjusted equity includes subordinated debt (defined in IFRS 9 as an instrument without a contractual obligation to deliver cash or other assets) and retained earnings.

**NOTE 4. FINANCIAL RISK... continued**

<b>Adjusted equity</b>	<b>59,425</b>	<b>41,928</b>
<b>Adjusted equity / total assets ratio</b>	<b>30.2%</b>	<b>21.1%</b>

**NOTE 5. CRITICAL ESTIMATES AND ASSUMPTIONS IN APPLYING THE GROUP'S ACCOUNTING PRINCIPLES**

Estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events deemed to be reasonable under the circumstances.

Furthermore, the decision to amend a cash flow projection is preceded by a discussion between operations and Company management. All changes in cash flow projections are ultimately decided on by the CEO and Board of Directors. Please also refer to our website for additional information on risk factors affecting the DDM Debt Group.

**Critical accounting estimates and judgements**

The DDM Debt Group undertakes estimates and assumptions concerning future developments. The resulting accounting estimates will, by definition, seldom equal actual results. The estimates and assumptions entailing a significant risk of a material adjustment to the book values of assets and liabilities within the next financial year are outlined as follows:

**Revenue recognition and measurement of acquired portfolios and other long-term receivables from investments**

Distressed asset portfolios and other long-term receivables from investments are financial instruments that are accounted for under IFRS 9 and are measured at amortized cost using the effective interest method ("EIR"). The effective interest rate method is a method of calculating the amortized cost of a distressed asset portfolio / receivable and of allocating interest income over the expressed life of the portfolio / receivable; the allocated interest income is recorded within revenue on invested assets in the financial statements. The EIR is the rate that exactly discounts estimated future purchased portfolio cash receipts through the expected life of the purchased portfolio / receivable. The EIR is determined at the time of purchase of the portfolio / receivable. The estimation of cash flow forecasts is a key estimation uncertainty fundamental within this critical accounting policy.

If the fair value of the investment at the acquisition date exceeds the purchase price, as in some cases DDM Debt Group owns the economic benefit of net collections from the cut-off date, the difference results in a "gain on bargain purchase" in the income statement within the line "net collections".

The gain on bargain purchase relates to the fair value measurement of the investment (purchase price allocation). If the acquisition is settled on a net basis this results in an impact to the "other items not affecting cash" line in the cash flow statement, as the economic benefit is offset against the cash purchase price.

Upward revaluations are recognized as revenue. Subsequent reversals of such upward revaluations are recorded in the revenue line.

The portfolios/receivables are assessed on a forward-looking basis for the expected credit losses associated with its collection estimates for financial assets held at amortised cost in accordance with IFRS 9. An expected credit loss for a portfolio / receivable is recognised if there is a significant change in the credit risk estimated in relation to the amount of future cash flows of the portfolio/receivable and can be estimated reliably, an adjustment is recorded to the carrying value.

If the forecasted collections exceed initial estimates, an adjustment is recorded as an increase to the carrying value and is included in revenue on invested assets. The estimation of cash flow forecasts is a key estimation uncertainty fundamental within this critical accounting policy. Estimates of cash flows that determine the EIR are established for each purchased portfolio/receivable and are based on actual collection information, planned collection actions as well as macroeconomic scenarios and the specific features of the assets concerned. Revaluations of portfolios/ receivables are based on the rolling 120-month ERC ("Estimated remaining collections") at the revaluation date. The ERC is updated quarterly using a proprietary model, see page 62 for the financial definition of ERC.

The DDM Debt Group estimates that a continuous decrease of net collections by 10% would result in a 10% decrease of the net present value, or book value, assuming that the forecasted collection curves remain unchanged. If collections consistently would exceed the originally forecasted amounts by 10%, the net present value, or book value, would be expected to increase by 10%. In addition, if collections would start later than originally forecasted, the net present value, and book value, are expected to be negatively impacted while be positively impacted should collections start earlier than originally forecasted.

See notes 16 and 17 for the carrying value of distressed asset portfolios and other long-term receivables from investments.

**Joint venture**

As stated in note 15, on 31 May 2019, the DDM Debt Group became 50% owner of the share capital and voting rights of CE Partner S.à r.l. and CE Holding Invest S.C.S. (the "Joint Venture") registered in Luxembourg. Under IFRS 11, the joint arrangement is determined for reporting purposes to be a joint venture and therefore the equity method is applied when accounting for the joint venture. Under the equity method of accounting the investment is recognised at cost and subsequently adjusted to the DDM Debt Group's 50% share of the change in the net assets of the Joint Venture since the acquisition date.

**NOTE 5. CRITICAL ESTIMATES... continued**

The equity method is applied from the date joint control arises until the time it ceases, or if the joint venture becomes a subsidiary. Upon loss of joint control over the joint venture, and as such the equity method ceases, the Company measures and recognises any difference between the carrying amount of the investment in the joint venture with the fair value of the remaining investment and/or proceeds from disposal which is recognised as gain or loss directly in the income statement.

**Associate**

As stated in note 14, on 9 March 2020 the DDM Debt Group acquired a 9.9% shareholding in Addiko Bank AG for a cash consideration totaling approximately EUR 30M. The DDM Debt Group has determined that it has significant influence over Addiko Bank AG through already acquiring a 9.9% shareholding and the call option exercised on 30 March 2020 to acquire an additional 10.1% stake in Addiko Bank AG that lapsed in October 2020. The DDM Debt Group continues to be committed to its investment in Addiko and confirms its intention to increase its shareholding. The DDM Debt Group as a major shareholder is able and requested an Extraordinary General Meeting of Addiko Bank AG to make changes to the composition of the supervisory board which took place on 10 July 2020. The financial statements of the associate are prepared based on the most recent available financial statements for the nine month period ending 30 September 2020, with adjustments made for the effects of any significant transactions until 31 December 2020.

**NOTE 6. RECONCILIATION OF REVENUE ON INVESTED ASSETS**

Revenue on invested assets is the net amount of the cash collections (net of third party commission and collection costs), amortization, revaluation and impairment of invested assets. Net collections includes management fees received from co-investors, as the DDM Debt Group manages the operations of these assets. These fees are considered to be immaterial and have therefore not been disclosed separately.

Net collections is comprised of gross collections from the invested assets held by the DDM Debt Group, less commission and fees to third parties. The net amount of cash collected is recorded as "Net collections" within the line "Revenue on invested assets" in the consolidated income statement. The DDM Debt Group discloses the alternative performance measure "Net collections" in the notes separately, as it is an important measurement for the DDM Debt Group to monitor the performance of the portfolios and measure the cash available for operating expenses and to service its debt. The DDM Debt Group believes that disclosing net collections as a separate performance measure in the notes improves the transparency and understanding of the DDM Debt Group's financial statements and performance, meeting the expectations of its investors. Collection costs are comprised of all third party expenses directly attributable to the collection of distressed asset portfolios and other long-term receivables from investments, such as collection fees, commission, transaction costs, non-recoverable VAT on amounts collected and Swiss VAT where applicable. The collection costs differ from portfolio to portfolio depending on the country/jurisdiction and the specific features of the assets concerned.

Movement in deferred tax liabilities	88	(30)
<b>Total tax expense / (income)</b>	<b>1,094</b>	<b>(865)</b>

<b>Parent Company EUR</b>	<b>2020</b>	<b>2019</b>
Current tax expense for the year	107	39
<b>Total tax expense</b>	<b>107</b>	<b>39</b>

The differences between tax expense and an estimated tax expense based on current tax rates are as follows:

<b>Group EUR '000s</b>	<b>2020</b>	<b>2019</b>
Profit / (loss) before tax	9,963	(8,152)
Tax calculated at 11.91% (Swiss) tax rate (prior year 12.2%)	1,187	(995)
Movement in deferred tax assets	(757)	(108)
Movement in deferred tax liabilities	88	(30)
Effects of foreign tax rates	98	(40)
Adjustments for previous years and other	478	308
<b>Total tax expense / (income)</b>	<b>1,094</b>	<b>(865)</b>

<b>Parent Company EUR '000s</b>	<b>2020</b>	<b>2019</b>
Profit / (loss) before tax	2,749	228
Tax calculated at 21.4% (Swedish) tax rate (prior year 21.4%)	588	49
Adjustment for previous years and other	(481)	(10)
<b>Total tax expense</b>	<b>107</b>	<b>39</b>

The Group's effective tax rate was 11.0% at 31 December 2020 (10.6% at 31 December 2019).

The increase in the Group's effective tax rate in 2020 is primarily due to the combined effects of the profit for the year at consolidated level and the adjustments to the existing temporary differences on individual entity level.

There was no tax related to items of other comprehensive income.

At 31 December 2020 in Sweden the earliest termination date for the office lease agreement was 31 March 2021, and therefore no right-of-use asset has been recognized.

During 2019, the Slovenian office lease was renewed terminating in August 2021 and a motor vehicle lease was entered into terminating in November 2021. On 1 October 2019, AXFina Austria GmbH (previously aXs GmbH) and AXFina Austria Croatia d.o.o. (previously aXs Croatia d.o.o.) entered into lease agreements for office premises located in Austria and Croatia respectively. Subsequently 82% of the shares held in AXFina Austria GmbH (previously aXs GmbH) were sold to AXFina Holding S.A. (previously Ax Financial Holding S.A.) and therefore the corresponding right-of-use assets were derecognized. At 31 December 2019 in Sweden the earliest termination date for the office lease agreement was 31 March 2020, and therefore no right-of-use asset was recognized.

**NOTE 14. INTERESTS IN ASSOCIATES**

Set out below are the associates of the DDM Debt Group as at 31 December 2020 and 31 December 2019. The entities listed have share capital consisting solely of ordinary shares, which are held directly by the DDM Debt Group. The country of incorporation or registration is also their principal place of business, and the proportion of ownership interest is the same as the proportion of voting rights held.

Interests in associates are as follows:

Name of entity	Corporate identity number	Domicile	% of ownership interest		Nature of relationship
			2020	2019	
Addiko Bank AG	350921k	Austria	9.9%	–	Associate

Name of entity	Measurement method	Carrying amount (EUR '000s)	
		2020	2019
Addiko Bank AG	Equity method	32,986	–

On 9 March 2020 the DDM Debt Group acquired a 9.9% shareholding in Addiko Bank AG for a cash consideration totaling approximately EUR 30M. The DDM Debt Group has determined that it has significant influence over Addiko Bank AG through already acquiring a 9.9% shareholding and the call option exercised on 30 March 2020 to acquire an additional 10.1% stake in Addiko Bank AG that lapsed in October 2020. The DDM Debt Group continues to be committed to its investment in

**NOTE 14. INTERESTS IN ASSOCIATES... continued**

Addiko and confirms its intention to increase its shareholding. The DDM Debt Group as a major shareholder is able and requested an Extraordinary General Meeting of Addiko Bank AG to make changes to the composition of the supervisory board which took place on 10 July 2020. The financial statements of the associate are prepared based on the most recent available financial statements for the nine month period ending 30 September 2020, with adjustments made for the effects of any significant transactions until 31 December 2020. The market value of the 9.9% shareholding in Addiko Bank AG at the 31 December 2020 corresponds to EUR 16.9M. As the investment in associate is accounted under the equity method the recoverable amount of this investment is determined using a discounted dividend cashflow calculation and no impairment has been identified.

<b>Closing net book value</b>	<b>32,986</b>	–

**NOTE 15. INVESTMENT IN JOINT VENTURE**

On 31 May 2019, the DDM Debt Group acquired a distressed asset portfolio containing secured corporate receivables in Croatia through a 50/50 joint venture with B2Holding. As part of the co-investment structure with B2Holding, DDM became 50% owner of the share capital and voting rights of CE Partner S.à r.l. and CE Holding Invest S.C.S. (the "Joint Venture") registered in Luxembourg.

Name of entity	Corporate identity number	Domicile	% of ownership interest		Nature of relationship
			2020	2019	
CE Partner S.a.r.l.	B230176	Luxembourg	50%	50%	Joint Venture
CE Holding Invest S.C.S.	B230358	Luxembourg	50%	50%	Joint Venture

The investment is accounted for under the equity method in accordance with IFRS 11 Joint Arrangements and has changed as set out below during the year:

EUR '000s	31 Dec 2020	31 Dec 2019
<b>Opening net book value</b>	<b>29,952</b>	–
Additions	–	66,662
Share of net profits of joint venture	1,063	916
Proceeds from divestment of joint venture	–	(33,789)
Incremental net distribution from joint venture	(5,324)	(3,837)
<b>Closing net book value</b>	<b>25,691</b>	<b>29,952</b>

On 15 July 2019, the Joint Venture secured total gross third party of EUR 75M. The net proceeds were used to partially fund the joint venture acquisition in Croatia by the DDM Debt Group together with B2Holding at a lower cost of funding than the existing DDM Debt AB senior secured bonds in issue. The incremental net distribution from the joint venture includes EUR 4.5M (2019: EUR 2.6M) that has been received as a cash distribution during the full year 2020, of which EUR 3.3M relates to 2020 and EUR 1.2M relates to 2019. A further EUR 2.0M (31 December 2019: EUR 1.2M) that has been reclassified to accounts receivable at the end of the year.

The Joint Venture is subject, by agreement, to joint control shared equally by the DDM Debt Group and B2Holding. The Joint Venture has invested in a non-performing secured portfolio acquired from HETA Asset Resolution in Croatia.

The summarized financial information shown below represents amounts from the Joint Venture's financial statements that were prepared in accordance with IFRS:

Revaluation, including forex differences	(4,969)	849
<b>Closing accumulated acquisition cost</b>	<b>288,823</b>	<b>286,973</b>
<b>Opening accumulated amortization, revaluation and impairment</b>	<b>(146,697)</b>	<b>(108,790)</b>
Amortization, including forex differences	(64,600)	(32,127)
Impairment	(332)	(5,780)
<b>Closing accumulated amortization, revaluation and impairment</b>	<b>(211,629)</b>	<b>(146,697)</b>
<b>Closing net book value</b>	<b>77,194</b>	<b>140,276</b>

Net collections (see note 6) includes EUR 59.8M received from Greece, due to the accelerated collections received following the restructuring of the Greek investment. The entire carrying value remaining of EUR 43.8M prior to the restructuring has been recognized as amortization. The DDM Debt Group has assessed the transaction and concluded it retains the same contractual rights to future cashflows in the distressed asset portfolio as prior to the restructuring and therefore has not derecognized the asset under IFRS 9 amortized cost as of 31 December 2020.

During 2020 and 2019, the Group has not reclassified any of its financial non-current assets, which have been valued at amortized cost, to assets valued at fair value.

The DDM Debt Group invests in portfolios/receivables that are denominated in local currencies as well as portfolios/receivables denominated in EUR. Therefore, fluctuations in the EUR exchange rate against these currencies affects collections from invested assets and the operating earnings of the DDM Debt Group.

The carrying values of the distressed asset portfolios owned by the DDM Debt Group are distributed by currency as follows:

EUR '000s	31 December 2020	31 December 2019
HRK	55,214	63,557
EUR	9,971	65,797
HUF	7,347	–
CZK	3,338	8,618
RSD	792	1,385
RON	532	919
<b>Total</b>	<b>77,194</b>	<b>140,276</b>

An appreciation of the euro of 10% as at 31 December 2020 against the Croatian kuna would have resulted in an additional unrealized foreign exchange loss of EUR 5.5M (31 December 2019: loss of EUR 6.4M) and against the Czech koruna a loss of EUR 0.3M (31 December 2019: loss of EUR 0.8M). Consequently, a depreciation of the euro of 10% at 31 December 2020 and 31 December 2019 would have resulted in an additional unrealized foreign exchange gain of the same amount.

**NOTE 17. OTHER LONG-TERM RECEIVABLES FROM INVESTMENTS**

EUR '000s	31 December 2020	31 December 2019
<b>Opening accumulated acquisition cost</b>	<b>20,849</b>	<b>18,767</b>
Reclassification to distressed asset portfolios	(2,853)	–
Revaluations, including forex differences	(390)	2,082
<b>Closing accumulated acquisition cost</b>	<b>17,606</b>	<b>20,849</b>
<b>Opening accumulated amortization and impairment</b>	<b>(17,826)</b>	<b>(16,345)</b>
Amortization, including forex differences	220	(1,481)
<b>Closing accumulated amortization and impairment</b>	<b>(17,606)</b>	<b>(17,826)</b>
<b>Closing net book value</b>	<b>–</b>	<b>3,023</b>

The DDM Debt Group owned 100% of the shares in certain legal entities holding leasing portfolios as at 31 December 2019 (see note 3). The fair value of 100% of the equity was immaterial, with the economic substance of the investments being the underlying portfolios of loans. As a result, the underlying assets which represented other long-term receivables from investments were recognized in the financial statements. The fair value of the loans were initially recognized at fair value and subsequently measured at amortized cost using the effective interest method, adjusted for revaluation and impairment.

On 27 February 2020, the DDM Debt Group acquired and obtained 100% control of the economic rights to a distressed asset portfolio located in Hungary, resulting in the consolidation of Clipper Holding III S.à r.l. Prior to the acquisition the DDM Debt Group owned the rights to 30 percent of the portfolio which has been reclassified from other long-term receivables from investments to distressed asset portfolios. On 17 December 2020 Clipper Holding III S.à r.l. was dissolved.

The DDM Debt Group invests in portfolios/receivables that are denominated in local currencies as well as portfolios/receivables denominated in EUR. Therefore, fluctuations in the EUR exchange rate against these currencies affects collections from distressed asset portfolios and other long-term receivables from investments and the operating earnings of the DDM Debt Group.

**NOTE 17. OTHER LONG-TERM... continued**

The carrying values of the other long-term receivables from investments owned by the DDM Debt Group are distributed by currency as follows:

EUR '000s	31 December 2020	31 December 2019
HUF	–	3,023
<b>Total</b>	<b>–</b>	<b>3,023</b>

An appreciation of the euro of 10% as at 31 December 2020 against the Hungarian Forint would have resulted in an additional unrealized foreign exchange loss of EUR nil (31 December 2019: loss of EUR 0.3M). Consequently, a depreciation of the euro of 10% at 31 December 2020 and 31 December 2019 would have resulted in an additional unrealized foreign exchange gain of the same amount.

The majority of the DDM Debt Group's operating leases are leases of office buildings. Lease liabilities are measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate.

At 31 December 2020 in Sweden the earliest termination date for the office lease agreement was 31 March 2021, and therefore no lease liability has been recognized.

During 2019, the Slovenian office lease was renewed terminating in August 2021 and a motor vehicle lease was entered into terminating in November 2021. On 1 October 2019, AXFina Austria GmbH (previously aXs GmbH) and AXFina Croatia d.o.o. (previously aXs Croatia d.o.o.) entered into lease agreements for office premises located in Austria and Croatia respectively. Subsequently 82% of the shares held in AXFina Austria GmbH (previously aXs GmbH) were sold to Ax Financial Holding S.A. ("AxFina") and therefore the corresponding lease liabilities were derecognized. At 31 December 2019 in Sweden the earliest termination date for the office lease agreement was 31 March 2020, and therefore no lease liability was recognized.

**NOTE 25. BOND LOANS AND BORROWINGS**

The DDM Debt Group had the following borrowings at the balance sheet dates of 31 December 2020 and 31 December 2019. See note 4 for a description of contractual undiscounted cash flows.

Bond loan EUR 100M

On 8 April 2019, DDM Debt AB (publ) ("DDM Debt") issued EUR 100M of senior secured bonds priced at Euribor plus a margin of 9.25% within a total framework amount of EUR 150M. The bonds with ISIN number SE0012454940 have a final maturity date of 8 April 2022 and are listed on the Corporate Bond list at Nasdaq Stockholm. The proceeds from the new bond issue were mainly employed towards refinancing the existing EUR 85M bond and for general corporate purposes.

On 16 March 2020 DDM Debt AB completed a written procedure regarding certain amendments to the terms and conditions of its up to EUR 150M senior secured bonds. A consent fee amounting to EUR 250 per bond was paid by DDM Debt to the eligible Bondholders. At 31 December 2020 DDM Debt held EUR 23m of the EUR 100m senior secured bonds following bond buybacks.

DDM Debt's financial instruments contain a number of financial covenants, including limits on certain financial indicators. The financial covenants according to the terms and conditions of the senior secured bonds and the revolving credit facility are: an equity ratio of at least 15.00%, net interest bearing debt to cash EBITDA below 4:1, and net interest bearing debt to ERC below 75.00%. DDM's management carefully monitors these key financial indicators, so that it can quickly take measures if there is a risk that one or more limits may be exceeded. DDM Debt complied with all bond covenants for the years ending 31 December 2020 and 31 December 2019.

DDM Debt has pledged the shares in its direct subsidiaries as security under the terms and conditions. Certain bank accounts are also assigned to the bond agent and the bondholders as part of the bond terms. DDM Finance is a guarantor of the bonds. In addition, the investors receive a first ranking share pledge over the shares of DDM Debt. The terms and conditions of DDM Debt's senior secured bonds and revolving credit facility contain a number of restrictions, including relating to distributions, the nature of the business, financial indebtedness, disposals of assets, dealings with related parties, negative pledges, new market loans, mergers and demergers and local credits. The terms and conditions of the senior secured bonds are available in their entirety on our website.

Revolving credit facility EUR 27M

On 15 March 2019, DDM Debt agreed a super senior revolving credit facility ("RCF") of EUR 27M with an international bank. The RCF is available to finance investments and for general corporate purposes. The facility was available until 15 March 2021 and priced at Euribor plus a margin of 350 basis points. In February 2021 DDM Debt renewed the RCF for a further two years until 15 March 2023, with the terms of the new RCF materially in line with the previous RCF which was due to mature on 15 March 2021.

Bond loan EUR 50M

On 11 December 2017, DDM Debt issued EUR 50M of senior secured bonds at 8% within a total framework amount of EUR 160M. The bonds with ISIN number SE0010636746 have a final maturity date of 11 December 2021 and are listed on the Corporate Bond list at Nasdaq Stockholm. The bonds contain a number of financial covenants. Please refer to the "Bond loan EUR 100M" section above for further details. The net proceeds were for acquiring additional debt portfolios.

On 14 August 2020 DDM Debt completed a written procedure to request certain amendments to the terms and conditions of its up to EUR 160m senior secured bonds. DDM Debt AB requested, among other things, to extend the final redemption date by twelve months from 11 December 2020 in anticipation that the volatility in the credit markets caused by the COVID-19 pandemic will decrease and that the financial markets will normalize. The amendments incorporated a mandatory partial redemption structure, including a EUR 7.5m of nominal value bond buyback paid on 16 September, EUR 5m bond cancellation on 18 December, call structure and consent fee of 1% that was paid on 28 August. At 31 December 2020 DDM Debt held EUR 0.6m of the EUR 50m senior secured bonds following bond buybacks.

Bond loan EUR 85M

EUR 50M of senior secured bonds at 9.5% were issued by DDM Debt on 30 January 2017, within a total framework amount of EUR 85M. The bonds with ISIN number SE0009548332 had a final maturity date of 30 January 2020 and were listed on the Corporate Bond list at Nasdaq Stockholm. In April 2017, DDM Debt successfully completed a EUR 35M tap issue under the EUR 85M senior secured bond framework. The bond tap issue was placed at a price of 101.5%, representing a yield to maturity of c. 9%.

On 2 May 2019, DDM Debt redeemed in advance its EUR 85M senior secured bonds with ISIN SE0009548332, in accordance with Clause 9.3 (Voluntary total redemption (call option)) of the terms and conditions of the bonds. The bonds were redeemed each at the applicable call option (being 102.38 per cent. of the outstanding nominal amount) totaling EUR 2.0M, plus accrued but unpaid interest. In addition, the remaining capitalized transaction costs of approximately EUR 0.6M were expensed to the income statement as a non-cash write off in relation to the existing EUR 85M bond. The redemption amount was paid to the bondholders holding bonds on the relevant record date, being 24 April 2019. The bonds were de-listed from the corporate bond list of Nasdaq Stockholm in connection with the redemption date and the last day of trading occurred on 18 April 2019.

Other loans

In March 2020, the DDM Debt Group received approximately EUR 0.5M as financing as part of the government loan scheme in Switzerland for the COVID-19 pandemic, which was repaid in full in November 2020.

The Company has defined the Company's management, the Board of Directors in the Parent Company, DDM Debt AB (publ), the owners of DDM Debt AB (publ) and all subsidiaries included in the Group as related parties. AXFina Austria GmbH (previously aXs GmbH) and AXFina Holding S.A. (previously Ax Financial Holding S.A.) ("AxFina"), which is 100% owned and controlled by DDM Group Finance S.A. (DDM Holding AG largest shareholder) are also defined as related parties.

No interest is calculated on the current intercompany receivables / payables within the DDM Debt Group.

**NOTE 28. BALANCES AND TRANSACTIONS WITH RELATED PARTIES... continued**

On 29 May 2019, AXFina Austria GmbH (previously aXs GmbH) was registered following the partnership that was launched with the company 720 Restructuring & Advisory, where 70% of the ownership was controlled by DDM. On 23 December 2019, a further 12% of the shares of AXFina Austria GmbH were acquired for a total consideration of EUR 200k. Subsequently 82% of the shares held in AXFina Austria GmbH were sold to AXFina Holding S.A. (previously Ax Financial Holding S.A.) ("AxFina"), which is 100% owned and controlled by DDM Group Finance S.A. for a total deferred consideration of EUR 1,367k on 23 December 2019. This transaction resulted in a gain on sale of shares of EUR 1,142k which was recognized in the income statement under "Other operating income" during the year ended 31 December 2019.

In 2020 AXFina Holding S.A. together with its 100% directly-held subsidiaries AXFina Austria GmbH, AXFina Croatia d.o.o. and AxFina Slovenia d.o.o. ("AXFina") entered into an agreement with the DDM Debt Group where AXFina provides services for the DDM Debt Group's secured portfolios under a servicing contract.

In 2020 AXFina Holding S.A. together with its 100% directly-held subsidiaries AXFina Austria GmbH, AXFina Croatia d.o.o. and AXFina Slovenia d.o.o. ("AXFina") entered into an agreement with the DDM Debt Group where AXFina provides services for the DDM Debt Group's secured portfolios under a servicing contract. The compensation to AXFina under the servicing contract during the year ended 31 December 2020 amounted to EUR 1,268k that was principally recognized within net collections.

On 1 September 2020, Therese Wennerholm, a person related to Henrik Wennerholm, entered into an employment agreement with DDM Debt to provide administration services for a period of up to twelve months. Administration services in relation to this agreement amounted to EUR 18k which has been recognized in consultancy expenses during the full year 2020.

In 2017 the DDM Debt Group undertook an investment in a Greek NPL transaction which was executed by making a structured investment of a net amount of EUR 36.4m into a Luxembourg SPV ("Artemis Finance Holding S.A.R.L."), whose shares are ultimately held by trusts attributable to Erik Fällström and Andreas Tuczka. In 2019 the DDM Debt Group further bought out the co-investor, with a total investment amounting to approximately EUR 20.1m. In 2020 the DDM Debt Group restructured its investment in the Greek NPL transaction which resulted in accelerated collections of EUR 59.8m being received and the entire carrying value remaining of EUR 43.8m prior to the restructuring has been recognized as amortization. The DDM Debt Group has assessed the transaction and concluded that it retains the same contractual rights to future cashflows in the distressed asset portfolio as prior to the restructuring and therefore has not derecognized the asset under IFRS 9 amortized cost as of 31 December 2020. Transactions between the DDM Debt Group companies (fully consolidated) and Artemis Finance Holding (and its subsidiaries) were as follows:

Group EUR '000s		1 Jan – 31 Dec 2020	1 Jan – 31 Dec 2019
Income Statement	Net collections	74,522	12,111
	Amortization net of revaluation	(49,890)	(4,319)

\*\* The net book value of the investment in DDM Debt Management d.o.o Beograd amounts to EUR 1 as of 31 December 2020 and 31 December 2019.

\*\*\* The net book value of the investment in DDM REO Adria d.o.o. amounts to EUR 1 as of 31 December 2020.

On 30 September 2019 DDM Treasury Sweden AB was contributed to DDM Debt by DDM Finance at book value, resulting in a EUR 45k capital contribution from DDM Finance. On 11 February 2020 DDM Treasury Sweden AB was merged into DDM Debt AB to simplify the existing DDM Group structure. On 31 December 2020 DDM Finance AB contributed EUR 5,936k to DDM Debt recognized as part of shareholder's equity, by transferring a loan receivable towards DDM Group AG in the amount of EUR 5,936k to DDM Debt.

On 27 February 2020 the DDM Debt Group acquired and obtained 100% control of the economic rights to a distressed asset portfolio located in Hungary, resulting in the consolidation of Clipper Holding III S.à r.l. On 17 December 2020 Clipper Holding III S.à r.l. was dissolved.

On 23 July 2020 DDM REO Adria d.o.o. was incorporated.

**NOTE 30. PROPOSED APPROPRIATION OF EARNINGS**

The Parent Company's distributable funds are at the disposal of the Board of Directors as follows:

<b>EUR</b>	<b>2020</b>
Retained earnings	5,485,967
Contribution agreement	–
Conditional shareholder's contribution	5,936,000
Net earnings for the year	2,641,857
<b>Total</b>	<b>14,063,824</b>

The Board of Directors propose that the earnings be distributed as follows:

<b>EUR</b>	<b>2020</b>
Balance carried forward	14,063,824
<b>Total</b>	<b>14,063,824</b>

**NOTE 31. PLEDGED ASSETS, CONTINGENT LIABILITIES AND COMMITMENTS**

The Parent Company has pledged the shares in its direct subsidiaries as security under the terms and conditions of the senior secured bonds. In addition, the investors receive a first ranking share pledge over the shares of DDM Debt AB and any downstream loans to DDM Debt AB's subsidiaries are pledged to the investors as intercompany loans. Certain bank accounts are also assigned to the bond agent as part of the bond terms.

The Parent Company's pledged collateral in the form of shares held in the subsidiaries amounted to EUR 971k at 31 December 2020 (EUR 971k at 31 December 2019). Bank accounts of the Group totaling EUR 0k, were assigned to the bond agent at 31 December 2020 (EUR 0k at 31 December 2019). In addition, the Parent Company had a bank guarantee of EUR 5k at 31 December 2020 (EUR 5k at 31 December 2019). Neither the DDM Debt Group nor the Parent Company has any other pledged assets, contingent liabilities or other items to report.

The DDM Debt Group has office rental lease contracts in Slovenia and Sweden. From 1 January 2019, the group has recognised right-of-use assets and lease liabilities for these leases, except for short term and low-value leases, see notes 21 and 27 for further information. At 31 December 2020 in Sweden the earliest termination date for the office lease agreement was 31 March 2021, and therefore no right-of-use asset or lease liability has been recognized. At 31 December 2019 in Sweden the earliest termination date for the office lease agreement was 31 March 2020, and therefore no right-of-use asset or lease liability was recognized. The undiscounted cash flows arising from the contractually bound leasing commitments, based on the remaining period to the earliest contractual maturity date as at the balance sheet date, are specified in the table below:

<b>EUR '000s</b>	<b>Less than 1 year</b>	<b>Between 1 and 5 years</b>	<b>Over 5 years</b>	<b>Total</b>
At 31 December 2020	69	–	–	<b>69</b>
At 31 December 2019	55	66	–	<b>121</b>

**NOTE 32. EVENTS AFTER THE BALANCE SHEET DATE**

In February DDM Debt renewed its revolving credit facility of EUR 27m with an international bank for a further two years until March 2023, with the terms of the new RCF materially in line with the previous RCF which was due to mature on 15 March 2021.

## Reconciliation tables, non-IFRS measures

This section includes a reconciliation of certain non-IFRS financial measures to the most directly reconcilable line items in the financial statements. The presentation of non-IFRS financial measures has limitations as analytical tools and should not be considered in isolation or as a substitute for our related financial measures prepared in accordance with IFRS.

Non-IFRS financial measures are presented to enhance an investor's evaluation of ongoing operating results, to aid in forecasting future periods and to facilitate meaningful comparison of results between periods. Management uses these non-IFRS financial measures to, among other things, evaluate ongoing operations in relation to historical results and for internal planning and forecasting purposes.

The non-IFRS financial measures presented in this report may differ from similarly-titled measures used by other companies.

### Net collections:

Net collections is comprised of gross collections from the invested assets held by the DDM Debt Group, minus commission and fees to third parties. The net amount of cash collected is recorded as "Net collections" within the line "Revenue on invested assets" in the consolidated income statement. The DDM Debt Group discloses the alternative performance measure "Net collections" in the notes separately, as it is an important measurement for the DDM Debt Group to monitor the performance of the portfolios and measure the cash available for operating expenses and to service its debt. The DDM Debt Group believes that disclosing net collections as a separate performance measure in the notes improves the transparency and understanding of the DDM Debt Group's financial statements and performance, meeting the expectations of its investors.

### Amortization, revaluation and impairment of invested assets:

The recognition of the acquisition of invested assets is based on the DDM Debt Group's own forecast of future cash flows from acquired portfolios. Reporting follows the effective interest method, where the carrying value of each portfolio corresponds to the present value of all projected future cash flows discounted by an initial effective interest rate determined at the time the portfolio was purchased, based on the relation between cost and the projected future cash flows on the acquisition date. Changes in the carrying value of the portfolios are reported as amortization, revaluation and impairment for the period.

### Operating expenses and Cash EBITDA:

Amounts in EUR '000s	1 Jan – 31 Dec	1 Jan – 31 Dec
	2020	2019
Net collections*	110,200	62,585
Personnel expenses	(695)	(1,187)
Consulting expenses	(9,607)	(9,563)
Other operating expenses	(216)	(347)
Operating expenses	(10,518)	(11,097)
Cash EBITDA	99,682	51,488

\* Net collections includes the gain on sale of invested assets and the incremental net distribution from joint venture. See page 61 Alternative performance measures

### Net debt:

Revolving credit facility	8,971	–
Bond loan, 8%	36,391	49,504
Bond loan, 9.25%	75,303	97,626
Less: Cash and cash equivalents	(30,672)	(11,464)
Net debt	89,993	135,666

## Reconciliation tables, non-IFRS measures, continued

### Equity ratio:

Amounts in EUR '000s	31 December 2020	31 December 2019
Shareholder's equity	21,839	4,342
Shareholder debt (subordinated)	37,586	37,586
Total equity according to the senior secured bond and revolving credit facility terms	59,425	41,928
Total assets	196,963	198,756
Equity ratio	30.2%	21.1%

## Alternative performance measures

### Alternative performance measures – reconciliation to IFRS:

Amounts in EUR '000s	1 Jan – 31 Dec 2020	1 Jan – 31 Dec 2019
<b>Net collections</b>	<b>104,876</b>	<b>54,272</b>
Sale of invested assets	–	4,476
Incremental net distribution from joint venture	5,324	3,837
<b>Adjusted net collections</b>	<b>110,200</b>	<b>62,585</b>
<b>Cash EBITDA</b>	<b>94,358</b>	<b>43,175</b>
Sale of invested assets	–	4,476
Incremental net distribution from joint venture	5,324	3,837
<b>Adjusted cash EBITDA</b>	<b>99,682</b>	<b>51,488</b>
<b>Net profit / (loss) for the year</b>	<b>8,869</b>	<b>(7,287)</b>
Non-recurring items bond refinancing	–	2,631
<b>Adjusted net profit / (loss) for the year</b>	<b>8,869</b>	<b>(4,656)</b>

The financial statements of the DDM Debt Group have been prepared in accordance with International Financial Reporting Standards (IFRS) and interpretations issued by the IFRS Interpretations Committee (IFRS IC) applicable to companies reporting under IFRS. The consolidated financial statements comply with IFRS as adopted by the EU. In addition, the Company presents alternative performance measures (“APMs”).

Adjusted key figures for net collections, cash EBITDA and net profit / (loss) for the year provide a better understanding of the underlying business performance and enhance comparability from year to year, when the effect of items affecting comparability are adjusted for. Items affecting comparability can include one-time costs not affecting the DDM Debt Group’s run rate cost level, significant earnings effects from acquisitions and disposals and incremental net distributions from joint ventures.

These measures do not have any standardized meaning prescribed by IFRS and therefore are unlikely to be comparable to the calculation of similar measures used by other companies. The APMs are regularly reviewed by Management and their aim is to enhance stakeholders’ understanding of the Company’s performance and to enhance comparability between financial years. The APMs are reported in addition to but are not substitutes for the financial statements prepared in accordance with IFRS. The APMs provide a basis to evaluate operating profitability and performance trends, excluding the impact of items which in the opinion of Management, distort the evaluation of the performance of our operations. The APMs also provide measures commonly reported and widely used by investors as an indicator of the Company’s operating performance and as a valuation metric of debt purchasing companies. Furthermore, APMs are also relevant when assessing our ability to incur and service debt. APMs are defined consistently over time and are based on the financial data presented in accordance with IFRS.

## Auditor's report (Translation)

To the general meeting of the shareholders of DDM Debt AB, corporate identity number 559053-6230

---

### Report on the annual accounts and consolidated accounts

#### Opinions

We have audited the annual accounts and consolidated accounts of DDM Debt AB for the year 2020, excluding the sustainability report page 14-20. The annual accounts and consolidated accounts of the company are included on pages 6-70 in this document.

In our opinion, the annual accounts have been prepared in accordance with the Annual Accounts Act and present fairly, in all material respects, the financial position of parent company as of 31 December 2020 and its financial performance and cash flow for the year then ended in accordance with the Annual Accounts Act. The consolidated accounts have been prepared in accordance with the Annual Accounts Act and present fairly, in all material respects, the financial position of the group as of 31 December 2020 and their financial performance and cash flow for the year then ended in accordance with International Financial Reporting Standards (IFRS), as adopted by the EU, and the Annual Accounts Act. The opinion not include the sustainability report page 14-20. The statutory administration report is consistent with the other parts of the annual accounts and consolidated accounts.

We therefore recommend that the general meeting of shareholders adopts the income statement and balance sheet for the parent company and the group.

Our statements in this opinion on the annual accounts and the consolidated accounts are consistent with the content of the supplementary report that has been submitted to the company and the Company's and the Group's Board of Directors in accordance with Article 11 of the Auditors' Ordinance (537/2014).

#### Basis for Opinions

We conducted our audit in accordance with International Standards on Auditing (ISA) and generally accepted auditing standards in Sweden. Our responsibilities under those standards are further described in the *Auditor's Responsibilities* section. We are independent of the parent company and the group in accordance with professional ethics for accountants in Sweden and have otherwise fulfilled our ethical responsibilities in accordance with these requirements. This means that, based on our best knowledge and belief, no prohibited services referred to in Article 5 (1) of the Auditors' Regulation (537/2014) have been provided to the audited company or, where applicable, its parent company or its controlled companies within the EU.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

#### Our audit approach

The focus and scope of the audit DDM Debt AB's ("DDM") purpose is to finance the DDM Group's subsidiaries through issuing bonds in the Swedish market. The DDM Group is an international corporate group investing in and managing matured receivables in the Eastern-, Central- and Southern European markets. We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the consolidated financial statements as a whole, taking into account the structure of the Group, the accounting processes and controls, and the industry in which the group operates.

We designed our audit by determining the materiality and assessing the risks of material misstatement in the consolidated financial statements. In particular, we considered where management made subjective assumptions and considered future events that are inherently uncertain. The area that is inherently uncertain as such is as critical accounting estimates in the valuation of distressed asset portfolios, which have been made based on assumptions and projections about future events. Such forecasts are by nature always uncertain. As in all of our audits, we also

addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the consolidated financial statements as a whole, taking into account the structure of the Group, the accounting processes and controls, and the industry in which the group operates. All of the subsidiaries have been included in our audit.

## **Audit scope**

### ***The focus and scope of the audit***

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the consolidated financial statements as a whole, taking into account the structure of the Group, the accounting processes and controls, and the industry in which the Group operates.

We designed our audit by determining the materiality and assessing the risks of material misstatement in the consolidated financial statements. In particular, we considered where management made subjective assumptions and considered future events that are inherently uncertain. The area that is inherently uncertain as such is as critical accounting estimates in the valuation of distressed asset portfolios, which have been made based on assumptions and projections about future events. Such forecasts are by nature always uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the consolidated financial statements as a whole, taking into account the structure of the Group, the accounting processes and controls, and the industry in which the group operates. All of the subsidiaries have been included in our audit.

### ***Materiality***

The scope of our audit was influenced by our application of materiality. An audit is designed to obtain reasonable assurance whether the financial statements are free from material misstatement. Misstatements may arise due to fraud or error. They are considered material if individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements. Based on our professional judgement, we determined certain quantitative thresholds for materiality, including the overall materiality for the financial statements as a whole. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

## **Key audit matters**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements and consolidated financial statements of the current period. These matters were addressed in the context of our audit of the financial statements and consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

---

<i>Key audit matter</i>	<i>How our audit addressed the key audit matter</i>
<i>Valuation of distressed assets and recognition of revenue on invested assets</i>	Our audit approach included, among others, an assessment of the company's assumptions for the valuation of the distressed assets. This includes mainly the following procedures:
As DDM is a specialized multinational investor and manager of non-performing loans and special situation, the distressed assets are the most significant position in the financial	

---

statements. The distressed assets also represent the ability of the company to generate cash flows and further profits in the coming periods. The distressed assets are considered as a key audit matter due to the size of the balance (EUR 77 Mio, representing 39% of the total assets) as well as considerable judgement with respect to the assumptions about the future cash flow forecasts.

DDM invests in distressed asset portfolios, where the receivables are directly from the debtor. The valuation of these distressed assets is based on the expected future cash flows (ERC, 'Estimated Remaining Collections'). The procedures of the company to determine the ERC is set out in note 5 *Critical estimates and assumptions in applying the company's accounting principles*.

The revenue on invested assets represents the economical profit of the distressed assets for the period, applying the amortized cost method, including also the reassessment of future cash flows. The revenue on invested assets amount to EUR 36 Mio.

The recognition of revenue on invested assets the company discloses in note 3 *Summary of significant accounting policies* and note 6 *Reconciliation of revenue on invested assets and revenue from management fees*

- We checked the initial recognition by reviewing the contractual basis for the initial measurement. We obtained supporting documents from the due diligence process and challenged the management assumptions of the expected future cash flows.
- We verified the calculations of the internal rates of return related to the expected future cash flows and the initial purchase price (underwriting). We also challenged the appropriateness and reasonableness of the assumptions made by the management with market data.
- We performed back-testing analysis to validate that the cause of observed deviations of actual collections from previous forecasts are understood by management, and that forecasts have been appropriately revised in consideration of new knowledge.

Based on our testing of the process and the method as well as the range of valuation we independently performed, we found management's assessment of the accounting of distressed assets appears acceptable.

The collection process is outsourced to local collection agencies, selected by DDM and suitable for the collection of a particular class of asset or performed by own DDM group companies. With a focus on collection, which is a key driver for reassessment of future cash flows and therefore revenue on invested assets, we performed the following procedures:

- We tested the correct accounting treatment regarding recognition of revenue on the invested assets based on the methodology as set out in the notes 3 *Summary of significant accounting policies* and 6 *Reconciliation of revenue on invested assets and revenue from management fees*.
- We performed testing on the control which ensures that the collection reports issued by the collection agencies were agreed between the collection agencies and DDM's collection managers.
- We tested a sample of collections received to validate that collections are correctly recognized.
- We tested on a sample basis that cash settlements were in accordance with collection reports.
- We performed testing of the IT environment. We focused on IT general controls, especially for the asset management system (ITGC and application controls).

Based on our audit procedures, we agree with management's assessment the revenue on invested assets is in line with the Company's accounting policy.

## **Other Information than the annual accounts and consolidated accounts**

This document also contains other information than the annual accounts and consolidated accounts and can be found on pages 1-5 and 14-20. The Board of Directors and the Managing Director are responsible for the other information.

Our opinion on the annual accounts and consolidated accounts does not cover this other information and we do not express any form of assurance conclusion regarding this other information.

In connection with our audit of the annual accounts and consolidated accounts, our responsibility is to read the information identified above and consider whether the information is materially inconsistent with the annual accounts and consolidated accounts. In this procedure we also take into account our knowledge otherwise obtained in the audit and assess whether the information otherwise appears to be materially misstated.

If we, based on the work performed concerning this information, conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## **Responsibilities of the Board of Directors and the Managing Director**

The Board of Directors and the Managing Director are responsible for the preparation of the annual accounts and consolidated accounts and that they give a fair presentation in accordance with the Annual Accounts Act and, concerning the consolidated accounts, in accordance with IFRS as adopted by the EU. The Board of Directors and the Managing Director are also responsible for such internal control as they determine is necessary to enable the preparation of annual accounts and consolidated accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts and consolidated accounts, The Board of Directors and the Managing Director are responsible for the assessment of the company's and the group's ability to continue as a going concern. They disclose, as applicable, matters related to going concern and using the going concern basis of accounting. The going concern basis of accounting is however not applied if the Board of Directors and the Managing Director intends to liquidate the company, to cease operations, or has no realistic alternative but to do so.

## **Auditor's responsibility**

Our objectives are to obtain reasonable assurance about whether the annual accounts and consolidated accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and generally accepted auditing standards in Sweden will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts and consolidated accounts.

A further description of our responsibility for the audit of the annual accounts and consolidated accounts is available on Revisorsinspektionen's website: [www.revisorsinspektionen.se/revisornsansvar](http://www.revisorsinspektionen.se/revisornsansvar). This description is part of the auditor's report.

## **Report on other legal and regulatory requirements**

### **Opinions**

In addition to our audit of the annual accounts and consolidated accounts, we have also audited the administration of the Board of Directors and the Managing Director of DDM Debt AB for the year 2020 and the proposed appropriations of the company's profit or loss.

We recommend to the general meeting of shareholders that the profit be appropriated in accordance with the proposal in the statutory administration report and that the members of the Board of Directors and the Managing Director be discharged from liability for the financial year.

## **Basis for Opinions**

We conducted the audit in accordance with generally accepted auditing standards in Sweden. Our responsibilities under those standards are further described in the *Auditor's Responsibilities* section. We are independent of the parent company and the group in accordance with professional ethics for accountants in Sweden and have otherwise fulfilled our ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

## **Responsibilities of the Board of Directors and the Managing Director**

The Board of Directors is responsible for the proposal for appropriations of the company's profit or loss. At the proposal of a dividend, this includes an assessment of whether the dividend is justifiable considering the requirements which the company's and the group's type of operations, size and risks place on the size of the parent company's and the group's equity, consolidation requirements, liquidity and position in general.

The Board of Directors is responsible for the company's organization and the administration of the company's affairs. This includes among other things continuous assessment of the company's and the group's financial situation and ensuring that the company's organization is designed so that the accounting, management of assets and the company's financial affairs otherwise are controlled in a reassuring manner. The Managing Director shall manage the ongoing administration according to the Board of Directors' guidelines and instructions and among other matters take measures that are necessary to fulfill the company's accounting in accordance with law and handle the management of assets in a reassuring manner.

## **Auditor's responsibility**

Our objective concerning the audit of the administration, and thereby our opinion about discharge from liability, is to obtain audit evidence to assess with a reasonable degree of assurance whether any member of the Board of Directors or the Managing Director in any material respect:

- has undertaken any action or been guilty of any omission which can give rise to liability to the company, or
- in any other way has acted in contravention of the Companies Act, the Annual Accounts Act or the Articles of Association.

Our objective concerning the audit of the proposed appropriations of the company's profit or loss, and thereby our opinion about this, is to assess with reasonable degree of assurance whether the proposal is in accordance with the Companies Act.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with generally accepted auditing standards in Sweden will always detect actions or omissions that can give rise to liability to the company, or that the proposed appropriations of the company's profit or loss are not in accordance with the Companies Act.

A further description of our responsibility for the audit of the administration is available on Revisorsinspektionen's website [www.revisorsinspektionen.se/revisornsansvar](http://www.revisorsinspektionen.se/revisornsansvar). This description is part of the auditor's report.

## **The auditor's opinion regarding the statutory sustainability report**

The Board is responsible for the sustainability report on pages 14–20 and for having prepared it in accordance with the Annual Accounts Act.

Our review has been performed in accordance with FAR's statement RevR 12 Auditor's opinion on the statutory sustainability report. This means that our review of the sustainability report has a different focus and a significantly smaller scope compared with the focus and scope of an audit in accordance with International Standards on Auditing and good auditing practice in Sweden. We believe that this review provides us with a sufficient basis for our statement.

A sustainability report has been prepared.

Öhrlings PricewaterhouseCoopers AB, was appointed DDM Debt AB's (publ) auditor by the 2016 Annual General Meeting and Sussanne Sundvall has been the company's key auditor since 11 September 2019.
