## Comment by the CEO

Collections during the second quarter were slightly above the same period in 2021, whilst our earnings continued to be impacted by market volatility which resulted in a EUR 2.4m mark-to-market loss on the investment in Addiko Bank, partially offset by FX gains of EUR 1.0m.

### Continued market volatility will increase NPL volumes

We expect the market volatility observed during the first half of the year to continue for the remainder of 2022. Given the uncertainties in the macroeconomic environment and the impact of inflation on businesses and the cost of living for consumers, we expect higher default rates and an increase in the volume of NPL portfolios coming to the market. Given this background, we continue to monitor opportunities both in existing markets across the SCEE region and by recently entering new markets by teaming up with strategic partners and co-investors.

### Strategic acquisition in Switzerland

Regarding the planned acquisition of 100% of the share capital of Swiss Bankers Prepaid Services AG (“Swiss Bankers”) the regulatory approval process is ongoing. The DDM Debt Group is currently reviewing the situation and is in dialogue with the stakeholders and selling shareholders of Swiss Bankers. Swiss Bankers is the Swiss market leader in prepaid cards and provides innovative, credit-based payment products and offers solutions in cashless, globally secure payment transactions.

### Acquisition of majority stake in debt servicing and business outsourcing company AxFina

Shortly after the quarter end DDM Debt acquired 50.2% of the share capital of AxFina Holding SA (“AxFina”). AxFina is a pan European debt servicing provider and a key partner for DDM’s loan portfolios. In addition to its core debt servicing solutions, AxFina is also providing business outsourcing services and digital debt management solutions (“Finastic”) to multiple industries. AxFina is active in 7 countries and has c. 180 employees. The DDM Debt Group expects to profit from the intended growth of the service revenues of AxFina, both in (third party) debt servicing as well as in digital solutions, which complement the asset intensive business of the DDM Debt Group. AxFina will also facilitate new market entries for the DDM Debt Group. The seller of the stake in AxFina is DDM Group Finance S.A, with the transaction carried out at an implied valuation for 100% of AxFina of EUR 28m. In addition to the now acquired stake in AxFina, DDM Debt entered into a call option agreement giving it the right to acquire the remaining shares in AxFina held by DDM Group Finance S.A. at the same terms until 31 December 2022. AxFina will remain an independently run company. The acquisition strengthens the DDM Debt Group’s equity story to accelerate into a pan-European investment company around NPLs, Servicing, Consumer Finance and FinTech.

### Equity base

To be prepared to capture the opportunities we expect to come up over the coming quarters, we are also intensifying our efforts to strengthen the equity base of the DDM Group. We are therefore evaluating options to access equity or equity linked capital markets by potentially seeking a listing of DDM Finance AB or another DDM Group entity.

## Financial results

Adjusted gross collections amounted to EUR 15.5m in the second quarter of 2022, EUR 2.0m above the corresponding period last year. After deducting commission and collection fees to third parties this resulted in EUR 13.4m of adjusted net collections being received for the second quarter of 2022.

Operating expenses were EUR 2.6m in the second quarter of 2022, EUR 0.6m higher than Q2 2021. As a result, adjusted cash EBITDA totaled EUR 10.8m in the second quarter of 2022, equating to a high cash conversion ratio of 81% for Q2 2022 as a percentage of adjusted net collections.

The operating profit margin of 52% in the second quarter of 2022 includes EUR 0.3m share of net profits of joint venture under the equity method of accounting. EUR 1.1m of upwards revaluation has been recognized during the second quarter mainly on portfolios in the Czech Republic due to stronger than expected collections.

The net loss for the second quarter of 2022 is EUR 3.6m compared to a loss of EUR 0.2m for the corresponding period in the prior year. This includes a EUR 2.4m mark-to-market loss on the investment in Addiko Bank driven by market volatility. The net result for the quarter benefitted from EUR 1.0m of exchange gains principally due to favorable exchange rate movements of the Swiss Franc to the Euro, offsetting the exchanges losses in the first quarter which resulted from the market volatility caused by the conflict in Ukraine.

## Cash flow and financing

For the second quarter of 2022, cash flow from operating activities before working capital changes was EUR 1.9m, largely in line with Q2 2021. We continue to have a strong cash position of EUR 52.8m at 30 June that is available to fund investments and acquisitions.

## Estimated Remaining Collections

ERC in relation to invested assets at 30 June stands at EUR 283m, 5% below 31 December 2021, as a result of collections that have been received during H1 2022 partially offset by investments acquired. 73% of the collections are expected to be received within the next three years and the composition of the portfolios that are secured is approximately 69% of ERC over the next three years at 30 June 2022.

## Notes

### Note 1. General information

DDM Debt AB (publ) (“DDM Debt” or “the Company”) and its subsidiaries (together “the DDM Debt Group” or “the Group”) are wholly owned subsidiaries of DDM Holding AG (“DDM”), which is a specialized multinational investor in situations arising out of the general strategic challenges in the European banking markets. This includes investments into assets and companies previously held by financial institutions, including performing and non-performing loans and special situations. DDM strives to create value for its stakeholders by combining significant expertise in financial services, credit underwriting and technology with a focus on operational excellence.

The Company was registered on 3 March 2016, and changed from a private limited liability company to a public limited liability company on 26 May 2016. The Company has registered offices in Stockholm, Sweden and its Swedish Corporate ID No. is 559053-6230. The address of the main office and postal address is Strandvägen 7A, 114 56 Stockholm, Sweden. DDM Debt is a wholly owned subsidiary of DDM Finance AB (“DDM Finance”), Stockholm, Sweden, being a wholly owned subsidiary of DDM Group AG, Zug, Switzerland. The indirect ultimate parent company is DDM Group Finance S.A, a Luxembourg registered company owning 95.2% of the shares in DDM Holding AG at 30 June 2022.

DDM Debt acts to directly or indirectly manage, acquire or invest in credits and/or loan portfolios, to on-lend or invest funds in group companies who directly or indirectly manage, acquire or invest in credits and/or loan portfolios and conduct related activities, to incur financing for its business and to conduct related activities. DDM Group AG acts as the investment manager and makes all decisions regarding investments and allocation of resources.

### Note 2. Basis of preparation

This interim report has been prepared in compliance with IAS 34 Interim Financial Reporting and the Swedish Annual Accounts Act. The consolidated financial statements have been prepared in compliance with International Financial Reporting Standards (IFRS) as endorsed by the EU, the Swedish Annual Accounts Act and RFR 1 Supplementary Accounting Rules for Groups issued by RFR, the Swedish Financial Reporting Board. The Parent Company’s financial statements have been prepared in compliance with the Annual Accounts Act (ÅRL 1995:1554) and RFR 2 Accounting for Legal Entities and applicable statements. The instances in which the Parent Company applies accounting principles differing from those of the Group are provided separately at the end of this section on accounting principles.

The accounting policies that are most critical to the Group and Parent Company are stated in DDM Debt AB’s Annual Report for 2021, which also contains a description of the material risks and uncertainties facing the Parent Company and the Group.

In addition to the financial measures defined in IFRS, certain key figures, which qualify as alternative performance measures (APMs) are presented to reflect the underlying business performance and enhance comparability from period to period. These APMs should not be considered as a substitute for measures defined under IFRS. Please refer to page 25 for a reconciliation of alternative performance measures including adjusted gross collections, adjusted net collections, adjusted cash EBITDA and adjusted net loss for the period.

All amounts are reported in thousands of Euros (EUR k), unless stated otherwise. Rounding differences may occur. Figures in tables and comments may be rounded.

#### Subsidiaries

Subsidiaries are all entities (including special purpose entities) over which DDM Debt has control. DDM Debt controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the group and are de-consolidated from the date on which control ceases. Intercompany transactions, balances, and unrealized gains on transactions between group companies are eliminated.

## Note 2. Basis of preparation... continued

### Joint ventures

The Company applies IFRS 11 Joint Arrangements, where the DDM Debt Group, together with one or several parties have joint control over an arrangement in accordance with a shareholder agreement. The DDM Debt Group's joint arrangement with B2Holding where each party holds 50% of the share capital and voting rights of CE Partner S.à r.l. and CE Holding Invest S.C.S (the "Joint Venture") is classified as a joint venture, as the DDM Debt Group is entitled to 50% of the net assets of the Joint Venture rather than having a direct entitlement to assets and responsibility for liabilities. The equity method is applied when accounting for the joint venture. Under the equity method of accounting the investment is recognized at cost and subsequently adjusted to the DDM Debt Group's 50% share of the change in the net assets of the Joint Venture since the acquisition date.

The consolidated income statement includes the DDM Debt Group's share of earnings, and this is reported under Share of net profits / (losses) of joint venture. Dividends received from the joint venture are not recognized in the income statement and instead reduce the carrying value of the investment. The equity method is applied from the date joint control arises until the time it ceases, or if the joint venture becomes a subsidiary. Upon loss of joint control over the joint venture, and as such the equity method ceases, the Company measures and recognizes any difference between the carrying amount of the investment in the joint venture with the fair value of the remaining investment and/or proceeds from disposal which is recognized as gain or loss directly in the income statement. The financial statements of the Joint Venture are prepared for the same reporting period as the Company.

Joint Ventures	Consolidation method	Domicile	30 June 2022	31 December 2021
CE Partner S.à r.l.	Equity method	Luxembourg	50%	50%
CE Holding Invest S.C.S	Equity method	Luxembourg	50%	50%

### Associates

Associates are all entities over which DDM Debt has significant influence but not control or joint control. This is generally the case where the group holds between 20% and 50% of the voting rights. Interests in associates are accounted for using the equity method. The carrying amount (including goodwill) of equity accounted investments is tested annually for impairment.

### Financial assets at fair value

Equity-traded instruments and other investments that do not meet the criteria under IFRS 9 of cash flows consisting solely of payments of principle and interest (SPPI) and Hold to collect for being measured at amortised cost nor elected at FVTOCI are measured at fair value through profit or loss (FVTPL).

Financial assets held at FVTPL are initially recognised and subsequently measured at fair value at the end of each reporting period, with any fair value gains or losses recognised through financial income or expenses respectively in the consolidated income statement. Dividends or any interest earned on the financial assets are included within interest income.

During 2021, the DDM Debt Group acquired a 5% stake in Borgosesia S.p.A. ("Borgosesia"), an Italian investment platform specialized in secured non-performing loans and special situations measured at a closing share price of EUR 0.66/share at 30 June 2022 (31 March 2022: EUR 0.73/share, 31 December 2021: EUR 0.62/share), which resulted in a fair value loss of EUR 0.2m being recognized through financial income in the consolidated income statement during Q2 2022 and a fair value gain of EUR 0.1m in H1 2022. The investment in Addiko Bank AG was reclassified from investment in associates in the prior year and measured at a closing share price of EUR 10.65/share at 30 June 2022 (31 March 2022: EUR 11.90/share, 31 December 2021: EUR 13.65/share), which resulted in a fair value loss of EUR 2.4m being recognized through financial expenses in the consolidated income statement during Q2 2022 and a fair value loss of EUR 5.8m in H1 2022. During 2021, the DDM Debt Group also invested into a total of EUR 15.8m of pre-IPO convertible bonds in Omnione S.A ("Omnio"), a leading innovator in Banking-as-a-Service measured at cost within financial assets at fair value level 3, which are due to mature in accordance with the terms of the pre-IPO convertible bonds on 31 December 2024 accruing at an annual rate of 2% cash interest and 6% Payment-in-Kind ("PIK"), including convertibility rights into ordinary shares of Omnio. In addition, EUR 7.9m was invested in Omnio during 2021 and EUR 5.4m during H1 2022 which is expected to be received by 31 December 2024 in line with the maturity of the pre-IPO convertible bonds accruing at an annual rate of 15% PIK. During H1 2022, the DDM Debt Group also invested EUR 4.5m into a special purpose acquisition company that is located in Sweden.

## Note 3. Currency translation

All entities prepare their financial statements in their functional currency. At 30 June 2022 all fully consolidated group entities have EUR as their functional currency, except for DDM Debt Management d.o.o Beograd, which has Serbian Dinar (RSD) as its functional currency, DDM Debt Romania S.R.L, which has Romanian leu (RON) as its functional currency and DDM REO Adria d.o.o. which has Croatia Kuna (HRK) as its functional currency.

#### Note 4. Revenue on invested assets by region

Revenue on invested assets is the net amount of the cash collections (net of direct collection costs), amortization, revaluation and impairment of invested assets. Revenue from management fees related to revenue received from third parties where the DDM Debt Group managed the operations of these assets but did not own 100% of the portfolio.

Gross collections are comprised of cash collections from the distressed asset portfolios held by the DDM Debt Group, before commission and fees to third parties. The gross amount of cash collected is recorded as "Gross collections" within the line "Interest income on invested assets" in the consolidated income statement. The DDM Debt Group discloses the alternative performance measure "Gross collections" in the notes separately, as it is a common measure to monitor the performance of portfolios in the debt purchasing industry.

Net collections is comprised of gross collections from the distressed asset portfolios held by the DDM Debt Group, minus commission and fees to third parties. The net amount of cash collected is recorded as "Net collections" within the line "Interest income on invested assets" in the consolidated income statement. The DDM Debt Group discloses the alternative performance measure "Net collections" in the notes separately, as it is an important measurement for the DDM Debt Group to monitor the performance of the portfolios and measure the cash available for operating expenses and to service its debt. The DDM Debt Group believes that disclosing net collections as a separate performance measure in the notes improves the transparency and understanding of the DDM Debt Group's financial statements and performance, meeting the expectations of its investors.

The chief operating decision maker of DDM reviews the financial outcome as a whole. Analysis is performed on a portfolio-by-portfolio basis, but the chief operating decision maker reviews the outcome of the group as a whole. Each portfolio is not considered to be an identifiable segment and the Group reports segment on an entity basis, i.e. one operating segment. The Group discloses information regarding net collections based on its key geographic areas.

#### Interest income

During 2021, the DDM Debt Group invested into a total of EUR 15.8m of pre-IPO convertible bonds in Omnione S.A ("Omnio"), a leading innovator in Banking-as-a-Service measured at cost within financial assets at fair value level 3, which are due to mature in accordance with the terms of the pre-IPO convertible bonds on 31 December 2024 accruing at an annual rate of 2% cash interest and 6% Payment-in-Kind ("PIK"), including convertibility rights into ordinary shares of Omnio. In addition, EUR 7.9m was invested in Omnio during 2021 which is expected to be received by 31 December 2024 in line with the maturity of the pre-IPO convertible bonds accruing at an annual rate of 15% PIK. Interest income from Omnio to the DDM Debt Group amounted to EUR 0.8m (Q2 2021: EUR nil, H1 2021: EUR nil, FY 2021: 1.0m) which has been recognized in interest income during Q2 2022 (H1 2022: EUR 1.4m).

#### Share of net profits of associate and joint venture

The results for the period up to 17 December 2021 include EUR 1.4m of share of net profits of the associate in the income statement and EUR 0.3m of share of other comprehensive income of associates accounted for using the equity method in other comprehensive income. On 17 December 2021, the investment in Addiko Bank was reclassified from investment in associates to financial assets at fair value and measured at a closing share price of EUR 13.65/share on 31 December 2021.

The results for Q2 and H1 2022 include EUR 0.3m and EUR 2.8m (Q2 2021: EUR 0.4m, H1 2021 EUR 0.6m and FY 2021: EUR 2.3m) from share of net profits of joint venture accounted for using the equity method in accordance with IFRS.

## Note 5. Tangible assets

Tangible assets are stated at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset as appropriate only when it is probable that future economic benefits associated with the item will flow to the DDM Debt Group and the cost can be measured reliably. Repairs and maintenance costs are charged to the income statement during the period in which they are incurred.

The major categories of tangible assets are depreciated on a straight-line basis as follows:

Furniture	5 years
Computer hardware	5 years

The DDM Debt Group distributes the amount initially recognized for a tangible asset between its significant components and depreciates each component separately. The carrying amount of a replaced component is derecognized when replaced. The residual value method of amortization and the useful lives of the assets are reviewed annually and adjusted if appropriate. Impairment and gains and losses on disposals of tangible assets are included in other operating expenses.

## Note 6. Distressed asset portfolios

The DDM Debt Group invests in distressed asset portfolios, where the receivables are directly against the debtor. The recognition of the acquisition of distressed asset portfolios is based on the DDM Debt Group's own forecast of future cash flows from acquired portfolios. Distressed asset portfolios consist mainly of portfolios of non-performing debts purchased at prices significantly below their principal value. Such assets are classified as non-current assets. Reporting follows the effective interest method, where the carrying value of each portfolio corresponds to the present value of all projected future cash flows discounted by an initial effective interest rate determined on the date the portfolio was acquired, based on the relation between purchase price and the projected future cash flows on the acquisition date. Changes in the carrying value of the portfolios are reported as amortization, revaluation and impairment for the period.

If the fair value of the investment at the acquisition date exceeds the purchase price, the difference results in a "gain on bargain purchase" in the income statement within the line "interest income on invested assets". The gain on bargain purchase relates to the fair value measurement of the investment (purchase price allocation).

The acquisition method of accounting is used to account for all business combinations, the excess of the consideration transferred for the acquisition over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognized directly in profit or loss as a bargain purchase within the line "other operating income".

Distressed asset portfolios are reported at amortized cost using the effective interest method. The initial effective interest rate is calculated for each portfolio based on its purchase price including transaction costs and estimated cash flows that, based on a probability assessment, are expected to be received from the debtors of the corresponding portfolio net of collection costs. Current cash flow projections are monitored over the course of the year and updated based on, among other things, achieved collection results and macroeconomic information. These scenarios are probability weighted according to their likely occurrence. The scenarios include a central scenario, based on the current economic environment, and upside and downside scenarios. The estimation and application of this forward- looking information requires significant judgement and is subject to appropriate internal governance and scrutiny. If the cash flow projections are revised, the carrying amount is adjusted to reflect actual and revised estimated cash flows. The DDM Debt Group recalculates the carrying amount by computing the present value of estimated future cash flows using the original effective interest rate. Changes in cash flow forecasts are treated symmetrically i.e. both increases and decreases in forecast cash flows affect the portfolios' book value and as a result "Revenue on invested assets". If there is objective evidence that one or more events have taken place that will have a positive impact on the timing or amount of future cash flows, or a negative impact on the timing of future cash flows then this is recorded within the line "Revaluation of invested assets".

The DDM Debt Group assesses at each reporting date whether there is objective evidence that a portfolio is impaired. A portfolio is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the portfolio that can be reliably estimated. This is recorded within the line "Impairment of invested assets".

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the reversal of the previously recognized impairment loss is recognized in the consolidated income statement (within the line "Impairment of invested assets").

If the DDM Debt Group sells a portfolio for a higher or lower amount than its carrying value, the resulting gain or loss on disposal is recognized in the consolidated income statement within the line "Interest income on invested assets".

### Note 6. Distressed asset portfolios... continued

The carrying values of distressed asset portfolios owned by the DDM Debt Group are distributed by currency as follows:

EUR '000s	30 June 2022	31 December 2021
HRK	46,809	51,179
EUR	9,691	9,155
HUF	5,864	7,309

RSD	1,627	1,591
CZK	1,226	284
<b>Total</b>	<b>74,674</b>	<b>80,578</b>

DDM considers there to be no material differences between the financial asset values in the consolidated balance sheet and their fair value.

### Note 7. Investment in joint venture

On 31 May 2019, the DDM Debt Group acquired a distressed asset portfolio containing secured corporate receivables in Croatia through a 50/50 joint venture with B2Holding. As part of the co-investment structure with B2Holding, the DDM Debt Group became 50% owner of the share capital and voting rights of CE Partner S.à r.l. and CE Holding Invest S.C.S. (the "Joint Venture") registered in Luxembourg.

The investment is accounted for using the equity method in accordance with IFRS 11 Joint Arrangements and has changed as follows during the period:

Investment in joint venture EUR '000s	30 June 2022	31 December 2021
Balance at beginning of the period	31,819	25,691
Additions	–	8,521
Share of net profits of joint venture	2,820	2,258
Incremental net distribution from the joint venture	(4,016)	(4,651)
<b>Balance at end of the period</b>	<b>30,623</b>	<b>31,819</b>

Cash distributions of EUR 3.2m (FY 2021: EUR 5.6m) have been received from the joint venture during H1 2022, of which EUR 1.1m relates to 2021 and EUR 2.1m relates to 2022. A further EUR 1.9m (31 December 2021: EUR 1.1m) has been reclassified to accounts receivable at the end of the period.

### Note 8. Investment in associates

On 9 March 2020, the DDM Debt Group acquired a 9.9% shareholding in Addiko Bank for a cash consideration totalling approximately EUR 30m.

Following the acquisition of a 9.9% stake in Addiko Bank that closed during March 2020, the results for the period up to 17 December 2021 include EUR 1.4m of share of net profits of the associate in the income statement and EUR 0.3m of share of other comprehensive income of associates accounted for using the equity method in other comprehensive income. The DDM Debt Group received a capital dividend amounting to EUR 0.7m on 4 May 2021 and a further EUR 3.9m capital dividend on 11 November 2021 from Addiko Bank.

The investment was previously accounted for using the equity method in accordance with IAS 28 Associates and has changed as follows during the period:

Investment in associates EUR '000s	30 June 2022	31 December 2021
Balance at beginning of the period	–	32,986
Additions	–	–
Share of net profits in the income statement	–	1,373

Fair value loss recognized in the income statement	–	(3,699)
Reclassification to financial assets at fair value	–	(26,351)
<b>Balance at end of the period</b>	<b>–</b>	<b>–</b>

In January 2021, a non-binding agreement and commitment to acquire a further 10.1% shareholding in Addiko Bank was signed, however this was not pursued and DDM did not increase its shareholding above the existing 9.9% held. DDM is no longer pursuing the plan to increase its shareholding in Addiko Bank following the agreement that was announced on 17 December 2021 to acquire 100% of the share capital of Swiss Bankers. At 31 December 2021, the DDM Debt Group had an effective influence below the required 20% and therefore DDM reached the conclusion that it was no longer presumed to be able to exert

#### Note 8. Investment in associates... continued

significant influence over Addiko Bank and therefore the investment in Addiko Bank was reclassified to a financial asset at fair value. This resulted in a EUR 3.7m fair value loss recognized within financial expenses in the income statement measured at a closing share price of EUR 13.65/share on 31 December 2021, partially offset by EUR 3.0m of other comprehensive income being recycled to the income statement.

#### Note 9. Financial assets at fair value

Equity-traded instruments and other investments that do not meet the criteria under IFRS 9 of cash flows consisting solely of payments of principle and interest (SPPI) and Hold to collect for being measured at amortised cost nor elected at FVTOCI are measured at fair value through profit or loss (FVTPL).

Financial assets held at FVTPL are initially recognised and subsequently measured at fair value at the end of each reporting period, with any fair value gains or losses recognised through financial income or expenses respectively in the consolidated income statement. Dividends or any interest earned on the financial assets are included within interest income.

During 2021, the DDM Debt Group acquired a 5% stake in Borgosesia S.p.A. ("Borgosesia"), an Italian investment platform specialized in secured non-performing loans and special situations measured at a closing share price of EUR 0.66/share at 30 June 2022 (31 March 2022: EUR 0.73/share, 31 December 2021: EUR 0.62/share), which resulted in a fair value loss of EUR 0.2m being recognized through financial income in the consolidated income statement during Q2 2022 and a fair value gain of EUR 0.1m in H1 2022. The investment in Addiko Bank AG was reclassified from investment in associates in the prior year and measured at a closing share price of EUR 10.65/share at 30 June 2022 (31 March 2022: EUR 11.90/share, 31 December 2021: EUR 13.65/share), which resulted in a fair value loss of EUR 2.4m being recognized through financial expenses in the consolidated income statement during Q2 2022 and a fair value loss of EUR 5.8m in H1 2022. During 2021, the DDM Debt Group also invested into a total of EUR 15.8m of pre-IPO convertible bonds in Omnione S.A ("Omnio"), a leading innovator in Banking-as-a-Service measured at cost within financial assets at fair value level 3, which are due to mature in accordance with the terms of the pre-IPO convertible bonds on 31 December 2024 accruing at an annual rate of 2% cash interest and 6% Payment-in-Kind ("PIK"), including convertibility rights into ordinary shares of Omnio. In addition, EUR 7.9m was invested in Omnio during 2021 and EUR 5.4m during H1 2022 which is expected to be received by 31 December 2024 in line with the maturity of the pre-IPO convertible bonds accruing at an annual rate of 15% PIK. During H1 2022, the DDM Debt Group also invested EUR 4.5m into a special purpose acquisition company that is located in Sweden.

#### Note 10. Loans and borrowings

The Group had the following borrowings outstanding during the periods ending 30 June 2022 and/or 31 December 2021:

##### Bond loan EUR 200m

On 19 April 2021, DDM Debt issued EUR 150m of senior secured fixed rate bonds at 9% within a total framework amount of EUR 300m. The bonds with ISIN number SE0015797683 have a final maturity date of 19 April 2026 and are listed on the Corporate Bond list at Nasdaq Stockholm. The proceeds from the new bond issue were mainly employed towards refinancing the existing EUR 100m and EUR 33.5m bonds (of which EUR 23m of the EUR 100m bonds were already held by DDM Debt) and for investments and acquisitions.

On 21 September 2021, DDM Debt successfully completed a EUR 50M tap issue under the EUR 300M senior secured bond framework. The bond tap issue was placed at a price of 102.0%. Following the tap issue the total outstanding nominal amount of the company's bond loan is EUR 200 million.

DDM Debt's financial instruments contain a number of financial covenants, including limits on certain financial indicators. The financial covenants according to the terms and conditions of the senior secured bonds are: an equity ratio of at least 20.00% and net interest bearing debt to ERC below 75.00%. The financial covenants must be complied with on an incurrence test basis. DDM's management carefully monitors these key financial indicators, so that it can quickly take measures if there is a risk that one or more limits may be exceeded.

DDM Debt has pledged the shares in its material wholly-owned subsidiaries as security under the terms and conditions. DDM Finance AB is a guarantor of the bonds. In addition, the investors receive a first ranking share pledge over the shares of DDM Debt. The terms and conditions of DDM Debt's senior secured bonds contain a number of restrictions, including relating to distributions, the nature of the business, financial indebtedness, disposals of assets, dealings with related parties, negative pledges, new market loans, mergers and demergers and local credits. The terms and conditions of the senior secured bonds are available in their entirety on our website.

### Bond loan EUR 100m and Bond loan EUR 50m (EUR 33.5m at redemption date)

On 6 May 2021, DDM Debt redeemed in advance its EUR 100m senior secured bonds with ISIN SE0012454940 and its EUR 33.5m senior secured bonds with ISIN number SE0010636746, in accordance with the terms and conditions of the bonds. The bonds were redeemed each at the applicable call option (being 101.85 per cent. and 103.0 per cent. of the outstanding nominal amount for the EUR 100m bonds and EUR 33.5m bonds respectively) totaling EUR 3.0m paid, of which EUR 2.4m was expensed to the income statement and EUR 0.6m capitalized as part of the new bond issuance, plus accrued but unpaid interest. In addition, the remaining capitalized transaction costs of approximately EUR 1.5m were expensed to the income statement as a non-cash write off in relation to the existing bonds. At the redemption date DDM Debt held EUR 23m of the EUR 100m senior secured bonds following bond buybacks.

- Level 1 – Quoted prices on active markets for identical assets or liabilities.
- Level 2 – Inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (such as prices) or indirectly (such as derived from prices). The fair value of the bond loans is calculated based on the bid price for a trade occurring close to the balance sheet date.
- Level 3 – Inputs for the asset or liability that are not based on observable market data (that is unobservable inputs).

## Note 12. Related parties

In 2019 DDM Group Finance S.A. entered into an agreement with the DDM Debt Group where DDM Group Finance S.A. provides services under a brokerage contract. In relation to this agreement an amount of EUR 2.4m of brokerage fees were capitalized as part of the bond refinancing during 2021, resulting in EUR 0.2m (H1 2021: EUR 0.1m and FY 2021: EUR 0.3m) of amortized transaction costs that were recognized within financial expenses during H1 2022. In relation to the full year 2020 EUR 1.1m of brokerage fees were capitalized as transaction costs as part of the strategic investment in Addiko Bank. In relation to the full year 2019 an amount of EUR 1.3m of brokerage fees was capitalized as transaction costs as part of the bond refinancing during Q2 2019, resulting in EUR nil (Q2 2021: EUR 0.5m, H1 2021: 0.6m) of amortized transaction costs that were recognized within financial expenses during Q2 and H1 2022.

During 2020, AxFina entered into an agreement with the DDM Debt Group where AxFina provides debt collection services under a servicing contract. In relation to this agreement EUR 0.8m and EUR 1.6m (Q2 2021: EUR 0.3m, H1 2021: EUR 0.8m, FY 2021: EUR 2.1m) was expensed and recognized principally within collection and commission expenses in Q2 and H1 2022 respectively.

During 2020 the DDM Debt Group restructured its investment in the Greek NPL transaction which resulted in accelerated collections of EUR 59.8m being received in H2 2020 and the entire carrying value remaining of EUR 43.8m prior to the restructuring was recognized as amortization. The DDM Debt Group assessed the transaction and concluded that it retains the same contractual rights to future cashflows in the distressed asset portfolio as prior to the restructuring and therefore has not derecognized the asset under IFRS 9 amortized cost. In Q1 2022 the DDM Debt Group released EUR 0.5m (31 December 2021: EUR 1.6m) of accrued expenses and deferred income recognized during 2020 following the restructured investment in the Greek NPL transaction, of which EUR 0.5m (Q2 2021: nil, FY 2021: 1.0m) was recognized to net collections, EUR nil (Q2 2021: nil, FY 2021: 0.4m) netted against prepaid expenses and accrued income and EUR nil (Q2 2021: nil, FY 2021: EUR 0.2m) was paid during the period.

Transactions between the DDM Debt Group companies (fully consolidated) and Artemis Finance Holding (and its subsidiaries) were as follows:

#### **Note 12. Related parties... continued**

During 2021, the DDM Debt Group invested into a total of EUR 15.8m of pre-IPO convertible bonds in Omnio S.A (“Omnio”), a leading innovator in Banking-as-a-Service measured at cost within financial assets at fair value level 3, which are due to mature in accordance with the terms of the pre-IPO convertible bonds on 31 December 2024 accruing at an annual rate of 2% cash interest and 6% Payment-in-Kind (“PIK”), including convertibility rights into ordinary shares of Omnio. In addition, EUR 7.9m was invested in Omnio during 2021 which is expected to be received by 31 December 2024 in line with the maturity of the pre-IPO convertible bonds accruing at an annual rate of 15% PIK. Interest income from Omnio to DDM amounted to EUR 0.8m and EUR 1.4m (Q2 2021: EUR nil, H1 2021: EUR nil, FY 2021: 1.0m) which has been recognized in interest income during Q2 and H1 2022 respectively.

Other non-current assets at 30 June 2022 includes EUR 2.0m receivable from AxFina Holding S.A. (“AxFina”) mainly relating to the sale of 82% of the shares held in AxFina Austria GmbH during the full year 2019, as well as other long-term receivable balances.

#### **Note 13. Subsequent events**

DDM Debt announced on 6 July 2022 that it is acquiring 50.2% of the share capital of AxFina Holding SA, a pan European debt servicing provider and a key partner for the DDM Debt Group’s loan portfolios. The DDM Debt Group expects to profit from the intended growth of the service revenues of AxFina, both in (third party) debt servicing as well as in digital solutions, which complement the asset intensive business of the DDM Debt Group. AxFina will also facilitate new market entries for the DDM Debt Group. The seller of the stake in AxFina is DDM Group Finance S.A, with the transaction carried out at an implied valuation for 100% of AxFina of EUR 28m. In addition to the now acquired stake in AxFina, DDM Debt entered into a call option agreement giving it the right to acquire the remaining shares in AxFina held by DDM Group Finance S.A. at the same terms until 31 December 2022.

# Definitions

## **DDM**

DDM Holding AG and its subsidiaries, including DDM Debt AB (publ) and its subsidiaries.

---

## **Amortization of invested assets**

The carrying value of invested assets are amortized over time according to the effective interest rate method.

## **Cash EBITDA**

Net collections less operating expenses.

## **EBITDA**

Earnings before interest, taxes, depreciation of fixed assets and amortization of intangible assets as well as amortization, revaluation and impairment of invested assets.

## **Estimated Remaining Collections / ERC**

ERC means the sum of future, undiscounted projected cash collections before commission and fees from acquired portfolios and future reasonably expected dividends, distributions or other payments from investments, in each case for the next following 120 months, either directly or as a result of any rights to collect or any rights to participate in amounts generated from portfolios or investments.

This includes the Group's share of proceeds on all portfolios purchased or other investments made, however adjusted for any profit-sharing arrangements entered into by any member of the Group and where available the market value of any portfolio acquired or investment made.

ERC is not a balance sheet item, however it is provided for informational purposes as a common measure in the debt purchasing industry. ERC may be calculated differently by other companies and may not be comparable.

## **Equity**

Shareholders' equity at the end of the period.

## **GCV**

Gross collection value is the face (nominal) value of the portfolio.

## **Impairment of invested assets**

Invested assets are reviewed at each reporting date and impaired if there is objective evidence that one or more events have taken place that will have a negative impact on the amount of future cash flows.

## **Invested assets**

DDM's invested assets consist of purchases of distressed asset portfolios, investments in joint ventures and associates and financial assets at fair value.

## **Net collections**

Gross collections from Portfolios held by the Group less commission and collection fees to third parties (but if such Portfolios are partly owned, only taking into consideration such Group Company's pro rata share of the gross collections and commission and fees).

## **Net debt**

Long-term and short-term third party loans, interest-bearing intercompany loans (excluding subordinated debt) and liabilities to credit institutions (bank overdrafts) less cash and cash equivalents.

## **Non-recurring items**

One-time costs not affecting the Company's run rate cost level.

## **Operating expenses**

Personnel, consulting and other operating expenses.

## **Revaluation of invested assets**

Invested assets are reviewed at each reporting date and revalued if there is objective evidence that one or more events have taken place that will have a positive impact on the timing or amount of future cash flows, or a negative impact on the timing of future cash flows.

## Reconciliation tables, non-IFRS measures

This section includes a reconciliation of certain non-IFRS financial measures to the most directly reconcilable line items in the financial statements. The presentation of non-IFRS financial measures has limitations as analytical tools and should not be considered in isolation or as a substitute for our related financial measures prepared in accordance with IFRS.

Non-IFRS financial measures are presented to enhance an investor's evaluation of ongoing operating results, to aid in forecasting future periods and to facilitate meaningful comparison of results between periods. Management uses these non-IFRS financial measures to, among other things, evaluate ongoing operations in relation to historical results and for internal planning and forecasting purposes.

The non-IFRS financial measures presented in this report may differ from similarly-titled measures used by other companies.

### Net collections:

Net collections is comprised of gross collections from the invested assets held and/or sold by the DDM Debt Group, minus commission and fees to third parties. The net amount of cash collected is recorded as "Net collections" within the line "Interest income on invested assets" in the consolidated income statement. The DDM Debt Group discloses the alternative performance measure "Net collections" in the notes separately, as it is an important measurement for the DDM Debt Group to monitor the performance of the portfolios and measure the cash available for operating expenses and to service its debt. The DDM Debt Group believes that disclosing net collections as a separate performance measure in the notes improves the transparency and understanding of the DDM Debt Group's financial statements and performance, meeting the expectations of its investors.

### Amortization, revaluation and impairment of invested assets:

The recognition of the acquisition of invested assets is based on the DDM Group's own forecast of future cash flows from acquired portfolios. Reporting follows the effective interest method, where the carrying value of each portfolio corresponds to the present value of all projected future cash flows discounted by an initial effective interest rate determined at the time the portfolio was purchased, based on the relation between cost and the projected future cash flows on the acquisition date. Changes in the carrying value of the portfolios are reported as amortization, revaluation and impairment for the period.

The financial statements of the Group have been prepared in accordance with IAS 34 Interim Financial Reporting. In addition, the Group presents alternative performance measures (“APMs”). Adjusted key figures for gross collections, net collections, cash EBITDA and net loss for the period provide a better understanding of the underlying business performance and enhance comparability from period to period, when the effect of items affecting comparability are adjusted for. Items affecting comparability can include one-time costs not affecting the Group’s run rate cost level, significant earnings effects from acquisitions and disposals of invested assets, incremental distributions from associates and joint ventures and distributions from financial assets at fair value.

These measures do not have any standardized meaning prescribed by IFRS and therefore are unlikely to be comparable to the calculation of similar measures used by other companies. The APMs are regularly reviewed by Management and their aim is to enhance stakeholders’ understanding of the Group’s performance and to enhance comparability between financial periods. The APMs are reported in addition to but are not substitutes for the financial statements prepared in accordance with IFRS. The APMs provide a basis to evaluate operating profitability and performance trends, excluding the impact of items which in the opinion of Management distort the evaluation of the performance of our operations.

The APMs also provide measures commonly reported and widely used by investors as an indicator of the Group’s operating performance and as a valuation metric of debt purchasing companies. Furthermore, APMs are also relevant when assessing our ability to incur and service debt. APMs are defined consistently over time and are based on the financial data presented in accordance with IFRS.
