## Comment by the CEO

We ended the quarter with a strong cash position of EUR 57.8m which provides flexibility in a market where we see an increasing amount of interesting investment opportunities in assets, loans and financial services businesses. This provides optionality, particularly in combination with adjusted gross collections ahead of expectations in the first quarter of 2023 despite the challenging macroeconomic environment and geopolitical uncertainties, which shows the resilience of our underlying NPL portfolio, especially in Croatia and Slovenia. However, if the NPL markets continue to remain challenging (from supply and pricing levels) in our core markets, it will allow us to focus on our other investments in financial services.

In January and February 2023, as part of a wider fund raising of Omnione S.A., DDM converted a total amount of EUR 33m of convertible bonds and existing investments into shares of Omnione S.A. "Omnio", a global BaaS technology partner for companies looking to offer its customers financial services.

In February 2023 we entered into a super senior lending facility of EUR 4.5m with a Swedish bank, which further strengthened our liquidity profile. Further optimizing our financing structure will be a key focus area for DDM in 2023.

We have continued to work on further improvements to the DDM platform and set-up in 2023. At the beginning of April we acquired an additional 25% of the debt servicing and business outsourcing company AxFina, bringing our total holding to about 75%. DDM expects to profit from the intended growth of the service revenues of AxFina, both in (third party) debt servicing as well as in digital solutions, which complement the asset intensive business of DDM.

In April Nordiska Kreditmarknadsaktiebolaget (publ) ("Nordiska") informed us that they were aborting the process regarding a combination of Nordiska with Swiss Bankers and Omnio. We worked on these transactions jointly with Nordiska for eight months and, after having obtained legal advice, the board of DDM considers Nordiska's unilateral decision to abandon the transactions and related actions by Nordiska as a violation of Nordiska's obligations under the agreements between the parties. DDM therefore reserves all contractual, legal, and other rights, including its right to claim damages that may result from Nordiska's actions.

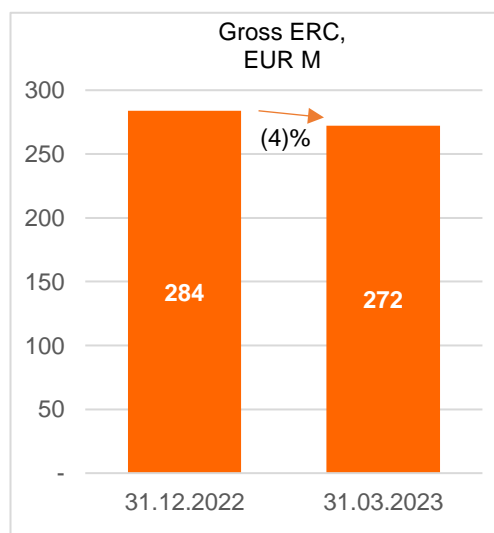

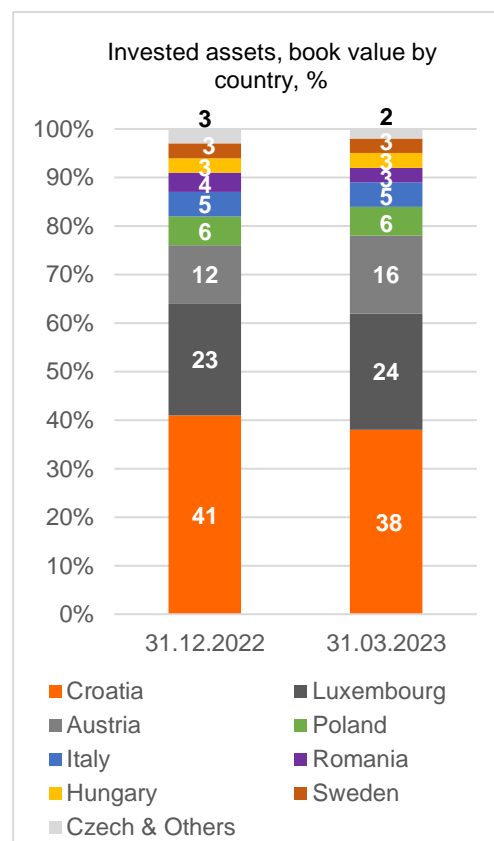

### Outlook

As borrowers across Europe are faced with the challenges from rising interest rates and an increasingly uncertain macroeconomic environment, banks and other holders of credit exposures will again take a more proactive approach to managing their NPL portfolios. We therefore expect the NPL investment market to become more attractive again in the course of 2023. We will continue to be disciplined in the sourcing of new business and monitor investment opportunities across our region on an opportunistic basis.

### Financial results

Adjusted gross collections (which include the incremental gross distribution from associates and joint ventures) amounted to EUR 10.2m in the first quarter of 2023, EUR 5.8m below the corresponding period last year. After deducting commission and collection fees to third parties this resulted in EUR 8.2m of adjusted net collections being received for the first quarter of 2023.

Operating expenses were EUR 4.5m in Q1 2023, increasing from EUR 1.5m in Q1 2022 following the acquisition of AxFina at the beginning of Q3 2022. As a result, adjusted cash EBITDA totaled EUR 3.9m in the first quarter of 2023.

The operating result includes EUR 0.8m share of net losses of associate and joint venture under the equity method of accounting.

The net result for the quarter benefitted from a EUR 3.6m fair value gain recognized within financial income in the income statement relating to the investment in Addiko Bank, due to an increase in the share price during the first quarter.

### Cash flow and financing

For the first quarter of 2023, cash flow from operating activities before working capital changes was EUR 3.2m compared to EUR 10.7m in Q1 2022, driven by the lower operating result. We continue to have a strong cash position of EUR 57.8m at 31 March that is available to fund investments and acquisitions.

### Estimated Remaining Collections

ERC in relation to invested assets at 31 March stands at EUR 272m, EUR 12m below 31 December 2022, as a result of collections that have been received during the first quarter of 2023. About 69% of the collections are expected to be received within the next three years.

## Notes

### Note 1. Basis of preparation

These consolidated financial statements (the “financial statements”) of DDM Holding AG and its subsidiaries (together “DDM” or “the Company”) have been prepared in accordance with IAS 34 Interim Financial Reporting, are unaudited, and should be read in conjunction with DDM’s last annual consolidated financial statements as of and for the year ended 31 December 2022. DDM’s principal accounting policies are set out in Note 3 to the consolidated financial statements in the Annual Report 2022 and conform with International Financial Reporting Standards (IFRS). The ultimate parent company is DDM Group Finance S.A, a Luxembourg registered company owning 95.2% of the shares in DDM Holding AG at 31 March 2023.

In addition to the financial measures defined in IFRS, certain key figures, which qualify as alternative performance measures (APMs) are presented to reflect the underlying business performance and enhance comparability from period to period. These APMs should not be considered as a substitute for measures defined under IFRS. Please refer to page 21 for a reconciliation of alternative performance measures including adjusted gross collections, adjusted net collections and adjusted cash EBITDA for the period.

All amounts are reported in thousands of Euros (EUR k), unless stated otherwise. Rounding differences may occur.

#### Subsidiaries

Subsidiaries are all entities (including special purpose entities) over which DDM Holding AG has control. DDM Holding AG controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group and are de-consolidated from the date on which control ceases. Intercompany transactions, balances, and unrealized gains on transactions between group companies are eliminated.

AxFina d.o.o.	Fully consolidated	Slovenia	50.2%	50.2%
Report S.A.	Fully consolidated	Poland	50.2%	50.2%

DDM acquired 50.2% of AxFina Holding S.A and its subsidiaries (together “AxFina”) in July 2022. The seller of the stake in AxFina was DDM Group Finance S.A. The transaction was done at an implied valuation for 100% of AxFina of EUR 28m.

#### Joint ventures

The Company applies IFRS 11 Joint Arrangements, where DDM, together with one or several parties have joint control over an arrangement in accordance with a shareholder agreement. DDM’s joint arrangement with B2Holding where each party holds 50% of the share capital and voting rights of CE Partner S.à r.l. and CE Holding Invest S.C.S (the “Joint Venture”) is classified as a joint venture, as DDM is entitled to 50% of the net assets of the Joint Venture rather than having a direct entitlement to assets and responsibility for liabilities. The equity method is applied when accounting for the joint venture. Under the equity method of accounting the investment is recognized at cost and subsequently adjusted to DDM’s 50% share of the change in the net assets of the Joint Venture since the acquisition date.

The consolidated income statement includes DDM’s share of earnings, and this is reported under Share of net profits / (losses) of joint venture. Dividends received from the joint venture are not recognized in the income statement and instead reduce the carrying value of the investment. The equity method is applied from the date joint control arises until the time it ceases, or if the joint venture becomes a subsidiary. Upon loss of joint control over the joint venture, and as such the equity method ceases, the Company measures and recognizes any difference between the carrying amount of the investment in the joint venture with the fair value of the remaining investment and/or proceeds from disposal which is recognized as a gain or loss directly in the income statement. The financial statements of the Joint Venture are prepared for the same reporting period as the Company.

## Note 1. Basis of preparation... continued

Joint Ventures	Consolidation method	Domicile	31 March 2023	31 December 2022
CE Partner S.à r.l.	Equity method	Luxembourg	50%	50%
CE Holding Invest S.C.S	Equity method	Luxembourg	50%	50%

### Associates

Associates are all entities over which DDM Holding AG has significant influence but not control or joint control. This is generally the case where the group holds between 20% and 50% of the voting rights. Interests in associates are accounted for using the equity method. The carrying amount (including goodwill) of equity accounted investments is tested annually for impairment.

### Financial assets at fair value

Equity-traded instruments and other investments that do not meet the criteria under IFRS 9 of cash flows consisting solely of payments of principle and interest (SPPI) and Hold to collect for being measured at amortised cost nor elected at FVTOCI are measured at fair value through profit or loss (FVTPL).

Financial assets held at FVTPL are initially recognised and subsequently measured at fair value at the end of each reporting period, with any fair value gains or losses recognised through financial income or expenses respectively in the consolidated income statement. Dividends or any interest earned on the financial assets are included within financial income.

### Post-employment benefit commitment

The post-employment benefit commitment is calculated on an annual basis. In 2022 and 2023 one quarter of the estimated annual post-employment benefit commitment has been recorded in the consolidated interim financial statements of DDM Holding AG per quarter, with an adjustment in fourth quarter of each respective year for the final actuarial valuation.

## Note 2. Currency translation

All entities prepare their financial statements in their functional currency. At 31 March 2023 all fully consolidated group entities have EUR as their functional currency, except for DDM Debt Management d.o.o Beograd, which has Serbian Dinar (RSD) as its functional currency, DDM Debt Romania S.R.L and AxFina Romania S.R.L which have Romanian Leu (RON) as their functional currency, Raport S.A. which has Polish Zloty (PLN) as its functional currency and Finalp Zrt., AxFina Hungary Zrt., AxFina Servicing kft. and Lombard Ingatlan Zrt. which have Hungarian Forint (HUF) as their functional currency. In 2022 DDM REO Adria d.o.o. and AxFina Croatia d.o.o. had Croatia Kuna (HRK) as their functional currency. On 1 January 2023 Croatia adopted the EUR as its national currency at a determined conversion rate of 7.53450 HRK for 1 EUR.

## Note 3. Business combination

### Summary of acquisition of AxFina Holding S.A.

On 6 July 2022, DDM Debt AB (publ) ("DDM Debt"), a 100% subsidiary of DDM Holding AG, acquired 50.16% of the issued share capital of AxFina Holding S.A. ("AxFina"), a pan European debt servicing provider. AxFina is a key partner for DDM Debt's loan portfolios. In addition to its core debt servicing solutions, AxFina is also providing business outsourcing services and digital debt management solutions to multiple industries. The acquisition of AxFina allows DDM Debt to profit from the intended growth of the service revenues of AxFina, both in (third party) debt servicing as well as in digital solutions, which complement the asset intensive business of DDM Debt. AxFina will also facilitate new market entries for DDM Debt (e.g. in Poland, where AxFina has recently established a presence). By taking a direct stake in its key debt servicing partner, DDM Debt is following a well-established industry practice and expects its core NPL business to benefit from a closer collaboration between DDM Debt and AxFina.

Details of the goodwill are as follows:

Goodwill	EUR '000s
Purchase consideration	14,040
Fair value of net assets	3,018
<b>Goodwill</b>	<b>11,022</b>

The goodwill of EUR 11,022k is therefore attributable to the access to new markets, the workforce and the expected future profitability of the acquired business.

### Note 3. Business combination ... continued

The fair value of acquired assets and assumed liabilities recognized as a result of the acquisition are as follows:

<b>Acquired net assets</b>	<b>EUR '000s</b>
Fixed assets	1,036
Distressed asset portfolios	5,606
Cash and cash equivalents	7,537
Other assets	2,556
<b>Fair value of total assets</b>	<b>16,735</b>
Financial liabilities	(6,415)
Trade payables	(511)
Other liabilities	(3,792)
<b>Fair value of total liabilities</b>	<b>(10,718)</b>
<b>Fair value of total net assets</b>	<b>6,017</b>
<b>Fair value of acquired net assets (50.16%)</b>	<b>3,018</b>
<b>Goodwill on acquisition</b>	<b>11,022</b>
<b>Total purchase consideration</b>	<b>14,040</b>

The goodwill on acquisition was consolidated using provisional values allocated by management to their respective identifiable assets and liabilities based on currently available data as at the date of acquisition. Considering that the date of the transaction was 6 July 2022, the reference date used for the PPA was the financial position as at 30 June 2022.

The fair value of the assets acquired mainly includes: i) the cash and cash equivalents held at bank at acquisition; ii) distressed asset portfolios relating to unsecured portfolios acquired in Hungary, Poland and Romania; and iii) fixed assets which mainly relate to the customer list acquired by AxFina in Poland.

The fair value of the liabilities assumed at acquisition includes amounts payable to banks, leasing companies and loans for an amount of EUR 6,415k. The fair value of the other liabilities assumed at acquisition principally relates to accrued expenses & deferred income of EUR 3,792k and trade payables of EUR 511k.

The cash consideration at the date of acquisition amounted to EUR 13,515k. An amount of EUR 525k was settled on a non-cash basis. Acquisition-related costs were not material and were recognized directly in the income statement under consulting expenses and in operating cash flows in the statement of cash flows.

#### Purchase consideration – cash outflow

<b>Outflow of cash to acquire subsidiary, net of cash acquired</b>	<b>EUR '000s</b>
Cash paid	13,515
Less cash & cash equivalents acquired	(7,536)
<b>Net outflow of cash – investing activities</b>	<b>(5,979)</b>

#### Net collections and revenue contribution

The acquired business contributed net collections of EUR 1.2m and service fees of EUR 0.1m to the DDM group for the period from 1 January to 31 March 2023.

### Note 4. Deferred taxes

Income tax expense reported for the business year includes the income tax expense of consolidated subsidiaries (calculated from their taxable income with the tax rate applicable in the relevant country). Income tax expense also includes deferred taxes, which have been recognized on the temporary differences arising from the invested assets (difference between the reported book values for tax and accounting purposes). Deferred income tax assets on temporary differences and tax losses carried forward are reported to the extent that it is probable that future profit will be available, against which the temporary differences can be utilized.

The amount of deferred tax assets is reduced when they are utilized or when it is no longer deemed likely that they will be utilized. The Company does not have group taxation, hence each legal entity is taxed separately. Under Swiss law, net operating losses can be carried forward for a period of up to seven years.

## Note 5. Distressed asset portfolios

DDM invests in distressed asset portfolios, where the receivables are directly against the debtor. The recognition of the acquisition of distressed asset portfolios is based on the DDM Group's own forecast of future cash flows from acquired portfolios. Distressed asset portfolios consist mainly of portfolios of non-performing debts purchased at prices significantly below their principal value. Such assets are classified as non-current assets. Reporting follows the effective interest method, where the carrying value of each portfolio corresponds to the present value of all projected future cash flows discounted by an initial effective interest rate determined on the date the portfolio was acquired, based on the relation between purchase price and the projected future cash flows on the acquisition date. Changes in the carrying value of the portfolios are reported as amortization, revaluation and impairment for the period.

If the fair value of the investment at the acquisition date exceeds the purchase price, the difference results in a "gain on bargain purchase" in the income statement within the line "interest income on invested assets". The gain on bargain purchase relates to the fair value measurement of the investment (purchase price allocation).

The acquisition method of accounting is used to account for all business combinations, the excess of the consideration transferred for the acquisition over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognized directly in profit or loss as a bargain purchase within the line "other operating income".

Cash flow projections are made at the portfolio level since each portfolio consists of a large number of receivables. Assumptions must be made at each reporting date as to the expected timing and amount of future cash flows. Cash flows include the nominal amount, reminder fees, collection fees and late interest that are expected to be received from debtors less forecasted collection costs. These projections are updated at each reporting date based on actual collection information, planned collection actions as well as macroeconomic scenarios and the specific features of the assets concerned. These scenarios are probability weighted according to their likely occurrence. The scenarios include a central scenario, based on the current economic environment, and upside and downside scenarios.

The estimation and application of this forward-looking information requires significant judgment and is subject to appropriate internal governance and scrutiny. Changes in cash flow forecasts are treated symmetrically i.e. both increases and decreases in forecast cash flows affect the portfolios' book value and as a result "Revenue on invested assets". If there is objective evidence that one or more events have taken place that will have a positive impact on the timing or amount of future cash flows, or a negative impact on the timing of future cash flows then this is recorded within the line "Revaluation of invested assets".

DDM assesses at each reporting date whether there is objective evidence that a portfolio is impaired. A portfolio is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the portfolio that can be reliably estimated. This is recorded within the line "Impairment of invested assets". If, in a subsequent period, the amount of the impairment loss decreases, and the decrease can be related objectively to an event occurring after the impairment was recognized, the reversal of the previously recognized impairment loss is recognized in the consolidated income statement (within the line "Impairment of invested assets"). If DDM sells a portfolio for a higher or lower amount than its carrying value, the resulting gain or loss on disposal is recognized in the consolidated income statement (within the line "Interest income on invested assets").

The carrying values of distressed asset portfolios are distributed by currency as follows:

Distressed asset portfolios by currency, EUR '000s	31 March 2023	31 December 2022
EUR	47,915	3,737
PLN	9,732	10,070
HUF	6,014	6,097
RON	3,980	4,347
RSD	1,540	1,508
CZK	177	184
HRK	–	45,160
<b>Total</b>	<b>69,358</b>	<b>71,103</b>

Note: On 1 January 2023 Croatia adopted the EUR as its national currency at a determined conversion rate of 7.53450 HRK for 1 EUR.

DDM considers there to be no material differences between the financial asset values in the consolidated balance sheet and their fair value.

## Note 6. Investment in joint venture

On 31 May 2019, DDM acquired a distressed asset portfolio containing secured corporate receivables in Croatia through a 50/50 joint venture with B2Holding. As part of the co-investment structure with B2Holding, DDM became 50% owner of the share capital and voting rights of CE Partner S.à r.l. and CE Holding Invest S.C.S. (the "Joint Venture") registered in Luxembourg.

The investment is accounted for using the equity method in accordance with IFRS 11 Joint Arrangements and has changed as follows during the period:

<b>Investment in joint venture EUR '000s</b>	<b>31 March 2023</b>	<b>31 December 2022</b>

<b>Balance at end of the period</b>	<b>21,284</b>	<b>21,546</b>

Cash distributions of EUR 0.1m (FY 2022: EUR 19.7m) have been received from the joint venture during Q1 2023.

## Note 7. Investment in associates

On 13 February 2023, DDM received the conversion notice from OmniOne S.A. in respect of the conversion of DDM's outstanding bond in OmniOne, equal to EUR 17,334,464, in exchange for 685,426 shares in OmniOne. New shares were issued and registered on 26 January 2023. On 24 February 2023 OmniOne successfully concluded a capital increase of EUR 9m at a pre-money valuation of EUR 60m. DDM contributed EUR 4m in exchange for 151,573 new shares. On the same date, as a further contribution to the stabilization and success of OmniOne S.A., DDM subscribed for 473,949 new shares, converting the majority of its existing investment in Omnione S.A. into equity. In total EUR 33m of convertible bonds and existing investments were converted into shares of Omnione S.A in Q1 2023.

The investment is accounted for using the equity method in accordance with IAS 28 Associates and has changed as follows during the period:

<b>Investment in associates EUR '000s</b>	<b>31 March 2023</b>	<b>31 December 2022</b>

<b>Balance at end of the period</b>	<b>32,368</b>	<b>–</b>

## Note 8. Financial assets at fair value

Equity-traded instruments and other investments that do not meet the criteria under IFRS 9 of cash flows consisting solely of payments of principle and interest (SPPI) and Hold to collect for being measured at amortised cost nor elected at FVTOCI are measured at fair value through profit or loss (FVTPL).

Financial assets held at FVTPL are initially recognised and subsequently measured at fair value at the end of each reporting period, with any fair value gains or losses recognised through financial income or expenses respectively in the consolidated income statement. Dividends are included within financial income and interest earned on the financial assets is included within interest income on invested assets.

During 2022, DDM invested EUR 13.3m in Omnione S.A (“Omnio”), a leading innovator in Banking-as-a-Service. A further EUR 1.8m was invested in Q1 2023. In January and February 2023, as part of a wider fund raising of Omnione S.A., DDM converted a total amount of EUR 33m of convertible bonds and existing investments into shares of Omnione S.A., with the invest reclassified to investment in associates.

During 2022, DDM also invested EUR 4.5m into a special purpose acquisition company that is located in Sweden.

<b>Financial assets at fair value EUR '000s</b>	<b>31 March 2023</b>	<b>31 December 2022</b>

<b>Balance at end of the period</b>	<b>43,051</b>	<b>68,743</b>

## Note 9. Tangible assets

Tangible assets are stated at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset as appropriate only when it is probable that future economic benefits associated with the item will flow to the Company and the cost can be measured reliably. Repairs and maintenance costs are charged to the income statement during the period in which they are incurred.

The major categories of tangible assets are depreciated on a straight-line basis as follows:

Furniture	5 years
Computer hardware	5 years

The Company distributes the amount initially recognized for a tangible asset between its significant components and depreciates each component separately. The carrying amount of a replaced component is derecognized when replaced. The residual value method of amortization and the useful lives of the assets are reviewed annually and adjusted if appropriate. Impairment and gains and losses on disposals of tangible assets are included in other operating expenses.

## Note 10. Intangible assets

### (i) Identifiable intangible assets

The Company's identifiable intangible assets are stated at cost less accumulated amortization and include computer software that have finite useful lives and customer relationships. The assets are capitalized and amortized on a straight-line basis in the income statement over their expected useful lives of 5 years.

### (ii) Goodwill

On the date of acquisition the assets and liabilities of acquired subsidiaries or businesses are valued at fair value and in accordance with uniform group policies. The excess of the acquisition price over the revalued net assets of the acquired company or the acquired parts of the business is recognized as goodwill in the balance sheet. Goodwill is tested annually for impairment or at any time if an indication of impairment exists.

## Note 11. Loans and borrowings

The Group had the following borrowings outstanding during the periods ending 31 March 2023 and/or 31 December 2022:

### Bond loan EUR 200m

On 19 April 2021, DDM Debt AB (publ) ("DDM Debt") issued EUR 150m of senior secured fixed rate bonds at 9% within a total framework amount of EUR 300m. The bonds with ISIN number SE0015797683 have a final maturity date of 19 April 2026 and are listed on the Corporate Bond list at Nasdaq Stockholm. The proceeds from the new bond issue were mainly employed towards refinancing the existing EUR 100m and EUR 33.5m bonds (of which EUR 23m of the EUR 100m bonds were already held by DDM Debt) and for investments and acquisitions.

On 21 September 2021, DDM Debt successfully completed a EUR 50M tap issue under the EUR 300M senior secured bond framework. The bond tap issue was placed at a price of 102.0%. Following the tap issue the total outstanding nominal amount of DDM Debt's bond loan is EUR 200m.

DDM Debt's financial instruments contain a number of financial covenants, including limits on certain financial indicators. The financial covenants (an equity ratio of at least 20.00% and net interest-bearing debt to ERC below 75.00%) must be complied with on an incurrence test basis. DDM's management carefully monitors these key financial indicators, so that it can quickly take measures if there is a risk that one or more limits may be exceeded. Please also refer to the financial statements of DDM Debt.

DDM Debt has pledged the shares in its material wholly owned subsidiaries as security under the terms and conditions. DDM Finance AB is a guarantor of the bonds. In addition, the investors receive a first ranking share pledge over the shares of DDM Debt. The terms and conditions of DDM Debt's senior secured bonds contain a number of restrictions, including relating to distributions, the nature of the business, financial indebtedness, disposals of assets, dealings with related parties, negative pledges, new market loans, mergers and demergers and local credits. The terms and conditions of the senior secured bonds are available in their entirety on our website.

### Senior secured notes EUR 18m

In 2017-2019 DDM Finance AB ("DDM Finance") issued EUR 18m in total of senior secured notes. DDM Finance used the majority of the net proceeds to provide a shareholder loan to DDM Finance's wholly owned direct subsidiary DDM Debt, which thereby qualifies as equity under the current DDM Debt senior secured bond terms. Under the terms and conditions investors receive a share pledge over the shares of DDM Finance, and any downstream loans to DDM Finance's direct subsidiary are pledged to investors as intercompany loans. The maturity date of the senior secured notes was originally 30 June 2022, but was extended to 31 March 2023, with a partial repayment of EUR 12.5m including accrued interest made on 7 July 2022. In April 2023 a further partial repayment of EUR 6.5m including accrued interest was made, and the remaining outstanding balance was extended to 31 March 2024.

### Bond loan EUR 6m

The bond loan of EUR 3,448k is a non-interest bearing loan which was taken on as part of the acquisition of AxFina, which in its turn took over the financial liability when acquiring its Polish subsidiary, Raport S.A. The bond loan is measured at amortized cost using the effective interest method. Since the bond as per the restructuring agreement does not have an interest component a reference interest rate was applied.

### RCF EUR 4.5m

On 8 February 2023, DDM Debt agreed a super senior revolving credit facility of EUR 4.5M with a Swedish bank. The revolving credit facility is available to finance investments and for general corporate purposes. The facility is available until 30 June 2025 and priced at Euribor plus a margin of 375 basis points.

### The levels in the hierarchy are:

- Level 1 – Quoted prices on active markets for identical assets or liabilities.
- Level 2 – Inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (such as prices) or indirectly (such as derived from prices). The fair value of the bond loans is calculated based on the bid price for a trade occurring close to the balance sheet date.
- Level 3 – Inputs for the asset or liability that are not based on observable market data (that is unobservable inputs).

## Note 12. Revenue recognition

Revenue on invested assets is the net amount of the cash collections (net of direct collection costs), amortization, revaluation and impairment of invested assets.

Gross collections are comprised of cash collections from the distressed asset portfolios held by DDM, before commission and fees to third parties. The gross amount of cash collected is recorded as “Gross collections” within the line “Interest income on invested assets” in the consolidated income statement. DDM discloses the alternative performance measure “Gross collections” in the notes separately, as it is a common measure to monitor the performance of portfolios in the debt purchasing industry.

Net collections are comprised of gross collections from the distressed asset portfolios held by DDM, minus commission and fees to third parties. The net amount of cash collected is recorded as “Net collections” within the line “Interest income on invested assets” in the consolidated income statement. DDM discloses the alternative performance measure “Net collections” in the notes separately, as it is an important measurement for DDM to monitor the performance of the portfolios and measure the cash available for operating expenses and to service its debt. DDM believes that disclosing net collections as a separate performance measure in the notes improves the transparency and understanding of DDM's financial statements and performance, meeting the expectations of its investors.

## Note 12. Revenue recognition... continued

Collection costs are comprised of all expenses directly attributable to the collection of distressed asset portfolios, such as collection fees, commission, transaction costs, non-recoverable VAT on amounts collected and Swiss VAT where applicable. The collection costs differ from portfolio to portfolio depending on the country/jurisdiction and the specific features of the assets concerned.

### Interest income

During 2021, DDM invested into a total of EUR 15.8m of pre-IPO convertible bonds in Omnione S.A (“Omnio”), a leading innovator in Banking-as-a-Service measured at cost within financial assets at fair value level 3, at an annual rate of 2% cash interest and 6% Payment-in-Kind (“PIK”), including convertibility rights into ordinary shares of Omnio. In addition, EUR 7.9m was invested in Omnio during 2021 and EUR 13.3m during 2022. In January and February 2023, as part of a wider fund raising of Omnione S.A., DDM converted a total amount of EUR 33m of convertible bonds and existing investments into shares of Omnione S.A.

Interest income from Omnio to DDM for the first quarter 2023 amounted to EUR 0.7m (Q1 2022: EUR 0.6m), which has been recognized in interest income.

### Share of net profits / (losses) of associate and joint venture

The results for Q1 2023 include EUR 0.2m (Q1 2022: EUR 2.5m) from share of net profits of joint venture accounted for using the equity method in accordance with IFRS.

The results for Q1 2023 include EUR 1.0m (Q1 2022: EUR nil) from share of net losses of associates accounted for using the equity method in accordance with IFRS.

### Revenue from management fees and other services

Revenue from management fees and other services relate to revenue received from co-investors where DDM managed the operations of the assets but did not own 100% of the portfolio and service revenues from third parties.

### Note 13. Related parties

In 2019, DDM Group Finance S.A. entered into an agreement with the DDM Group where DDM Group Finance S.A. provides services under a brokerage contract. In relation to this agreement an amount of EUR 1.0m (Q1 2022: EUR 0.8m) of brokerage fees were charged during Q1 2023.

During 2020 DDM restructured its investment in the Greek NPL transaction which resulted in accelerated collections of EUR 59.8m being received in H2 2020 and the entire carrying value remaining of EUR 43.8m prior to the restructuring was recognized as amortization. DDM assessed the transaction and concluded that it retains the same contractual rights to future cashflows in the distressed asset portfolio as prior to the restructuring and therefore has not derecognized the asset under IFRS 9 amortized cost. In Q1 2022 DDM released EUR 0.5m of accrued expenses and deferred income recognized during 2020 following the restructured investment in the Greek NPL transaction, which was recognized in net collections. Transactions between DDM Group companies (fully consolidated) and Artemis Finance Holding (and its subsidiaries) were as follows:

During 2022 DDM Finance AB entered into a loan agreement with DDM Group Finance S.A. for an amount of EUR 11.1m, for which EUR 0.3m of financial expenses were recognized during Q1 2023 (Q1 2022: nil).

Non-current assets at 31 March 2023 includes EUR 0.7m (31 December 2022: EUR 0.7m) receivable from DDM Group Finance S.A.

On 6 July 2022, DDM Debt AB (publ), a 100% subsidiary of DDM Holding AG, acquired 50.16% of the issued share capital of AxFina Holding Sarl (“AxFina”), a pan European debt servicing provider. AxFina is a key partner for DDM's loan portfolios. In addition to its core debt servicing solutions, AxFina is also providing business outsourcing services and digital debt management solutions to multiple industries. The acquisition of AxFina allows DDM to profit from the intended growth of the service revenues of AxFina, both in (third party) debt servicing as well as in digital solutions, which complement the asset intensive business of DDM. AxFina will also facilitate new market entries for DDM (e.g. in Poland, where AxFina has recently established a presence). By taking a direct stake in its key debt servicing partner, DDM is following a well-established industry practice and expects its core NPL business to benefit from a closer collaboration between DDM and AxFina. The seller of the stake in AxFina was DDM Group Finance S.A. The transaction was done at an implied valuation for 100% of AxFina of EUR 28m.

During 2022 the DDM Group invested a total of EUR 13.3m into Omnione S.A., which lead to a total exposure to Omnio as of 31 December 2022 of EUR 41.0m. In early 2023, Omnione SA finalized a funding round in the form of a capital increase of EUR 9m, of which the largest part involved third party investors. In parallel with this funding round the capital setup of Omnione was restructured by converting the outstanding Convertible Bonds as well as most of the existing investment into shares of Omnione S.A. The EUR 9m fundraising was priced at EUR 26.39 per share, which is equivalent to a pre-capital increase (but post debt conversion) equity value of Omnione of EUR 60m. The valuation was also supported by the appraisal of an independent expert. Interest income from Omnio to DDM amounted to EUR 0.7m (Q1 2022: EUR 0.6m) which has been recognized in interest income during Q1 2023.

In December 2022 DDM entered into an agreement with Zalent Co. Limited in connection with a short-term secured shares loan agreement of 400,000 ordinary shares of Addiko Bank AG. The shares were lent at an interest rate of 15% on the EUR equivalent value of the shares at the closing price on 6 December 2022 of EUR 11.45. Interest income from Zalent to DDM amounted to EUR 0.2m (Q1 2022: EUR nil) which has been recognized in financial income during Q1 2023.

#### **Note 14. Share based compensation**

DDM Holding AG's parent company, DDM Group Finance S.A, established an Employee Stock Option Plan ("ESOP"). The ESOP is a share-based compensation plan where employees and members of the Executive Management Committee ("EMC") receive additional compensation in the form of share-based payments, whereby they render services as consideration for DDM Group Finance S.A's equity instruments (equity-settled transactions). The ESOP is designed to provide long-term incentives for employees and members of the EMC to deliver long-term shareholder returns.

EUR nil employee benefit expenses have been recognised arising from share-based payment transactions during the period ended 31 March 2023 (Q1 2022: EUR nil), given that the fair market value of DDM Group Finance S.A is expected to remain significantly below the performance hurdle of the ESOP throughout the vesting period.

#### **Note 15. Subsequent events**

On 3 April, Florian Nowotny informed the Board that he has decided to step down from his position as CEO. The Board of Directors thanks Mr. Nowotny for his commitment and his valuable contribution to the Company. From the same date, Dr. Andreas Tuczka (Chairman of the Board of Directors) assumed the role of Executive Chairman on an interim basis and leads the company together with Fredrik Olsson, Chief Financial Officer, and Alessandro Pappalardo, Chief Investment Officer, until a permanent CEO-successor is announced. Florian Nowotny has agreed to ensure a smooth handover of his role and will remain as an advisor during a transition period.

On 6 April, DDM acquired an additional 25% of the share capital of AxFina Holding SA ("AxFina"), taking its total holding in AxFina to 75%. The seller of the stake in AxFina is DDM Group Finance S.A.

On 7 April, DDM was informed by Nordiska that it is aborting the process regarding a combination of Nordiska with Swiss Bankers and Omnio. As a result, also the intended acquisition of a minority stake in Nordiska by DDM is on hold.

DDM considers all the subsequent events above as non-adjusting events after the end of the reporting period.

The financial statements of the Company have been prepared in accordance with IAS 34 Interim Financial Reporting. In addition, the Company presents alternative performance measures (“APMs”). Adjusted key figures for gross collections, net collections and cash EBITDA for the period provide a better understanding of the underlying business performance and enhance comparability from period to period, when the effect of items affecting comparability are adjusted for. Items affecting comparability can include one-time costs not affecting the Company’s run rate cost level, significant earnings effects from acquisition and disposals of invested assets, incremental distributions from associates and joint ventures and distributions from financial assets at fair value.

These measures do not have any standardized meaning prescribed by IFRS and therefore are unlikely to be comparable to the calculation of similar measures used by other companies. The APMs are regularly reviewed by Management and their aim is to enhance stakeholders’ understanding of the Company’s performance and to enhance comparability between financial periods. The APMs are reported in addition to but are not substitutes for the financial statements prepared in accordance with IFRS. The APMs provide a basis to evaluate operating profitability and performance trends, excluding the impact of items which in the opinion of Management, distort the evaluation of the performance of our operations.

The APMs also provide measures commonly reported and widely used by investors as an indicator of the Company’s operating performance and as a valuation metric of debt purchasing companies. Furthermore, APMs are also relevant when assessing our ability to incur and service debt. APMs are defined consistently over time and are based on the financial data presented in accordance with IFRS.
